Society in Omaha.

The past week has been one of a generally bustling and stirring character on account of the fair and soldiers' reunion. Everybody was swallowed up in the vortex of excitement, and society matters were at a decidedly low ebb. Still there was a quiet wedding or two, several informal receptions, and coaching and horseback parties to the suburban attractions, and these made up for the lack of indoor pleasures. A cold wave is now on the way and the season proper promises to open up shortly, and from all indications in the most brilliant

At Forest Hill.

The Wheat Crowd Bullishly Disposed and Speculation Steady.

ACTIVE BIDS FOR PROPERTY.

Provisions Close the Week With a Good Showing of Interest-Supply of Cattle Small-General Quotations.

CHICAGO PRODUCE MARKET.

CHICAGO, Sept. 10 .- | Special Telegram to the BRE. ]-"The crowd" interpreted the government estimate of the wheat crop at between 430,000,000 and 440,000,000 bushels. Nobody has been doing any very close figuring on the wheat crop lately, and consequently nobody was either greatly surprised, elated or disappointed at the result. Speculation was more active to-day than at any time for a month. Jones, McCormick & Kennett made December the lively month, by free of-ferings, which broke the price from 73%c to 73c. The crowd was bullishly disposed and took about 1,000,000 bushels of December at 73c and above. Several strong local operators and brokers were actively bidding for property, but they did not appear to be so anxious to acquire wheat as to give the market their moral support. October opened at 7014c, ranged at 704/@6936c, and closed at 70c. December rested at 73c. the bottom. May opened at 7914@79%c and ranged from that point down to 79c, which was the closing quotation. The 1 o'clock range is 1@%c under yesterday's last prices. Cables were dull and featureless. General speculative buying was light. The business done was almost wholly for tocal and New York account, with perhaps a small sprinkling of orders for foreigners. The estimated increase in the visible supply is 1,000,000 bushels.

Corn was active within a range of %c today and closing prices were about the same
to %c under the latest bid prices of yesterday.
There was a large speculative business transacted, especially in the May future, and
some big round lots changed hands.
It was, in fact, the most active
session of the week in the corn pit. No two
operators could figure out the same results
on the crop from the agricultural bureau
estimate of the condition, which was made estimate of the condition, which was made public to-day. Some of the bulls attempted to prove that if the government estimate of 8 public to-day. Some of the bulls attempted to prove that if the government estimate of 8 points reduction was correct the crop could not possibly be made to yield over 1,450,000,000 bushels, while by some traders the estimate was 1,600,000,000 bushels. But following up the averages and estimates of last month, the crop will be 1,590,000,000 bushels, a decrease of 90,000,000 bushels as compared with last month's figures. To-day's inspection returns were pretty close to anticipated arrivals and lake charters were the smallest of any day of the week, footing up 197,000 bushels of corn. Trading in futures, though heavy, was accompanied by little or no excitement. The market opened about 1/2 of at 451/2 for May and gradually weakened to 45 Xc on the Washington crop report. That proved to be the bottom, and a reaction followed which carried May to 45/2c. The upturn was occasioned mainly by heavy buying by Hutchinson and the report that Armour & Co. estimate the crop at under 1,300,000,000 bushels and that some of the officers of the board here had placed the probable yield at 1,400,000,000 bushels. The extreme range for September corn was 415/26421/2c to October, 415/2642 on the split to 423/2612/2c together, and for November 423/2642/2c, with December at the same. The closing prices were: October 423/2c. November 423/2642/2c and May 455/2c. New York was lower for futures and exports from Atlantic ports were very light, though Liverpool was firm for spot corn, the cables reporting a further advance at 1/4d.

Oats were dragging in the speculative

ight, though Liverpool was him for spot corn, the cables reporting a further advance at 14d.

Oats were dragging in the speculative market, but prices held pretty steady, and fluctuated narrowly. October improved from 25½c at the opening to 25½c at the close and May closed steady at 30½c after selling from 30c to 30½c@30¼c together. At one time 21½c was bid for a 5,000 bushel lot of fresh receipts in store, and that was the nominal closing for seller the month.

In proaisions the week closed with a good showing of interest. There was no marked activity, yet as a whole the business transacted was above a saturday average, and in October short ribs and January product the trading exceeded an ordinary volume. In the general market the feeling was also quite strong, though, as compared with last night's final quotations, year and January pork, November, December and January lard and January short ribs closed unchanged. September and October short ribs, which ranged at the same prices, or at \$8.75@8.90, declined 2½c@5c, resting at \$8.90. For September and October delivery lard was advanced 2½c. with September land delivery lard was advanced 2½c. with September and delivery lard was advanced 2½c.

ing at \$8.90. For September and October delivery lard was advanced 2½c, with September closing at \$6.60 and October at \$6.62½c, January closed at \$12.77½ for pork, \$6.55 for lard, and \$6.57½ for short ribs. Cash lard sold at \$6.60(26.62½c.

