The promoters of the Motor street railroad are resorting to sharp practice which no law abiding citizen can approve.

The last victim of high art is E. K. Valentine. His alleged portrait in Saturday's Republican would pass for one of Frank Mayo's three guardsmen.

DR. MERCER presided over Hascall's hoodlum meeting a week ago. That gave him a blanket mortgage on the council with the privilege to tear up pavements on Sunday and lay track on his motor anaconda unmolested.

CHIEF SEAVEY committed another unpardonable crime, in the eyes of Mr. McShane, when he allowed some of his policemen who escorted the New York firemen through the streets to appear "in frock coats and bob-tail coats."

The figures for the patent office for the fiscal year ending with last June showed that the inventive genius of the country is not on the decline.

It is the assertion that the license system is practically a failure, and that even under high license the diminution of drinking saloons is scarcely appreciable.
