O'LEARY GETS ON HIS MUSCLE

The Walking Match.

There is nothing sure about the walking match in progress at the exposition building except that Hart has a sinch on first money. He has had an easy week of it. Capable of covering 600 miles in six days he has not labored very hard to cover the 400 miles which will be given to his credit to-night. His hardest work was in running Brezee, who was a dangerous man for second place, off the track. The contest is now for second place and lies between Herriman and O'Leary. They were tied at man and O'Leary. They were tied at midnight, and both will make a final struggle to-day. O'Leary has not been able to eat anything since the walk began, but depends upon his staying powers to lead Herriman in the closing hours of the contest. Herriman is somewhat jaded, but keeps up his gait with dogged persistency. Smith, Gregg and Huffman are pursuing the even tenor of their way. The score at loclock last night was as follows:

Miles Laps

last evening was large, and promises well for the financial success of the venture. This evening the price of admission will be 50 cents for the first floor and 25 cents for the gallery. The contest will close to-night at 12 o'clock.

O'Leary On His Muscle. At 13:30 o'clock this morning at the expo-sition building Dan O'Leary objected to the score given Herriman, and claimed that the scorer had pushed the latter pedestrian two miles ahead of his rightful distance. The scorer replied that he hadn't done anything of the kind. To this O'Leary responded that the scorer was a liar and a thief, and when the scorer returned the compliment, when the scorer returned the compliment, jumped on the stage with a chair. The scorer wasn't looking for that kind of a lap to be made and ran behind the board. At this juncture Jerry Murphy got hold of O'Leary and led him to his dressing room. Then he undertook to give the doughty pedestrian some advice and O'Leary heeded it by knocking Murphy off his chair. Then Dan grabbed the wine bottle, drank off its contents, and threw the bottle at Murphy.

Manager Schriver angeared on the years

Manager Schriver appeared on the scene at this juncture and quieted matters. O'Leary immediately resumed the track and was off as if his little break had refreshed him as much as a twelve-hour sleep. The race for second place is now close between the control of O'Leary and Herriman, and each yows that he will stay on the track continuously until

Local Ball Notes. Colonel Jack Sneed, formerly of the Union Pacifics, is in the city. He has signed with the Topekas.

The grounds at the Association park are in a very damp condition and will probably cause a postponement of the Omaha-Topeka game billed for this afternoon. It is probable that two games will be played to-morrow. The C. E. Mayne club will play with the Moore & Kiplinger nine, of Council Bluffs, at Lake Manawa to-morrow afternoon.

Lincoln Ball Notes. LINCOLN, Neb., June 10 .- [Special to the BEE. |-The rain to-day deferred the Kansas City-Lincoln game and yesterday Lincoln escaped defeat by the timely arrival of rain. Lincoln has now a team that ought to win. They have just signed the Leavenworth first baseman, paying \$700 for his release, and Hart, their new pitcher, arrived Thurday from Philadelphia. Rain Hinders the Sport. Stoux Ciry, Ia., June 10 .- [Special Tele. gram to the BEE. |- The rain interfered in very large part with the state firemen's tournament to-day. The races were not advertised to commence until about noon. The early incoming trains brought a large number of visitors, and had it not been for number of visitors, and had it not been for the bad weather the last day would have been one of the most interesting of the entire week. It was finally decided to postpone the free-for-all and hub-and-hub races until to-morrow afternoon. The only races of to-day were the following: Hook and ladder sweepstake: Welton team, 300-yards run and climb of thirty feet in 56% seconds on slippery ground. Sweepstakes hose race: A. H. Smith team, of Clinton, 47 seconds.

The Future of the Boat Club. It seems to be understood among the members of the Omaha Rowing club that they can never expect to accomplish the object of their association in Cut-Off lake. There are two feet more of water there now than ever before, and yet the weeds come up so high as to make it impossible to row through them. In the opinion of Mr. Hudson at least \$2,000 would be required to dredge the lake, and that, perhaps, would have its effect but for a couple of years, when the same expense would again have to be incurred. The financial condition of the club is not such as to warrant this periodical outlay. When there is a certainty of a motor line to Lake Manawa, which fact will be determined in a few days, the club will decide as to whether or not it will build its house at that place.

