PICKED UP ABOUT TOWN.

Resignations and Retirements From the Union Pacific—A Promise of Better Drinking Water.

Railway News.

For some time past there has been a superabundance of clerks employed in the division superintendent's office of the Union Pacific road, and it has been found necessary to make some radical changes. The office, which up till yesterday, employed nine men, will now be conducted by the assistant superintendent with two clerks and a stenographer. The offices of general agent and chief dispatcher have also been abolished. Mr. W. C. Straight, who occupied the former position, has been offered the post of yardmaster, and in case he accepts it the present yardmaster, J. P. Robb, will go back on the road as freight conductor. The duties of the chief dispatcher will be performed by R. W. Baxter, trainmaster. The dispatcher's office will probably be removed to the depot. That office will in future control the trains on the Republican Valley branch, and the office at Valparaiso will be abolished and three men thrown out of employment at that point. The offices of division superintendent and trainmaster will also be changed in the course of a few days. The former will probably be located in the company's yard between Tenth and Eleventh streets, and the trainmaster will occupy offices at the depot. In addition to the above changes, seventy-five men are working at the Elkhorst and Valley stations, on the main line, have been dismissed for economic reasons.

About a month ago the office of resident engineer in the Union Pacific was abolished, and Chief Engineer Bogue placed in charge. Mr. Lane, the incumbent of the former position, continued in the discharge of his duties until today, when the new order for retrenchment went into effect. There has also been a department on each division of the road over which Mr. Lane has had charge. These heretofore will also be under the immediate control of Mr. Bogue. Several clerks and draughtsmen were this morning relieved from duty in the offices of both the resident and chief engineers.

Frank Moore, agent of the Wabash, reports a big increase in passenger traffic during the past week.

The B. & M. have added over 800 miles to their lines in the west part of the state during the past six months, and are still engaged upon various extensions. Their new bridges at Vailo and Nebraska City are both about completed.

W. G. Berg, general traveling agent of the Chesapeake & Ohio road, with headquarters at Louisville, and A. W. Kettelle, of the Louisville & National, with headquarters at Kansas City, were in town today.

George M. Clayton, traveling agent of the Wabash & St. Louis, goes to St. Louis to attend the funeral of Mr. Tallmage, which takes place to-morrow.

The state auditor has certified to County Clerk Needham the number of miles of road and wire owned by the following companies in this county:

- Western Union Telegraph, 38 96-100 miles, assessed at \$5,813.50.
Pacific Telegraph, five miles at \$65.
Omaha & Republican Valley, 3 21-100 miles, assessed at \$4,220 per mile.
Chicago, St. Paul, Minneapolis & Omaha, 11 8-100 miles at \$4,550 per mile.
Missouri Pacific, 14 7-100 miles at \$3,625 per mile.
Omaha and Southwestern, 4 82-100 miles at \$3,150.
Omaha & North Platte, 9 37-100 miles, at \$3,750 per mile.
Union Pacific, 35 6-100 miles at \$11,155 per mile.

William Kerrigan, general superintendent of the Missouri Pacific has resigned, and A. W. Dickinson has been appointed general superintendent of the lines in Missouri, Kansas, Nebraska, and Indian territory, and Joseph Herrin for the remaining lines.

The report that the main offices of the Fremont, Elkhorn & Missouri Valley railroad are to be removed to this city has caused some excitement among the citizens of Fremont. As a consequence of this the council of that city has appointed the mayor and the president of the council a committee to proceed to Missouri Valley and represent to the officials of the road that they consider it but just, in appreciation of the able way in which the mayor and the president of the council have endeavored to do for that city what the Union Pacific railway company has done for Omaha, and that, although they do not by any means deem it of vital interest to the city of Fremont to have the offices there yet, they would highly appreciate their going to that point.

THE MILLENIUM COMING.

Omaha is to Have Pure, Crystal Water.

There is a good deal of complaint on the part of the citizens of Omaha just now about the emulsion, called Missouri river water, they are compelled to drink or go dry, but if they will just be patient the matter will undergo decided amelioration within the next few days. In fact, Mr. S. L. Wiley, secretary and treasurer of the Omaha waterworks, says the company will furnish better water to-morrow and still better the day following. The unprecedented riley and turbid condition of the water for the past two weeks has been caused by the formation of a colossal eddy in front of the suction main, and a veritable island has been deposited in the vicinity, actually stopping and clogging up one of the lesser suction mains entirely. However, this is being removed, and by to-morrow the settling basin, which has been in the course of construction for two months, will be completed, and the people will be treated with water the looks of which will be at least not turn their stomachs. The great trouble has been that the works have had no room where they could put in basins, and they could not go to Florence, five miles up the river, when they would have had every facility of clear and palatable water, on account of dissension among the stockholders, by whom they were enjoined from going there. It has been impossible to make any such improvements with this injunction hanging over them, but now, inasmuch as this hindrance has been removed by the purchase of the stock of these dissatisfied members, citizens may expect many immediate and commendable changes.

