CHICAGO PRODUCE MARKET. CHICAGO, August 25.- | Special Telegram to the BEE. |-Contrary to general expectations the wheat market ruled comparatively firm to-day and values show an improvement instead of an anticipated further deprecia tion. The market opened weak on the tendency developed yesterday afternoon, first trades being on a basis of 68 4 @68%c for September, 70%c for October and 73%c for De cember. September sold 1-16c lower and October was quoted at 70c and December at 7314c. Private cables were received to the effect that considerable California wheat was being offered in Liverpool 10c above the market, but that holders would not sell to representatives of the clique for fear they would not get their pay and the same spirit seems to prevail in San Francisco as well, judging from the effect of this intelligence prices here and elsewhere As a disastrous consequence to-day. the forced sale of California wheat has been measurably discounted. At and around 68@69e in Chicago there is a good shipping demand for milling and foreign accounts, with carriers and elevator people forming a substantial support and background. There was unusual activity in the local cash grain market to-day and carriers are competing pretty sharply for the limited quantity yet remaining in the city elevators. Western points shipments thus far this week are 300,000 bushels in excess of last week ar d Atlantic ports clearances for three days foot up 912,000 bushels. Millers also report an active demand for flour and western primary markets do not report a pressure of wheat from interior points. The closing range of prices was practically at the outside. Fluctuations were within moderate limits and at no time during the session was there and at no time during the session was there an overplus of offerings. September ranged at 68% @68% c and closed at 68% @68% c. Octiber ranged at 70% c and closed at 70% c. December ranged at 73% c low and 73% @73% bigh, closing at the top. The latter strength was due to some extent to the firmness of corn; which cereal led in speculative interest.

corn; which cereal led in speculative interest.

Corn regained the ground lost yesterday and sold strong at the extreme outside figures of the day. Receipts run along in about the same channel, being neither very heavy nor very light, and shipping inquiry is sufficiently active to prevent an uncomfortable accumulation of stocks. There was a brisk and at times urgent speculation inquiry for corn to-day and the next most noticable feature was the dearth of offerings. September corn opened at 40%@40%c, ranged 40%@40%c low and 41%ce41%c high, closing at the top. October opened at 41%c, ranged at 41%ce at 41%c low and 45%@45%c figh, closing at the top. October opened at 41%c, ranged at 44%c low and 45%@45%c high, closing at the outside. The market was active and buoyant throughout, with strong, concentrated buying and a good

market was active and buoyant throughout, with strong, concentrated buying and a good general demand.

There was a continuation of yesterday's duliness and inactivity in the speculative market for oats. Not enough was doing to hold the trading crowd together, and prices fluctuated narrowly, closing barely 1/5c higher for the day. The firmness displayed was mainly in sympathy with the strength in corn.

corn.

The provision pit was again a quiet spot on the floor. In the cash product there was, however, more doing than for some time past, and of green hams, sweet pickled hams and shoulders and cured bulk meats, rather free purchases were made for shipment. Speculation, on the contrary, was slow as well as featureless. Outside orders for delivery ahead were limited, and for professionals the changes in the market were too unimportand to a the different futures for lard and about ribs. For September, the pivotal month, lard sold and closed at \$6.4026.423, and short ribs. month, lard sold and closed at \$6,9000,4256 and short ribs sold at \$7,9000,9255, closing at \$7,9256 bid. October lard was 500756 higher and October short ribs 256 under September. January, the leading winter future, closed at \$12,20 for pork, \$6,55 for lard and \$6,2756 for short ribs.

CHICAGO LIVE STOCK. CHICAGO, August 25 .- | Special Telegram

to the BEE. J-CATTLE-Trade was active with just a turn stronger on good, useful and ordinary run of fat cattle. Monroe paid \$5.25 for one lot and several others sold within a range of \$4.90@5.20. Of course these are the top figures. Other natives, quality considered, sold equally well. Low grade grass and common natives, such as have to compete with Texans and rangers, sold on their merits, but no higher than heretofore. There were about 4,000 Texans and rangers among the fresh receipts, selling about the same as heretofore. The stocker and feeder trade was active. Native butchers' stock remains dull at extremely low prices. Shipping steers, 1,350 to 1,500 lbs, \$4.10 (£5.25; 1,200 to 1,850 lbs, \$3.65(£4.75; 950 to 1,200 lbs, \$3.00(£4.30. Stockers and feeders, \$2.00(£8.35); cows, bulls and mixed, \$1.25(£3.00); bulk, \$1.90(£2.35). Texas cattle and Indian steers, \$2.50(£3.50). Western rangers, \$7.20(£3.50).

