Wheat Takes Another Tumble Under Heavy Pressure By Bears.

NO SUPPORT FROM THE BULLS

Corn Stubborn and Steady, But Prices Step Down a Peg-Oats Again Heavy-Provisions Quiet -Quotations.

CHICAGO PRODUCE MARKET.

CHICAGO, July 30 .- [Special Telegram to the BEE. |- The pressure of August wheat upon the market carried prices down 1/6%c. St. Louis declined a full le, and other home markets were 1/40%c lower. Cables were steady, and no alteration in prices is mentioned. The general public is lending the market no support whatever, and the bears are aggressive, and as the bulls are apparently unwilling to stand a serious loss on investments, the speculative values look shaky to disinterested observers. The semi-panic in Wall street is felt also on the produce exchange, though the shipping demand for foreign account prevents a serious shrinkage in values. The scaboard clearances for the first five days of the week aggregate 1,667,000 bushels, against 959,000 bushels for the corresponding period last week, and western point receipts for the week are not materially larger than last week. Statisticians are guessing on an increase of about 1,000,000 nushels in the visible. The market did not seem to have been fully able to digest the load of long wheat that came out yesterday, and the opening this morning was off 14@%c as compared with yesterday. The phrase "limpness," describes the tone of the market, and the tone did not undergo any decided change for the better up to 1 o'clock, though the break of 1/2 from the opening figures in August was recovered and the first and last quotations were identical. There was a good deal of changing over of August contracts into later months, and the difference between August and September averaged 1% @13ge, though at one time it was 2c. Elevator companies are making it an object for holders to keep wheat here, a circumstance which accounts for the shrink-age in the premium. Local stocks are get-ting down to a lower limit than warehouseare in the premium. Local stocks are getting down to a lower limit than warehousemen like to see. August opened at 77% and fluctuated between 67% \$\tilde{\phi}\$05c, closing at 67% c. September opened at 70% c, sold down to 60% c, and closed at the bottom. October opened at 72% c and closed at 71% c, these prices being the extremes. The volume of trade was above an average. A fair degree of activity in the cash market was reported, and lake engagements for 225,000 bushels were given out to-day.

Corn was stubborn and steady, though prices again slipped back a peg, May, as usual, ruling the strongest in the list of futures and alone closing a fraction higher than yesterday. Trade was rather quiet and

futures and alone closing a fraction higher than yesterday. Trade was rather quiet and the market was destitute of new or sensational features. The crop news was of the same character that has been drirting in all the week. It is contradictory, but in the main going to confirm reports that the crop has sustained considerable damage in certain sections. August corn opened at 37½c, ranged 37¾c@37½c, and closed at 37½c. September opened at 38½c, sold down to 38½c-up to 38½c and closed at 38½c@37½c. October opened at 39½c, sold off to 39½c and back to the opening price, closing there. May started in at 31½c, sold down to 41½c and up to 41½c, closing there. There was quite a little rally right at the close, caused by the buying in of shorts by local scalpers.

The oats market was again heavy and depressed by reason of large offerings of more

pressed by reason of large offerings of more than the usual proportion of consignments having to be placed in store. Provisions closed the week in a quiet manner. Not much interest was manifested to-day, and with regular traders about the only day, and with regular traders about the only business transacted was changing over or making provision for maturing contracts. The cash product was also slower than usual. In the general market, however, a strong feeling prevailed, and September—the pivotal future—was unchanged for lard and 2½e bigher for short ribs. Lard for September sold at \$6.67½ 66.70, and short ribs at \$8.1568.20, closing at \$6.67% for the former and \$8.17½ 68.20 for short ribs. August lard was 10612½ and August short ribs generally 10c under September. October lard closed at \$6.72½ 60.75, and October short ribs at \$8.05, and advance of 10c.

> OMARA LIVE STOCK. Saturday, July 80.

There was a falling off in the run of cattle

to-day of 300 head as compared with yester-day. There were no especially new features in the market. There was a very fair de-mand for good corn fed native steers at about steady prices. Butchers stock was slow with a light demand. Hogs.

Hogs.

The receipts of hogs were liberal for the last of the week, there being a gain of 700 head over yesterday. The quality of the hogs was not as good as yesterday by considerable. The market opened with the buyers trying to buy about 5c lower than on yesterday. While a New loads may have been sold that much lower, it is to be doubted if the market could be called 5c lower, when the outlier of the hogs was taken into consideraquality of the hogs was taken into considera-tion. The top to-day was \$5.25 and there was nothing sold yesterday above that. Everything was sold out early in the day.

Mexican War Veteran.

The wonderful efficacy of Swift's Specific as a remedy and cure for rheumatism and all blood diseases, has never had a more conspicuous illustration than this case affords. The candid, unsolicited and emphatic testimony given by the venerable gentleman must be accepted as convincing and conclusive. The writer is a prominent citizen of Mississippi. The gentleman to whom Mr. Martin refers, and to whom he is indebted for the advice to which he owes his final relief from years of suffering, is Mr. King, for many years the popular night clerk of the Lawrence House, at Jackson.

JACKSON, Miss., April 29, 1887, THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.: Gentlemen-I have been an invalid pensioner for forty years, having contracted pulmonary and other diseases in the Mexican War, but not till the 1st of March, 1875, did I feel any symptoms of rheumatism. On that day I was suddenly stricken with that disease in both hips and ankles. For twenty days I walked on crutches. Then the pain was less violent, walked on crutches. Then the pain was less violent, but it shifted from joint to joint. For weeks I would be totally disabled, either on one side of my body or the other. The pain never left me a moment for cleven years and seven months—that is from March 1. Is a part of the control of the

pain had disappeared, and I have Not Fritt a twings
of it since.
I have no interest in making this statement other
than the hope that it may direct some other sufferer
to a sure source of relief, and if it has this result I
am well rewarded for my trouble. I am very respectfully and truly your friend.