As to furnishing South Omaha with water, the BEE is entitled to say that the agreement between the Omaha Waterworks and the Stock Yards and Land company, providing for the purchase of the latter's system, will in all probability, be signed Monday. This agreement calls for a supply of water for South Omaha by the laying of a sewer sixteen-inch main close to the stock yards. It will probably run down Bellevue avenue. The main now runs down Twentieth street on the top of the ground that supplies the small

system at the stock yards. They are also about to lay a large new main, twenty-four inch, on Twentieth street, crossing the entire city, and in a day or two a force of engineers will proceed with the planing and laying out the new works at Florence, which are to be entirely new and separate from the old pumping station, which will be but an auxiliary to the new. The company will expend \$1,000,000 in remodeling their works. The have been laboring under extreme difficulty in furnishing water, as their settling capacity has been only about one-half what it should be.

Fourth of July. The Chicago, Rock Island & Pacific Ry. will sell round trip tickets to all points in Iowa at one fare for the round trip tickets. On sale July 23, 24 and 25. Ticket to return on or before July 31. Ticket office, 1305 Farnam st.

S. S. STEVENS, General Western Agent.

THE TENDERS' CASE.

What was Done in the Labor Movement this Morning.

The ordinary observer could not fail to notice the unusual number of workmen who were parading the streets of the city during yesterday. This state of affairs is to be accounted for by the fact that a large number of bricklayers' and plasterers' tenders are out on a strike, and partly by the fact that a considerable number of the men who are employed by contractors who have acceded to their demands, were unable to work on account of the rain. Of the latter class there is a considerable number who will return to work when the weather permits, but the majority of the tenders have been working for contractors who refuse to give the men the \$2.25 per day asked for. The Tenders' union was in session yesterday morning and so far as can be ascertained, the men will not return to work on the terms offered by the masters, viz: \$2 per day of nine hours and eight hours to constitute a day on Saturday.

Reports have been published to the effect that a settlement of the tenders are also on a strike on account of the non-compliance of the contractors with the tenders' demands. There is no truth whatever in the statement, as these men are on a subsisting agreement with the contractors which they have no reason nor desire to avoid. It is estimated that there are about eight hundred tenders employed if this could be ascertained, and that the tenders union, the others to the Knights of Labor. The majority of these are not at work, and it is not likely that work will be resumed until the contractors shall have first met and decided upon the proposition made by the laborers.

The rumor that a strike was contemplated by workmen in the smelting works was depreciated by the prudent refusal of the Knights of Labor, who had been assured that there was little to be feared from such an occurrence. It was true that a couple of men had been discharged, and it was claimed, but it was also stated that a difference had been settled to the satisfaction of the men.

Nothing has yet transpired tending toward a settlement of the painters' strike. A large number of the men who have arrived from Iowa were found utterly incompetent to do ordinary work.

The Bricklayers and Tenders union were engaged yesterday evening, considering the offer of the contractors to allow the mortar hands \$2.25 per day and the brick carriers \$3 per day. The question was discussed with closed doors, but it is understood that they will not agree to any other terms than a uniform rate of \$2.25 a day.

DETAILS FOR JULY.

Horticultural Society.

There will be a meeting of the Douglas County Horticultural society held at 1306 Harney street to-day, July 2, at 2 o'clock p. m. All interested in horticulture are invited to attend. E. L. Emery, secretary.

THE COURTS.

What Was Done Before the Judges Today.

IN THE UNITED STATES COURT. In the United States court yesterday morning, Judge Dundy, the trial of the case of Frank Miles vs. Downen et al, and consolidated with eighteen other cases embracing the same interests and in which Miles is the plaintiff, was commenced, and seems to be attracting more than usual interest.