3.00; bulk, \$1.90@2.35. Texas cattle and Indian steers, \$2.50@3.50. Western rangers, 27 cars, sold steady.

Hogs.—Trade was active and prices steady when compared with the downturn of yesterday. Best heavy sold at \$5.25@5.30, one or two lots at \$5.35. Good packing sorts, \$5.10@5.30; common packing serts and grassers, \$4.90@5.05. Light sorts sold at \$5.20@5.30 for best and \$4.90@5.15 for common and grassers.

FINANCIAL NEW YORK, August 25 .- | Special Telegram to the BEE. |-STOCKS-The period of liquidation in stocks that has been going on in New York for over a month has not passed away, and to-day witnessed the heaviest selling of any day since the June panic. Continued indefinite reports derogatory to the standing of bull houses in Wall street have caused an uneasy feeling, and the suspension of Grovesteen & Pell, with liabilities of \$1,-365,000 of which \$165,000 is due on the stock exchange, went far toward shattering what little confidence remained. The Newport bear pool, which has controlled the market all week, were large traders, and the dealings were the heaviest than on any preceding day this week. They sold everything on the list, and said that the liquidation of numerous small pools in fancies and wildcat properties must be made thorough, and judging from the way these stocks came out. the little and big bull pools had a thorough shaking up and undoubtedly met with heavy losses that will materially cripple them for some time to come. The short interest was considerably increased on the sharp declines, as the small bears and Londoners were free sellers. The Newport bears severed big lines of stocks to prevent the market from going all to pieces and took in enormous profits. Reading was the leading in activity and received a heavy drubbing at the hands of Bateman. Northern Pacific sold 105 shares, 75 going at 52. The price broke 1% and in ten minutes 25,000 shares changed hands. The weakest stock on the list, and one which did more to demoralize the list than any other, was Missouri Pacitic, which was left without support. Traders regard the receat heavy issue of its bonds as a menace, and prices declined 414 per cent, but quickly rallied a few cents. Lake Erie & Western broke 4% points on the selling of 500 shares. but railied 3 points in short order. S. V. White said: "The era of tying is upon us fust now the stock exchange seems ready to tise to any lie that may be cast at it, with all the alertness of a trout to a fly. A few weeks since I thought I saw good reasons for not

buying stocks and I said so. Now the money situation under the disbursements of the treasury seems to me to be radically changing, and aside from the market declining on lies I do not see any good reason for much lower prices." The Vanderbilts and St. Paul and several other properties were but slightly affected by the break in Northern Pacific and Missouri Pacific, and during the last hour, when all the stories about the latter reducing its dividend and the reported suit of the Missouri, Kansas & Texas against it for \$8,000,000 were denied by insiders, there was a decided change for the better, and sharp rallies followed. Despite all the hammering and bear talk, the net declines of the whole list were only moderate. Missouri Pacific led with 3%. Reading was 1% lower. Texas Pacific and Missouri, Kansas & Texas 1%. Omaha 14. Northwestern M. Western Union %, St. Paul %, Lackawanna % and Union Pacific % per cent. Oregon Transportation and Pacific Mail were steady. The total sales were 310,709 shares, against 236,654 shares

GOVERNMENTS-Government bonds were weak and heavy.

OMAHA LIVE STOCK. Thursday, August 25. Cattle.

The run of cattle was very light to-day. The market was strong on good fat corn fed natives but slow on other grades. One very fine bunch of cattle brought \$4.57\frac{1}{2}\$. Butchers stock was slow and very little changed hands. There was not much doing in the the feeder market.

Hogs.

The receipts of hogs was light again to-day. The market opened strong at yester-day's prices and was fairly active. Two loads of choice heavy hogs brought 5c more than anything yesterday but they were of better quality. The demand was better than the supply and there was not enough hogs to fill all the orders. Good heavy hogs are in good demand and prices firm but rough light or even course heavy are not in as good request.