Shooting Practice. To-day and Monday there will be a general practice of the Omaha Gun and Lefevre clubs at the new grounds, by way of preparation for the forthcoming tournament.

A Texas Prohibition Sensation. SAN ANTONIO, Tex., June 10,-Hon. H. Booker, a leading prohibitionist, charging the defendants with disturbing and breaking up a prohibition meeting held last Tuesday night on a lot owned by the federal government. The city council had previously refused permission to hold the meeting on the public plaza. The arrests have caused a sensation and intensified the feeling between the prohibitionists and anti-prohibitionists. The defendants were released on their own recognizance.

The Pauper Emigrant Question. New York, June 10.—Counsel for the In-man Stearship company applied to-day to the United States district court for a writ of habeas corpus in the case of seventy lrish emigrants whose return to Ireland on the City of Chester to-morrow has been ordered by the emigrant commissioners. The argu-ments will be heard Tuesday. Two thousand, seven hundred and twenty sight conference were landed at Castle Garden to-day. The new rule to hold all children under sixteen years of age unaccompanied by the proper cuardians went into effect this morning. Several boys were found to be alone and they were held for investigation.

Bosses Refuse to Arbitrate. CHICAGO, June 10.—The attempt of the Bricklayers union to arbitrate the differences with employers has failed. The bosses thu afternoon declined to arbitrate, and the end afternoon declined to arbitrate, and the end of the lockout is apparently as far away as ever. The action of the master masons, it is thought, will cause the master carpenters to adhere to their nine-hour plan, and the result will be that thousands of idle men will be added to those already out of work. The builders' central council has adopted resolutions recommending to all subordinate associations the establishment of a uniform workday and commending the action of the master masons.

Minister Crispl said the government at any rate was not seeking conciliation and had no wish to know what was occurring in the vatican. The time had ripened, however, for questions that might lead to a reconciliation, which would never be detrimental to national would rights.

General Black Seren aded SPRINGFIELD, 111., June 10.—General John C. Black, of the pension office, was given a complimentary serenade at the hotel this evening. In expressing his thanks for the attention, he delivered a fifteen-minute speech which was entirely free from politics and which in the main was given to praising the capital city of Illinois and the state. A brief tribute was also paid to the statesmen dead and living of the common wealth.

Findley Still Celebrating. FINDLAY, O., June 10 .- The third day of the natural gas carnival was devoted to military exhibitions. The city was filled with spectators. In the evening there was a glittering military parade by gas light, a repeti-tion of the marvelous illumination, and a band contest that aroused uncommon inter-est in musical circles and was very agreeable to the lightness. to the listeners.

A Sympathetic Strike St. PAUL, June 10.-Three hundred and fifty union bricklayers quit work to-day as an expression of sympathy with the striking arpenters. On The Union Pacific. Coroner Drexel yesterday afternoon held an inquest over the remains of the victim of Thursday's accident. The man was identified as John Hollender, a la-borer, who lived on South Thirtieth street. He was sixty-three years of age, and leaves a wife and two grown sons crew of the dirt train which ran Hollen-der down testified to the circumstances of the accident. Conductor Cunningham stated that he was standing on a flat ear keeping a lookout, but did not see Hol-lender until within a few rods of him. He shouted a cry of alarm, and Hollender made an attempt to get out of the way, but was struck just as he was sprieging from the track. The jury returned a verdict exonerating the trainmen from any blame in the matter. The funeral of the deceased will be held from his late registrates this afternoon. residence this afternoon.

AFTER A VERY BUSY SESSION

The Lutheran Synod Will Reach an Adjournment This Alernoon.

