As Judge Aylesworth's time is occupied on the index to the city ordinances compiled by him and City Attorney Holmes, he will not reach a decision in the case in which Justice of the Peace Schawz sues the county for his fees.

The only passenger elevator in the city starts in with a fair patronage. It is located in the Brown building, and has aggregated the past week 134 trips a day. Other elevators will now come into use, as it appears that there is public demand for them.

N. E. Tyson, who failed to get re-elected janitor of the high school building, seems sadly disappointed and is trying to get the board to reconsider its action by circulating a petition asking for his reinstatement. It is much easier to get signers to any petition than to get the petition granted.

Mr. Tyson has little occasion to complain about being favored with public appointments, for he has been in service in different positions for many years. Work is progressing fairly on the new county court house. One of the ceilings of the court rooms is decorated and the decoration of the other will be finished Monday. The slate has arrived for the tower and this will be put up on next week. There is as large a force of carpenters and masons at work as can well be used to advantage. It is expected that the building will be ready for occupancy by the first of January.

Another message has been received granting the request, but urging him to come on as early as possible. Colonel Keatly now expects to leave here for Washington next Friday.

Pacific house is the nearest hotel to the majority of real estate offices in the city; 63 per day. For Sale—Harry Smith's photograph gallery cheap. Inquire of Harry Smith.

The Smart Thing to Do. And say, just because you can't buy a home by the side of Mary Ann or Peggy Jane, that you won't buy at all. The smart thing to do is to go and see J. G. Tipton the broker and secure a home where you can. Tipton says that the bridge will be built by this time next summer, and that property will go to double its present value here before we know it, and then like the boy that went a snip and will be left to hold the bay. Buy now and get the benefit of the advance. That's the smart thing to do.

At the Pacific house you will save from 50 to \$1 per day. Try it and be convinced. New carpets and new goods at Harkness Brothers.

When you are in the city stop at the Pacific house. Street cars pass the door every fifteen minutes for all the depots. Leave 50 cents each.

Police Pickings. The usual number of arrested men were brought before Judge Aylesworth yesterday morning.

Among them was John Rafferty, who claimed to have been working for the Omaha waterworks for the past two weeks. He was booked as a vagrant, having been arrested in a box car the previous night. He denied the charge, saying he came to this city with the intention of obtaining work on the sewers being constructed here. He wore overalls and had the appearance of being a working man, but he was without money or property, which did not please the judge. His case was continued and he went back to jail.

William Tripp claimed he was not a vag, that he'd left home in Rochester because of his inability to agree with his step-mother. He said his father gave him \$50 to come west on and he had just run out of money in Omaha and came over the river with Rafferty to hunt for work. He also was remanded to jail after a lecture from the living chicken which he was given some sound advice.

Frank Cooper, as he claimed his name was, admitted that during his drunken spell he probably gave a fictitious name. His case was continued until Monday, in order to give him a chance to get out of town in the meantime. He has been arrested four times for drunkenness within the past forty-five days. His first sentence being five days, his second five and his third thirty days. He got out of jail and within a few hours was again arrested on the same charge.

A man who was arrested in Baylis park charged with drunkenness was allowed his freedom as the officer who took charge of him after the park police made the arrest, believed him sick.

A. L. Freeze, a hanger-on about the gambling houses in Omaha gambling had come out to have been spotted, appeared after having spent the night out of jail through the assistance of a friend, who put up \$50 for his appearance. He pleaded not guilty and his hearing was continued.

S. T. Kearns was fined \$7.00 cents for canvassing without a license. Nels Jacobson charged with fighting with his neighbor George Ross, had his case continued in order to allow him to procure the necessary witnesses to exonerate him. In the afternoon the trial took place. It proved to be a neighborly row caused by chickens and children. Jacobson was fined \$5 and costs.