# CHICAGO LIVE STOCK.

CHICAGO, Sept. 10 .- | Special Telegram to the BEE |-CATTLE-To-day's supply was small. About thirty-five cars were for slaughterers direct, and the number of native beeves was very light. The general market was fairly active to the extent of the supply and values closed with a stronger feeling than it opened. The total receipts this week are over 50,000, being 4,900 less than last week, but 8,000 more than last year. A lot of thirteen 1223-lb steers sold at \$4.35. Outside of this there were no native beef cattle sold, though dressed beef men bought the few range cattle on the market. Beeves, \$3.00@5.00; stockers and feeders. \$1.50@2.90; cows, bulls and mixed, \$1.10@2.85; Texas steers, \$2.30@3.15; cows, \$1.50@2.15. Western rangers were steady: natives and half breeds, \$2.80@3.50; wintered Texans, \$2.75@3.10.

3.10. Hogs—Trade was brisk with little or no change in prices as compared with yesterday. A few fancy heavy lots sold at \$5.5765.50 and good butcher weights at \$5.4066.50, Packing and the ordinary run of shipping sorts sold within a range of \$5,30@5,40, common at \$5.10@5.25; light sorts, \$5.25@.540; grassers, \$4.80@5.75.

# FINANCIAL

NEW YORK, Sept. 10.—[Special Telegram to the Bee.]—STOCKS—Prices opened off this morning. Then there was a slight rally, followed by a weak and somewhat feverish finish, with about the lowest figures for the day ruling when business closed. Western Union was the liveliest feature, with sales up to 78%c, and then collapsed to 78%c, at which it closed. The bank statement was a disappointment and showed a decrease in the revenue of \$1,058,000, and altogether there was little comfort on the bull side to-day Grangers acted badly, St. Saul dropping to \$3%c, over a clear point loss from early fig ures, while Northwestern declined 1 per cent in a few moments. For two hours of the session the bears managed to put in some very effective work, and if their opponents don't come to the front next week and stop these frequently occurring raids, they may as well take back seats and let prices find the bottom as soon as possible. The net declines extended from 14 to 134 points. About 11 a.m., the market having again become dull, a drooping terminery was then developed, and after the lank statement was published a decided weatness was shown and the decline ceased only with the close of business, which was quiet but weak at the lowest prices realned. The day's business was 157,448 shares, of which 42,760 were Reading, 24,463 Western Union and 10,575 New Engbottom as soon as possible. The net declines 36,400 Western Union and 10,575 New Eng land. Almost the entire list is lower. Wheeling & Lake Erie with an advance of Ic being the only prominent exception, but Western Union is down 136c, Chicago, Burlington & Quincy 1%c, Lackawanna & St. l'aul 1 per cent and others fractional amounts. The report that the New York stock exchange has reduced rates of commission needs an explanation, for cash transaction rates remain at 1/4 per cent. Instead of reducing the rates the exchange yesterday adopted a provision in reference to dealing for account with a settling day every fifteenth day, the same as in London, and on transactions for the account brokers may charge 1-16e commission, and 1-16e shall be charged

SATURDAY'S MARKET FIGURES on each extension of contract. Dealing for the account is entirely optional, but is likely to win its way slowly, if at all. The indications are that traders will find that there will be a difference between cash transactions and those for account that will at least cover the interest, and if a customer carries stock for one or two months he will pay more commission instead of less. The poor showing for corn made by the government crop report had a tendency to encourage the bears, and they still cleave to their old opinions. Transactions to-day were 148,712 shares, in-cluding 42,660 of Reading 36,400 Western Union, 8,850 St. Paul and 6,475 Missouri Pacific. The weekly statement of the New York associated banks shows the following changes: Reserve, decrease, \$1,058,300; loans, increase, \$2,004,000; specie, decrease, \$458,900; legal tenders, decrease, .\$100,800; deposits, decrease, \$1,609,600; circulation, increast, \$3,600. The banks now hold \$4,154,-425 in excess of the 25 per cent rule. #GOVERNMENTS-Government bonds wer

Fruits.

Orders from the country requiring re-lected stock and extra cure in packing can-not always be filled at the same prices quoted to the local trade for common stock. quoted to the local trade for common stock.

Only one car of California fruit was received to-day. There has been considerable activity in the market during the past week and a large amount of fruit has been sold. Prospects would seem to favor a good trade for the week to come, as the large demandmade upon the retail dealers has cleared up all the surplus stock, and as the local grower disposed of all their marketable stock during the past few days, the commission house will doubtless be called upon to fill the demand.
