### CHICAGO LIVE STOCK.

CHICAGO, July 2,-[Special Telegram to the BEE. |- Fowler Bros. of Omaha have shipped a lot of 3,500 hogs to the Anglo-American Packing company here. The reason for this action is stated to be a scarcity of water, the artesian well which supplies the works having run dry. The eattle receipts were 25,000. The market for natives was steady. There was a good supply of Texans in the market, and the demand was steady at fair prices. The price was 5c higher than yesterday. Packers were not very ready to take hold on the advance, but some thought most of them would be sold at the figures asked before the e nd of the day. Some hogs will probably go over into speculators hands. This was a big day for men at Chicaro banks, as it was the result of July deliveries of grain and the semi-annual settlements at banks generally. Currency orders were lighter than usual, but counter business was quite strong. New York exchange was at par and quite strong. Bank clearings were \$16,544,344, with total clearings for the week of \$63,-\$77,436 against \$56,209,001 the corresponding week last year. The lightest day of the week was on Thursday, when the clearings tell below \$9,000,000. The business demand for money, present and prospective, keeps rates firm at 6, 7 and 8 per cent. The amount needed to carry grain, together with the deaire of the banks to run with better surplus. will probably hold rates firm until the fall demand; comes. Chicago bankers are divided in their views on Comptroller Trenholm's suggestion that extra supervising examiners, to be paid by the government, be appointed to visit banks oftener and verify the work of the district examiner. One of the objects of the extra examiners would be to prevent such schemes as are opened up by the investigation of the Fidelity bank.

### FINANCIAL

NEW YORK, July 2 .- | Special Telegram to the BEE. |-STOCKS-The stock market the past week has been under the control of Gould and Sage. Trading was active, and the market at times showed increased breadth, although the feeling was intensely nervous, owing to the continued manipula-tion of rates for money, the bidding being up to rates of 1/2 to 2/2 per cent per diem, and the interest forced weak holders to liquidate, and enabled the manipulators to absorb large lines of cheap stocks. The bears went in too heavy, and as the "Big 2" (Gould and Sage) held the reins, they pulled them up tight and forced the bears to cover, and the result was that prices closed yesterday at nearly the outside of the week, 127 active. Only six stocks showed a decline from the closing figures of one week ago. Manhattan had the lead with a loss of 1734; Pacific Mail lost 396, cotton oil 396, Louisville & Nashville 14 and Lackawanna Louisville & Nashville & and Lackawanna I point. The gains ranged from & to 5%, Reading standing at the head, Western Union second with 5%, New England 3%. Other roads gained & to 1% points. The carnings of the railroads continue good but unless crop prospects improve they are not likely to keep up. One trouble with the market at present is that there is too many securities. The new securities listed on the New York Stock exchange the past six months exceed \$122,000,000 bonds. Gold has been shipped quite freely from London but exchange advanced the past two days and is liable to reduce shipments. The disappending the standard of the standard of the standard of the past two days and is liable to reduce shipments. and is liable to reduce shipments. The dis-tribution of \$75,000,000 in interest and divi-dends and in the cancellation of the United States will tend to make the market for money easier, and the impression is that the money scare for the present is over.

### OMARA LIVE STOCK.

Saturday, July 2. Cattle.

Cattle.

The receipts were light even for the last day of the week, and there were hardly enough cattle in to make a market. There was no inclination among the buyers to take even what were in and there was very little done on the market. The receipts of cattle have been light all the week, but for all that there has been no quotable improvement in the prices. The only grade of cattle, for which there has been any inquiry, is good fat steers of medium weight. Coarse, heavy and grassy cattle of all kinds are not wanted.

The run of hogs was liberal for the close of the week. The market opened strong and active at an advance of 5@10c. The buyers were all represented on the market and sverything was sold and weighed up before mid-day. The water supply is now in such shape that the packing-houses can run full force, which will have a tendency to keep the market up.

Mr. Waller of the firm of Gifford & Waller, Cowles, Neb., was in and marketed a load of hogs.

W. Weyant, Jr., Germantown, came in with a load of cows which topped the market and with a load of hogs. Visitors at the yards hardly recognize the place from one week to another, there are so

many improvements being made.

Mr. West, Dorchester, came in with a load of hogs which sold on the market. He has cattle which will soon be ready for market. W. C. B. Allen, the popular stock agent of the Oregon Short Line, was in. He says the great bulk of the stock from the northwest is bound to come this way instead of going over the Northern Pacific.

The pumps have been put in operation and are found to be fully adequate to the requirements of the packing-houses. This will obviate the necessity of closing down the packing-houses for the want of water. M. Burke & Sons purchased of the well known thoroughbred cattle breeders, Sotham & Stickney of Pontiac, Mich., twenty-four head of their thoroughbred Hereford buils, to be used on their western cattle ranges.

In that all Food Baked or Roasted, should be cocked in fresh air fresly admitted to the oven. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a shost of Wire Gause nearly as large as the door titel?.

Through this Gause Door the air freely circulates, facilitating the process of cocking, and producing food that is unequalled in flavor and nurition, and actually cooked with less consumption of fuel than in an oven with a closed door.

It makes an enormous saving in the weight of meat. It also produces larger Loaves of Bread, requires less attention from the cook, and promotes the health of the lamily by the SUFERIOR QUALITY OF TAR FOOD COCKED IN IT. NPRECEDENTED ATRIACTION! OPINION OF AN EXPERT.

Mrs. Many B. Weigel, Teacher Domestic Roomery

is that the oven of the Range, as compared with others
is not only more equally heated in every part—front a
well as rear—but as a result of its superior ventilation
the food placed therein is better ecoked, while retain
ing a sweeter flavor, and a larger proportion of its bea
judges. I find, also, that the consumption of free in the
Range is much less than any other for same work." OVER A MILLION DISTRIBUTED.