The question involved is the title of certain tracts of land. The case in one form has been in the supreme court of the United States twice. The original case was styled Giles vs. Little, of which the following is a succinct history: Considerable property in Lincoln, probably \$400,000, rests upon the title of one Jacob Dawson, who died in '50. His many a will in which was one of those peculiar clauses bequeathing everything to his wife, with full powers to dispose of same so long as she remained his widow, but if she married was to go to her children. She married and the Dawson heirs claim the property reverted to them by this act. The supreme court in the case referred to, which went up on demurrer, held that such was the construction of the will. After that the estate was sold for the purpose of paying these, alleging that the Dawson heirs claim the property holders joined as plaintiffs in the suit against the Dawson heirs, setting forth that Dawson, at the time of his death, owed a large amount of debts, and that a good part of the estate was sold for the purpose of paying these, alleging that Giles had no interest in this property, and that the transfer to him was for a reconstrution of the will and getting it into the United States court, the heirs of the father-in-law of Assistant Counsel Burr, with Wheeler for the plaintiff in the present case, and that the deeds from the Dawson heirs to these attorneys, Burr & Wheeler, and from Burr & Wheeler to Giles, were fraudulent on the rights of these property holders. Therefore they asked for a reconstrution of the will, and that the court should adjudge that they, the said property holders, had the title in fee. That case was removed to the United States circuit court, and the bill of the plaintiffs dismissed, and the heirs of the Dawson heirs, Giles and Burr & Wheeler entered. The case was then appealed by the plaintiffs to the supreme court of the United States, which reversed the decision of the circuit court, and remanded cause back to the district court at Lancaster county on the grounds that Giles had no interest in the property, but had simply acted as a trustee for Burr & Wheeler, and the Dawson heirs. The case is now pending for trial there. Some of these thirteen parties who are defendants in the consolidated suits now on trial before Judge Dundy are plaintiffs in the suits just described. They filed affidavits in that suit at Lancaster county that the suit was not authorized for them, under the promise, they say, of Burr & Wheeler that they would not be disturbed thereafter. This is now set up as one of the grounds of the defense in the suits.

Counsel A. J. Sawyer and R. E. Hull, esq., of Lincoln, for the defendants, and J. M. Woodworth, of Omaha, and L. C. Burr, of Lincoln for plaintiffs. N. S. Harwood, esq., of Lincoln, counsel for certain of the property holders, is also in attendance. Judge Hopewell was hearing the case of Mayhn vs. Stephen Robinson for \$122.26 for board and lodging money. The novel suit of Dodge vs. Dodge, is still being heard by Judge Wakely. To-day Judge Groff will hear arguments on the motions for new trials in the cases of Emma and John Koster, and Charles Vollmer for murder. He will also sentence to the reform school Owen Connolly, jr., and John Lawson.

The cases of Wright vs. Kuhn and Mayhem vs. Robinson were given to the jury late yesterday afternoon, and when last heard from had not reached a verdict. In the clerk's office of the district court yesterday Oscar J. Pickard asked an injunction restraining the Fremont, Elkhorn & Missouri Valley from entering upon certain property with its tracks.

Police Pickings.

There was nothing of a startling nature before Judge Berka this morning—the same old fragrant routine of vagrants, drunks and disorderlies. William Dundy and Charles Wright, rags, will remain in jail for a period of twenty-five days, the first and last five on bread and water. R. M. Collins, Dick Grandon and Ed Ball, of the same ilk, got fifteen, five and twenty-five respectively. Charles Hunt, charged with assault and battery, was fined \$5 and costs, which he paid. Hunt is one of the striking painters, and yesterday afternoon pulled a ladder from under one of H. A. Koster's men, who was at work painting on the Olympic theatre. Koster, whose shops are at 109 South Fourth street, complained to the judge after Hunt's men had been slightly disposed of this morning, that he had been subjected to the most aggravating annoyance and no inconsiderable expense. He said that he had called the painters, and if the courts didn't protect him he would make a summary example out of one or two of them. It hardly seems possible, but 877 cases have been disposed of before Judge Berka's court during the month just closed—nearly as many as appear before the district court in a year.

E. J. Hartman was run in at noon by Officers Gotoia and Patrick for drunkenness and using obscene language, and Jim O'Hara, William Ward and Charles Hunter, peace disturbers, were corralled by Officers Whalen and Donovan.

Fire!

Fire! Fire! Fire! Clothing and gent's furnishing goods damaged by smoke and water at 1015 Farnam street, where a man was what ever they will bring, 1015 Farnam St.

The Gambler's Must Go.

The gambling law, passed at the last legislature, went into effect yesterday and the following proclamations speak for themselves. MAYOR'S OFFICE, OMAHA, Neb., July 1. Chief of Police Seavey, City of Omaha. The law with reference to gambling, passed at the last session of the legislature, goes into effect to-day. You will, therefore, herewith a copy of the same, and you will please see that the provisions of this law are complied with to the letter. It is understood by the gambling fraternity that it is the intention of the present administration to rigidly enforce the same. W. J. BHOATCH, Mayor.

DEPARTMENT OF POLICE, CITY HALL, OMAHA, Neb., July 1.

Donald: The law enacted by the Nebraska legislature known as the "gambling bill" goes into effect to-day. It is, therefore, immediately notified the gambling fraternity within the corporate limits of the city, so far as you can consistently, that they must close their places at once. And after 6 o'clock p. m., July 2, 1887, you will arrest any and all persons who play at any game whatsoever for any sum of money, or other property of value, or shall bet any money or property upon any gaming device, bank or device, or in any way violate any of the provisions of the gambling law. By order of W. S. SEAVEY, Chief of Police.