THE BIG WORK OF YESTERDAY A Souvenir of Omaha-John Hollender's Death-Rock Island Magnates - Contractor Fanning Talks-Local. The Morning Session.

The morning session opened with devotional services under the leadership of Rev. Dr. Ort, the president. The con sideration of business began at half past nine o'clock. The board of education was authorized to draw upon the treasury of the general synod for funds needed in the execution of their work The chairmen of the several delegations were instructed to call the attention of their synods to the importance of raising the money needed for this purpose. Rev. J. D. Severinghaus read a report

of the condition and work of the recently established German theological seminary at Chicago, Ill. During the past two years this institution has sent out ten young men into the ministry. The receipts of the seminary treasury were The report answering inquiries of the

hymnbook publishing committee was discussed by Rev. Dr. Baugher, Rev. Dr. Billheimer and Mr. J. W. Rice,

These inquiries arose by reason of the fact that a recent edition of the Sunday school hymn book contained the apos-tles' creed with different punctuation from that found in the book of worship. An amicable difference of opinion ex-isted between the hymnbook committee and the Sunday school hymnbook com-mittee, and they desired the synod to define the authority of the standing com-mittee. The decision was that all publications concerning the doctrinal teachings of the church must first be approved by the general synod. The hymnbook publishing committee was declared to have no au-thority to alter or amend the subject matter prepared by any other standing com-mittee until so ordered by the general

He referred to the other great works, such as "Schmidt's Dogmatik," that had not brought great money returns, but were still of incalculable value to the church. He went on to say that few men possessed the necessary qualifications to be the editor. Providence sometimes brings such men forth. Four years ago I would not have known where to find a man fit not have known where to find a man fit for this work. A man who is put upon the track will never leave it until he comes successfully to the conclusion of the work. Here he pointed to Rev. Sylvanus Stall, giving the reasons why Mr. Stall would be able to obtain the cooperation of leading men in all branches of the church, and saying farther: What if it does cause great expense? We have if it does cause great expense? We have the money, and this would be the best use we can make of it. Do not be afraid to venture. Where is your faith and your hope? The publication society is the only one that is able to do this work. A bold venture is half the victory.

Rev. Prof. E. H. Bartholemew offered : series of resolutions asserting the necessity of the continued existence of Car-thage college, at Carthage, Ill., which has been somewhat embarrassed of recent years. The resolutions asked that the general synod endorse the college and recommend it to the support of the church

and synods on its territory.

The resolutions were adopted including one recommending Carthage college to the board of education for assistance to the amount of \$1,000, to relieve it from its present difficulties. Rev. Dr. Wolf presented the report of

the committee on overture from the bishops of the Protestant Episcopal church. The report lies over for consideration to-day.

As the train upon which they start will not arrive in Denver until Sunday morning, arrangements have been made to side track their special Puliman car at McCook where they will remain for twenty-four hours. They will all attend church at the Lutheran Mission church in that place, and after rest ing until midnight their car will be atched to the train arriving in Denver on Monday morning. A good sized party will probably leave Omaha for a similar excursion on Monday morning by the Union Pacific.

THE COURTS.

The Business Occupying Judicial Attion Yesterday.

In the United States circuit court yesterday morning the case of Ayres vs. the Sloman brothers was on hearing before

Judge Dundy.

DISTRICT COURT.

Henry A, Iddings commenced suit yesterday morning against J. A. Horbach, Sallie Horbach and Sophia Ran. He claims that the defendants filed in 1859, upon the northwest courter of see 15. upon the northwest quarter of sec. 15, township 15, range 13, by virtue of the preemption act of 1841. This land, at that time, as shown by the maps, was platted as the Omaha City company's addition to Omaha. as the Omaha City com-pany's addition to Omaha. It is alleged that Horbach caused the stakes of the platting to be pulled and caused the same to be replatted as Horbach's first addition to Omaha, which is now located north of Nicholas and east of Eighteenth streets. It includes lots six, seven, eight, nine and ten, of the Omaha City company's property, which now comprises lots thirty, thirty-one, thirty-two, thirty-three, of Horbach's addition. Several alleged illegal transfers were made, notably to a man named Teavitt and another named Rafferty instead of to James C. Megeath. Finally the property was recovered to Mercal. the property was reconveyed to Megeath and now the plaintiff asks that Horbach be compelled to disclose the identity of lots six, seven, eight, nine, ten and be prevented from disposing of the same until the matter can be adjudicated in the courts. An important suit was filed yesterday afternoon in the district court by Parke Godwin, in favor of Samuel I. Valentine,