Uncle Sam's Slowness. There has been much wondering at the slowness with which work on the government building is proceeding. Ex-Congressman Pusey recently wrote to Washington about the matter and in reply received the following report: "The survey party, Washington, August 16.—The Honorable J. M. McKim, Secretary of the Treasury: Sir—Referring to letter from Hon. W. H. M. Pusey, of the 12th inst., addressed to me, I have the honor to state that this office has used its best endeavors to push the work on the government building now being erected at Council Bluffs, Iowa. Bids were recently opened for the iron stairs, but being in excess of the office estimates, they were rejected and a modification of the drawings has been made, and the same are re-advertised as soon as possible. The drawings for the plumbing and gas fitting have been completed, and the specification is now being prepared and the work will be advertised in a short time. Drawings for the joiner work, plastering, and the interior finish of the building have been completed, and the specification is now being prepared, and this work will be advertised as soon as possible, and every effort made to get the building in such condition that active operation may go on during the winter. The delay in the work on this building is not nearly so serious as on many others, which is occasioned by the fact that the appropriation for the working force of this office is entirely inadequate, and it is necessary to employ a sufficient number of technical men to push the work as rapidly as it ought to be. Although congress has made appropriations for the construction of many new buildings, thereby greatly increasing the volume of work in this office, there has been but a very slight increase in the appropriation to employ the necessary force to perform said work. Respectfully yours, EDWIN B. LAWTON, Acting Supervising Architect.

The new steamer Nellie Keller, just launched at Lake Manawa by Vic. Keller, has been carefully inspected by the citizens' committee and pronounced staunch and perfectly safe for 100 passengers. The steamer is run by an engineer who does not drink a drop of liquor and who is licensed by the United States government. Under all circumstances the safety of the passengers will be made the first consideration.

Threatening the Police. There have been numerous complaints made about manure and rubbish being thrown into the creek. Several times, suits have been commenced, but they have never resulted in any apparent relief. Lately Mayor Groneweg has put a special officer on the watch, and yesterday morning this officer claimed to have discovered a boy who is in the employ of Mase Wise, wheeling manure into the creek or depositing it on the bank. He arrested the boy and soon after Mr. Wise went in hot haste to the mayor's office, where there was a storm of words. Mr. Wise made some wild threats as to what he would do to any policeman who came on to his premises. Mayor Groneweg afterwards went to Judge Aylesworth's court and filed an information charging Wise with making threats. Mr. Wise appeared in court and explained himself. He claimed that he should not be singled out for prosecution, as there were others who were committing a nuisance there who were never molested.

He had made arrangements for having all the manure from his stables hauled away. The city attorney examined into the matter, and finding that the threats were conditional ones, thought this a fatal defect in the case, so it was dismissed and Mr. Wise walked forth once more a winner.

The Old and the New. He was a short, stout man, and as he settled down to an acquaintance with the other boys inside the big revolving cylinder in the county jail, he began drawing comparisons between the old and the new. "I was in the old jail twice. We used to have some pretty good times here, too. For quite a time the boys lived on roast chicken. Pretty good feeding for us fellows. The way of it was this. Shontz, who was jailer then, used to let us short time fellows bring in coal. When we needed some for the stoves inside he would tell one of us to take the bucket and go out to the shed and bring it in. Well, we soon got od to it that there were a lot of fine chickens which Shontz was keeping for future use. We would just take one of those chickens, wring its neck and put it in the bottom of the bottom of the bucket and then cover it over with coal. That's the way we would get it inside. Then we would roast that chicken, and you bet we lived high."

"But wouldn't it smell so as to put him on?" "Smell! I guess you never was in the old jail. There were more nor a thousand different smells, any one of which would knock the smell of a roasting chicken dizzy. A fellow who stayed there a week couldn't smell anything.

A Ghastly Find. Yesterday morning a fully developed boy baby was found in Indian creek by the Scott street bridge. A piece of muslin was the only covering upon the remains of the body, part of which had become badly decayed. It was sent to the undertaker for burial, Coroner Faul deeming it unnecessary to hold an inquest.

Near by the remains was a package containing a shirt or two which at the time were thought to have some connection with the find, but as they appeared quite fresh it was concluded they had been thrown into the creek by innocent persons.

The conclusion from the position of the body and its condition indicated it had been either washed down the creek or had come out of the Scott street sewer, which is an outlet of the Broadway sewer.

Sudden Death. Coroner Faul early yesterday morning received a telegram from Carson which named a Mr. German, of that place, had died and an inquest was necessary. He replied by telegraph to Justice of the Peace J. G. Stadler to hold an inquest, the coroner concluding the expense of his attending it being greater than that of the other method.
