Mr. C. Brown, who made the will, was examined, and stated that on the 10th of July, 1885, when tesnight, there has been but an insignificant diminishment in the intensity of the heat. While the thermometer only registered 86 degrees in the shade at noon to-day, the heat has been even more oppressive and stilling than it was yesterday, and with a cloudless sky would have been sim-ply unendurable. ALTERATIONS

In a few days we will commence extensive repairs and alterations in the building we occupy. Carpenters and painters will take possession of our upper floors to fit them into suitable salesrooms and to enable us to properly display the immense stock which we intend to put in for the fall. We have to get some goods out of the way to give the workmen room to work, and rather than to move the goods around or store them, we have decided to make a big cut and slaughter them. When we cut we do not do it with a knife---we take the axe, for instance.

One lot of fine light-colored Men's Sack Cheviot Suits, with good serge lining, and elegantly made up, which sold this season for \$11, cut down to \$7.

One lot of good all wool Cassimere Sack Suits, a fine grev pin heck, well trimmed and made. The regular price for this Suit is \$9, and is sold by other houses for much more than that. We have cut it down to \$5.75.

Another lot of same quality and make, only different pattern, a neat, stylish stripe, for same price. These two suits are the greatest bargain we ever offered.

One lot of strictly All Wool Suits, plain grev color; this is a durable suit, well gotten up, cut down to \$5; the cheapest all wool shown, and worth at least \$8.50.

We have only a small quantity left of finer grade light weight suits, four-button cut-a-way and sacks, but what there is has been cut down to prices that will clean them out at once.

A PRECOCIOUS YOUTH.

He Robs His Employer of Several Hundred Dollars.

Herman Abretch, of 1318 Jackson street, is a very precocious young business man. He is but fourteen years old.

He was formerly a trusted cash and messenger boy, and later on a clerk in the notion and fancy goods department of S. P. Morse's dry goods house.

Yesterday he sweltered in the jail with a charge of grand larceny and embezzlement hanging over him. He is a candidate for the reform school.

It seems that Mr. R. G. Bloom, the floor walker at Morse's, has had young Al-bretch under suspicion for several months, and by a close surveillance upon all his movements, succeeded in fastening sundry peculations upon him. Yes-terday he took the young man in the basement and openly charged him with the embezzlement of scores of different

articles, but the young scoundrel was not to be caught napping, and looking Mr. Bloom boldly in the eyes he emphatically denied having wrongfully appropriated a sin-gle article. The floor walker refreshed his memory by recalling dates and days and the character of the goods stolen, but it was all the same, the boy strenuously adhered to his innocence. Mr. Morse himself was finally called down and conducted the examination, and by dint of persuasion and coaxing induced Albretch give up much of his secret. He said that in addition to surreptitiously carry-ing oil goods, base ball shoes, toilet ar-ticles, etc., etc.; he had on two different occasions stolen \$50 in money. He would go back to the bookkeeping department, as bold as you please, and take up the speaking tube and tell Mr. Hall, the cash-ier, to send him back \$50 for Mr. Morse. This he successfully worked twice for this amount and several times for amount, and several times for lesser sums. His stealing in cash will probably reach \$150, and in goods, to two or three times that amount. Mr. Morse is inclined to that amount. Mr. Morse is inclined to believe that the youthful culprit has a goodly sum of money secreted some-where, and an effort will be made this afternoon to persuade him to give up the plant. He is a bright, keen little fellow, with the head of a man of twenty-five upon his shoulders, but thoroughly un principled and devoid of honor or gratitude and it is doubtful whether any further information can be extracted from him. His parents are poor and much distressed over his disgrace.

John P. Hartgraves, who was brought down from Morrisville, Adams county, vesterday morning, by Deputy United StatesMarshal R. Q. Stewart, was araigned in this court on two charges, the first for selling liquor without a license and the second for selling less than five gallons of liquor without posting the stamp. After the dismissal of the first charge Hartgraves pleaded guilty to the second and was fined \$25 and costs, which he paid, and departed from the court a much wiser man. He Pulls His Pop.

W. P. Eggleston and James Brophy are painters, and were within the ranks of the strikers, but Monday Eggleston went to work, and this called down upon his head the anathemas of many of his former colleagues. Monday evening he and Brophy collided at the corner of Twenty-fourth street and Capitol avenue, and Brophy, with all the eloquence at his command, undertook to dissuade Eggleston from his course, arleast tacitly consent that the strikers were in the wrong, and had no justifica-tion for their going out. Eggleston turned a deaf ear to the entreaties of his friend, and finally the two got into a heated controversy. The lie was passed, and as a grand finale Eggleston pulled a gun and threatened to make a subject for the coroner out of Brophy. Brophy then hied himself to the station house and had his fellow workman pulled on the charge of assault. The case was continued by Judge Berka until Monday morning next.

The Senegambian Non Est. The match ten mile bicycle chase between Jack Prince, the world champion, and Whittaker, the Chicago champion, for \$200 a side at the ball park next Sunday is occasioning a good deal of talk in sporting circles, and promises to be an event of more than ordinary interest. Owing: to the fact that Whittaker beat Prince in two events at the late tournament, and that his backer manifested a diffidence at first about going into a ten mile race with Prince after this, into a ten mile race with Prince after this, has lead many to think that there might be a Senegambian in the woodpile, but this is indignantly, and strenuously de-nied by all parties interested. Mr. Ehman, who is managing Mr. Whitta-ker's affairs, would rather declare the race off than be charged with hippo-droming, and assures the people that the race is on the dead source and so far as race is on the dead square, and so far as he can judge will be one of the closest and most exciting wheel chases ever seen in western bicycle circles. The track is being put in elegant shape, and both men are in constant and vigorous training.
