-THE TRADING PITS QUIET.

A General Absence of Outside Speculative Orders Noticeable.

CORN FOLLOWS AFTER WHEAT

No Particular Change in the Provision Trade-A Liberal Supply of All Kinds of Cattle-Quotations.

CHICAGO PRODUCE MARKET.

CHICAGO, Sept. 14 .- | Special Telegram to the Bre. |- The trading pits were very quiet indeed all the forenoon to-day. Outside do-mestic markets were, to judge from the dispatches, as spirities; as our own and nothing came over the wires of a character to disturb values materially. The yellow tissue had it that the New York produce exchange was in a huff over an article published in the Times of that city, purporting to be an interview with President Wright concerning the bucket shop question, and were giving more attention to "turning over" this exchange than they were to business. The general absence of outside speculative orders here, the lack of local interest and gossip over the news from Ottawa on the anarchist case, all tended to make it a dull day on the Chicago bourse. Wheat opened firm and fractionally higher, with "the crowd" in an excellent humor for giving prices a little boost. inspiration was drawn from "on-passage" figures. It was This shown that during the past week there was a decrease in the amount afloat of 1,760,000 bushels, and although the New York market was firm, cables were unimproved, spot wheat being reported in limited demand, with India sorts lower. Good buying early by Driver & Shaw and the scalping element, sent October from 69%@60% at the opening, up to 70c. December Improving in the meantime to 723/c and May to 783/c. But as the market received no outside support, the improvement did not hold and by noon October had dropped back to yesterday's closing range, or 6934@6936c on the split. That future sold very sparingly at 70c. The reaction was rather sharp and on the down turn the weakness was intensified by selling orders from New York. The market showed no recuperative power during the last hour of the morning session and the 1 o'clock closings were barely a split better than yesterday afternoon. The extreme range covered by fluctu-ations was only about %c, and when the bell tapped quotations stood at 69%c for October, 71%c for November, 72%c for December and 78%(@78%c for May. Ex-port clearings made a small showing—only 74,000 bushels—and receipts at twelve princi-pal points were 627,000 bushels, against 228,000 shipped from the same. The arrivals here continued very light—only thirty-elight cars of both winter and spring in yesterday's

cars of both winter and spring in yesterday's inspection, including but one car of No. 2 spring. The estimated receipts for to-morrow are fifty-seven cars.

Corn followed pretty close after wheat. Dullness, narrow fluctuations and a general absence of interesting features was the order of the day in the pit, and the leading futures. of the day in the pit, and the leading futures closed at 1 o'clock about 1/2 off as compared with yesterday's last bid. October opened stronger at 421/2, sold up in the early dealings to 423/2 together, and then off to 423/2, which was the market at 1 o'clock. In the November and December options there was only a limited business passing, and was only a limited business passing, and while the opening figures showed \(\frac{1}{3} \) c pre-mium on November fover October, it inally disappeared, and toward the close November was 3gc discount. May corn opened at 45%c, touched 45%c and later sold off to 45% @45%c on the split. All months rested at the bottom at the close of the morning session. Trading at the close of the morning session. I rading throughout was of a light scalping order, and although the tone of the market was in the direction of a lower level, after the little bulge early, the feeling was at no time especially weak. The New York market was firm and cables were dull with "a poor demand." No fault can be found with the cash movement at this point. To day's cherters movement at this point. To-day's charters footed up 200,000 bushels, with lake freights by water to the seaboard unchanged, where pretty much all of the shipments are pointing lately. Receivers say that all the indications are in favor of continued liberal re-ceipts and most of the banks report larger shipments of currency to interior points for the movement of corn. Yesterday's arrivals exceeded the estimates slightly and expectations to-morrow are for 416 cars, which is a little larger still. The bulls are not dismayed, however, by the re-ceipts. There was a decrease in the amount ceipts. There was a decrease in the amount of corn on ocean passage last week of 730,000 bushels, and it is believed that if prices do not get too high the export trade in this creal will from now on cut more of a figure than it has for years. Hutchinson was a free seller of October corn to-day. This would not have special significance, perhaps, were it not for the fact that he has been the leading built in this market for a month past and as a leader. the fact that he has been the leading bull in this market for a month past, and as a leader, and heavy operator his movements are closely watched by the crowd. It was also reported that "Hutch" had sold all of his cash holdings, amounting to about 700,000 bushels, to Baker, who will keep ou moving it out. Captain Phillips is an uncompromising bull on corn. He does not go back on the government figures, but says they are good enough for him, reading them this way: Crop of 1886, 1,665,000,000 bushels; crop of 1887, 1,445,000,000 bushels; shortage, 220,000,000 bushels; amount less in farmers hands and in visible than last year, 180,000,000 bushels; total shortage, 400,000,000 bushels.