HOUSEKEEPERS' IDEAL KETTLE

Something entirely new and sells at sight. Barton's Steamless, Odorless, Non-Boiling Kettle. Has deep raised cover and water joint, and is made of pure metal. Has steam and odorless, non-boiling, patient steamer attachment along with the price. Agents wanted, make or sell. Profits \$5 to \$10 per day. Liberal terms and exclusive territory. Send stamp for circular and terms. Prices, 6 qt., \$1.75; 8 qt., \$1.85; 10 qt., \$2.14; 14 qt., \$2.21. Mailed by mail, 25c. W. S. O'HMS, General Agent, Omaha, Neb., P. O. Box 483.

Circular giving full particulars on request. W. S. O'HMS, General Agent, Omaha, Neb. Manufacturers of Corneal Spectacles.

THURSTON HEARD FROM.

He Says He Will Meet the Commissioners in New York.

General Land Commissioner Cumming, of the Union Pacific railroad, yesterday handed to the Pacific railroad investigating committee a telegram from John M. Thurston. It was dated at Worthington, Minn. In it Mr. Thurston stated that he would be ready to meet the commission in New York in September next at any date they might name.

Armour and Cudahy.

K. B. Armour, of Kansas City, one of the members of the well-known packers of that name, arrived in the city yesterday morning. At the same time, M. Cudahy, the right-hand man of the firm in Chicago, took up quarters at the same hotel, the Paxton. Both were closed together for a long time and declined to be disturbed by visitors. Today was set upon some time ago, as the day upon which it was thought the question of Armour building at the stock yards would be decided. But neither gentleman would talk upon the subject, neither would they offer any opinion as to whether the intention was to buy Mr. Lipton out. The last gentleman, however, is still here, and went with the others yesterday afternoon to visit the stock yards in South Omaha.

County Offices.

This morning, Mr. Drake, of the Nebraska National bank presented the county commissioners with \$20,000 of bonds which he wanted redeemed. There was money enough in the treasury to pay them, but the commissioners made up their minds to consult with General Cowin before taking action in the premises. The opinion of the latter that the county commissioners had encouraged them to feel that no trouble is to be appreciated. County Treasurer Bolln, this morning received a number of coupons of bonds of the same issue, but these are payable in Knautze Bros' bank in New York, to which place, the money to satisfy them was forwarded some time ago.

Incorporated.

Articles of incorporation of the Waterloo cannery were filed with County Clerk Needham this morning. The capital is \$15,000 and the incorporators are S. D. Evans, George Johnson, James G. Herrington and H. B. Herrington.

Circular giving full particulars on request. W. S. O'HMS, General Agent, Omaha, Neb. Manufacturers of Corneal Spectacles.

ATTRACTIONS.

In a few days we will commence extensive repairs and alterations in the building we occupy. Carpenters and painters will take possession of our upper floors to fit them into suitable sales-rooms and to enable us to properly display the immense stock which we intend to put in for the fall. We have to get some goods out of the way to give the workmen room to work, and rather than to move the goods around or store them, we have decided to make a big cut and slaughter them. When we cut we do not do it with a knife—we take the axe, for instance.

One lot of fine light-colored Men's Sack Cheviot Suits with good serge lining, and elegantly made up, which sold this season for \$11, cut down to \$7.

One lot of good all wool Cassimere Sack Suits, a fine grey pin check, well trimmed and made. The regular price for this Suit is \$9, and is sold by other houses for much more than that. We have cut it down to \$5.75.

Another lot of same quality and make, only different pattern, a neat, stylish stripe, for same price. These two suits are the greatest bargain we ever offered.

One lot of strictly All Wool Suits, plain grey color; this is a durable suit, well gotten up, cut down to \$5; the cheapest all wool shown, and worth at least \$8.50.

We have only a small quantity left of finer grade light weight suits, four-button out-a-way and sacks, but what there is has been cut down to prices that will clean them out at once.

All goods marked in plain figures and at strictly one price at

Nebraska Clothing Company, Cor. Douglas and 14th sts., Omaha.

The Henry Dibble 268 & 268 WABASH AVENUE, CHICAGO. ANSON S. HOPKINS, Genl. Manager. Have the largest and most complete assortment of Fire Place Furnishings IN AMERICA. One Kuncrad and Seventy-Five Different designs of fireplaces can be seen all set up in our showrooms. Also complete Bath and Toilet Rooms all fitted up with Tiles.

DON'T THINK OF IT. Don't think of SPENDING YOUR MONEY for a Baby Carriage, until you have examined the HOLMAN Adjustable Baby Carriage. We Have Something New for You. We have the only exclusive Baby Carriage Store in the United States. We make Baby Carriages a Specialty, we deal in nothing else. Send for our Finely Illustrated Catalogue, before buying—it costs you nothing. Holman Adjustable Carriage Co., 275 Wabash Avenue, Chicago, Ill.
