#### CHICAGO PRODUCE MARKET.

CHICAGO, June 21 .- [Special Telegram to the BEE. |-The price record of a quarter of a century was again broken to-day, Cash and June wheat sold down to 68 c. The president of the board auctioned a 30,000 bushel lot off at from 6814c up 6834c for "account of whom it may concern," a rather unusual proceeding and one which set the tongues of members going at a good gait in condemnation of what they characterized a piece of sensationalism, though Mr. Wright claims that he was only doing what he has always done previously under the same conditions. The incident was of itself of no importance, but it was seized by the bears as a pretext for hamstringing the market. The market was nervous and excited and rather a larger amount of business was done than on any of the three days last preceding. The market was weak, a combination of circumstances conspiring to bring about a conof affairs unfavorable improved prices. The failure

outside correspondents to respond to margin calls brought out a large amount of property held by commission merchants for customers on exhausted margins. The advertised abandonment of the New York corner in June wheat, and the 8c break in the price of June wheat in the market, dragged down speculative values everywhere. There were no British markets to-day, and in these times no news from abroad is interpreted as bad news. The Fidelity bank failure was another bearish feature in the wheat pit to-day. July wheat sold from 72½c, down to 71½c, September from 74½@74½c high to 73½c low, and December from 79c to high to 73½c low, and December from 70c to 77½c. During the last hour there was considerable recovery from inside prices, and the loclock quotations were 69½c for July, 72c for August, 73½c for September, and 78½c for December, This range marks a general shrinkage of ½@½c on the day.

Corn was more active to-day, and between the bearish local surroundings and not a little hammering during the morning hours the market displayed a good deal of weakness. market displayed a good deal of weakness. There was limited investment. The buying and offering by July longs were quite large all the way through. This was, in fact, the heavy feature of the day and what dragged prices down beyond all hope of reaction. Deliveries beyond August were only 4c off, while near by outlons showed a shrinkage

while near by options showed a shrinkage up to 1 o'clock of \( \frac{1}{4}\) \( \text{eff} \) \( \text{c} \). July sold from \( 36\) \( \text{eff} \) \( 36\) \( 36\) \( \text{eff} \) \( 36\) \( 3 Oats were fairly steady after the opening, which was decidedly weak, the starting sales of both July and August being % under last of both July and August being 3ge under last night's closing figures. There were a good many country orders to sell, and the market was, of course, unfavorably influenced by the down turn in other cereals. The I o'clock closings were 25 3ge for July, 25 3ge for August, and 25 3ge for September. Based on yesterday's quotations, there was a sirrinkage during the regular session of 3ge in June and July and of 4g 62 3ge in August and September.

of  $i_4(w)$ sc in August and September. Traders in the provision pit were treated to a weaker market than they expected, influenced by the depression in grain, and the nervous feeling generally prevailing in speculative circles. Holders and carriers of the produce were comparatively free seliers. The offerings for meat delivery, including July and August, were generally excessive, and for the active articles—lard and short ribs—prices touched the lowest point so far quoted on the present break. In short ribs there was some reaction and a moderate recovery late in the reaction and a moderate recovery late in the session, yet the closings at 1 o'clock were 75/c under last night's final quotations. Lard suffered an actual decline of 23/c65c and trading was more active, and the market for both meats and lard fell to the limits named. In the number of export orders already here considerable property was taken on forcely considerable property was taken on foreign account, and the purchases of lard alone for export amounted to upwards of 3,000 tierces. ## CHICAGO LIVE STOCK.

CHICAGO, June 21 .- [Special Telegram to the BEE.!-CATTLE-Trade was rather slow all around. Buyers were not in any burry to get to work, awaiting telegrams, instructions, etc., so that it was late in the forenoon before there was any business of note. The sales made show no particular change in prices as compared with the close last week on nice and handy steers, but anything at all undesirable was quoted lower than last week. Texans were slow from than last week. Texans were slow from start to finish, and sold 10c lower. Native butchers' stock, especially old cows, is making about as low prices as for a year past. FINANCIAL NEW YORK, June 22.—[Special Telegram to the BEE.]—STOCKS—The market opened weak, apparently under the influence of the bank disturbances at Cincinnati and rumors of a depression in Chicago, with some apprehensions of a closer money market, as it has become known that the treasury receipts so far this month exceed the disbursements about \$12,000,000. ment was in Pacific Mail, the weakness of which was not explainable, but the stock ran off without much hammering. The London jubiles cut off all influence from abroad, and the yacht race at Marblehead drew off Boston largely, and it soon became evident that it would be a glowering day, with nothing to relieve the general gloom. The report has been circulated that George Gould will go out of the Pacific Mail directory and be replaced by Herman Clark. The street seemed inclined to take a bearish view of the change. The prices quoted at the close showed more than a recovery of the day's decline, but did not in all cases bring them up to yesterday's level. Pacific Mail settled finally at 51%@ 51%. The total sales of the day were 197,518 shares.

OMAHA WHOLESALE MARKETS Tuesday, June 21. Cattle.

The receipts of cattle were liberal to-day. The market was about steady on the common grades, but good, handy fat medium weight native steers were 5210c better than yesterday. The demand was better and the buyers were more ready to bid than yesterday. \$4.30 was bid on one bunch of cattle that were not sold, but shipped on.

The run of hogs was very fair, and in addition to the fresh receipts, there were nine loads of stale hogs, making about 5,500 hog s altogether on the market. The market was slow to open, the buyers being very slow. Light hogs opened at about steady prices and were in the best request. All the choice light hogs were soon taken. Mixed loads moved off more readily the greater the proportion of light hogs and at a decline of 500 loc. Heavy mixed and heavy hogs were slow and fully 10c lower. The market was prolonged until late in the day and closed with several loads left over.