Dats were again very dull in the speculative market. Orders to either buy or sell were phenomenally light and the slight changes that occurred in prices were in favor of holders, October improved from 25%@2534c together to 25%c straight, November from 26c to 26%c and May sold and closed at 30%c, or about 3c better at 1 p. m.

about jee better at 1 p. m.

In provisions there was no particular change. Trading was fair and in the general market the bear side was regarded with the greatest favor, though the most serious depression suffered was in lard, which declined pression suffered was in lard, which declined 214@5c from last night's closings. Short ribs for the different deliveries dealt in were unchanged, while in January pork there was even as advance of 234c. All things considered, the trade was well supported. September and October short ribs ranged at \$5.90 (@8.95 and rested at 1 o'clock at \$8.90. September lard was about the same as October, which sold from \$6.55 early down to \$6.4734. Subsequently November lard closed at \$6.4244 (@6.45 and December at \$6.45. The January product fluctuated within narrow limits and at 1 o'clock pork was quoted at \$12.55, lard at \$6.5234 and short ribs at \$6.45. Cash lard sold freely at \$6.4734(@6.5234). Cash meats were held firmly.

FINANCIAL

NEW YORK, Sept. 14 .- | Special Telegram to the | BEE. |-STOCKS-Stock operators were slow to take hold this morning, being disposed to await the action of the treasury in the purchase of bonds. The offerings were less than expected, aggregating \$5,175,-110 at \$1.10 down to \$1.07, \$4,000,000 being offered at \$1.08. The announcement of the acceptance was slow in coming, and during the interval the bears hammered the market with telling effect, using Western Union, of which the bulls have been suspected of late as the leader, and when it started downward the bulls becan dumping, and it broke from 78% to 76%, and 20,000 shares changed hands. Coal stocks followed, and were sold by room traders on anticipation that there would be a general strike, and prices dropped 11/4 to 2 points. The Grangers were weak, declining 1/4 (al point. The rest of the active list broke 13/@2 points, but rallied slightly about 2 o'clock. When the announcement of the government's acceptance of \$4,000,000 of bonds was made, the market rallied 14:001 per cent on covering by shorts, but after a brief period the bears again attacked the market, and it sold off rapidly, the last sales being at almost inside figures, and showed a net decline of 21% on Reading and Western Union, % on St. Paul, 34 on Northwestern. % on Lake Shore, 1% on Lackawanna, % on Cotton Oil, and 🧺 per cent on Chicago. Burlington & Quincy. Manhattan was up per cent. The total sales were 318,000 shares.

Flannel dress goods are very scarce and jobbers are unable to keep their stocks full. Hard coal is a good deal of a luxury and hard to get, both on account of the scarcity of the coal and the difficulty of obtaining transportation at this time. There was an unusually heavy trade in dry goods last week and all the orders are not yet filled. A very large proportion of the country merchants who visited the fair selected a bill of goods.

J. M. Forward, formerly of the firm of Freeman & Co., has opened a wholesale fruit and produce house at 415 South Eleventh street. He will make a specialty of handling Michi: an apples. Mort is an old hand at the business and will doubtless make a success of it.