one of the clerks of the auditor's office of the Union Pacific and against the city of Omaha. It is for \$15,000 damages. Valentine who is a young man, has been disabled for life from injuries sustained by a defective sidewalk on the corner of Farnam and Twenty-seventh streets.
At that intersection on the night
of the last 17th of March,
there was a dangerous hole in the sidewalk at the place mentioned, occasioned by the partial removal of a plank a short time before. In going home that night, Valentine stepped on the end of the plank and was thrown forward, on his plank and was thrown forward, on his side, over the curb into the street. He sustained an injury in the right ankle and the same has now extended to his thigh, and surgical experts claim that it will result in permanent injury. It is alleged that the dangerous walk was known to the city and that one of the city officers, bad been of city officers had been of-ficially notified of its existence. Valentine is now compelled to use crutches. Dr. Sloman's case against Jeweler Jonasen on the corner of Thirteenth and Harney streets was commenced yester-day morning before Judge Groff. Jona-sen was robbed some time ago. He had Dr. Sloman suspected of being im-plicated in the robbery. The latter now brings suit to recover \$10,000 damages. S. S. Hardy commenced suit in the district court yesterday for the enforcement of a mechanic's lien for \$176 on the property of Mrs. Lucy Hayes.

THE CONTRACTOR TALKS. C. E. Fanning Says He is Saving the City \$1,1,00 Every Month.

"I want to say, in answer to some thing the BEE published a few days ago,' said Charles Fanning, of C. E. Fanning & Co., yesterday, that the people of this city do not know that we are saving money for them in the sweeping of the streets of the city. They don't know, but it is a fact, just the same. The BEE says our bill for last month's sweeping \$1,700 onght to be investigated by the board of public works. If it should be investigated, this is what will be found. We are sweeping 1,881,200 square yards in four sweepings. This costs the city \$1,074.26. The last contract swept only 1,179,000 square yards, nearly 700,000 square yards less than we sweep now, at a cost to the city of \$1,768.50, or \$94.24 more than we get for sweeping 700,000 square yards more than he ever swept. On a basis of 1,881,200 square yards, the saving to the city per month is \$1,147.54, or \$13,770 per year. And then we have suffered more from dirt upon the street from careless grad-ers and builders than any contractor ever did before, and we have had no assistance from the city in the enforcement of ordinances to keep the dirt from being so disposed of."

THE LONG AND SHORT HAUL. A Detroiter Thinks it Will Be Repeated.

Philo Parsons, of Detroit, is at the Paxton. He is accompanied by his daughter, Miss Parsons, whose first visit has recently been made to the Pacific coast. Mr. Parsons is interested somewhat in Omaha realty, and believes in the future of the Gate city. He said: "The best indication of the prospects of your city is in the faces of men whom I see in your hotels. I see gentlemen here from every quarter of the country, and I find that nearly all of them who are known at home as careful investors and shrewd business men are placing their money in real estate. The result is they will improve their properties if enough improvements are not made by persons who permanently reside there. They have bought to sell, of course, but they will not allow their property to lie unimproved if they cannot sell at a profit without the erection of buildings. When you get brick and stone structures on property it has something more than speculative value. There is tangible worth about it which cannot be taken away. There is also the fact that for

away. There is also the fact that for every brick or stone or stick of timber somebody's money has been paid to some contractor and every contractor has paid somebody \$2.50 or \$3.50 per day which has quickly found its way into the circulating medium of the city."

Mr. Parsons believes that the interstate commerce law will be modified by the coming congress. He has found such radical opposition to it on the Pacific slope, and especially to the long and short haul clause, which opposition pervades the entire west, that he concludes it will be impossible to retain that clause.

The Rock Island Magnates. R. R. Cable, president of the Chicago,

Rock Island & Pacific railroad, three direc tors of the road, and W.R. Wilcox, first vice president of the Jacksonville, Talahas-see & Key West railroad, were the passen-gers of a special train which arrived in Omaha at 11 o'clock last night. The train was made up of two coaches, being the private car of Mr. Cable and also the private car of Mr. Wilcox. The train halted at the depot but two minutes, and preceed on its rapid run to Chicago. The proceed on its rapid run to Chicago. The party nave visited Kansas City and Denver only. They made a rapid run from Denver, leaving there yesterday morning. The train is provided with all needful accommodations for a long trip, carrying both day and night crews.

Mr. Cable stated that the Rock Island roads in the west were deliver as in roads in the west were doing an in-creasing business, and that everything was found by the pirectors to be in first class shape.

The break in the track of the Omaha road above Blair, where 1,000 feet was washed out by the recent heavy storm, has been repaired, but some anxiety was entertained last evening regarding the effect of the copious rainfall of yesterday.

A meeting of the freight agents was held in this city yesterday. Among the attendants were Messrs. factory to all the lines. Excursion to York and great auction sale of lots for the

benefit of York college of the Nebraska Wesleyan university. We call the attention of our readers to the advertisement of sale of college lots at York during commencement exercises. June 13th to 18, on page 8. The special auction sales to be the 15th and 16th. Now is the time to investigate. Consider and determine where to send your boys and girls to school the coming year. We hope that parents having children whom they desire to educate, and thus leave them a legacy far better than money or lands, will try and attend the coming exercises of the college and judge for themselves as to the management and efficiency of the school. York offers special advantages as a place for the education of young men and young ladies. Among these are low rates of tuition and boarding which is an item of economy we should all recognize. Then there are no saloons within twentyfive miles; and this is an argument which will not fail to have a great influence with parents having toys in school, York is also a city of churches as well as schools. Its church buildings are large and fine and well filled. The M. E. church has a membership of over six hundred and fifty. The whole community is always ready to help the students, and throw around them a continued good influence in morals and

Heretofore York has been somewhat restricted in regard to its railroad ad vantages, but with three new trunk lines vantages, but with three new trunk lines which will be in operation by the beginning of the next school year, there is hardly another town in Nebraska so centrally located, that has better railroad facilities. President R. N. McKaig with the efficient aid of the other members of the present faculty have done effectual work for the past year. He has also by his energy and enthusiasm, helped the board of trustees to raise the debt which has been accumulating on the which has been accumulating on the college, and secure much for an endowment; among the latter is the 120 acres of land which will now become a part of

the city.

These lots are finely located on high ground and within a few blocks of the college campus. Again we say, we advise all who can to visit York, attend the commencement exercises and purchase some lots, for by so doing they can save their excursion fare and entertainment, and obtain property which will rapidly increase in value and also helps to endow one of the best educational institutions in the state.

That Tired Feeling

The warm weather has a debilitating effect, especially upon those who are within doors most of the time. The peculiar, yet common, complaint known as "that tired feeling," is the result. This feeling can be entirely overcome by taking Hood's Sarsaparilla, which gives new life and strength to all the functions of the body.

"I could not sleep; had no appetite. I took Hood's Sarsaparilla and soon began to sleep soundly; could get up without that tired and languid feeling; and my appetito improved." R. A. SANFORD, Kent, Ohio.

Strengthen the System

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combination of remedial agents; 2d, the proportion; 3d, the process of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence. "Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Dueds, Lowell, Mass. "Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. Barrington, 120 Bank Street, New York City.
