The Longest Period of Gains in Wheat Known Since the June Collapse.

A VERY DULL SESSION IN CORN

Increased Strength Exhibited in the Provision Pit-Good to Choice Cattle Scarce-Hogs in Fair Demand-Quotations.

CHICAGO PRODUCE MARKET.

CHICAGO, Sept. 23.—[Special Telegram to the BEE.]—This makes the sixth consecutive day during which wheat has scored an advance. The gain has not been large in any one day, but the aggregate has been fair. On Saturday last October wheat closed at 68%c. At the close of this morning's session Octoer wheat stood at 70%c. It is not so much the amount of the advance, however, that excites comment and lightens the faces of the so often disappointed bull contingent as the fact that a steady advance, however small, for a whole week has been possible. It is an experience not known since the collapse in June and the believers in higher prices arone that if it continues a little longer large lines of short wheat will be covered and the remainder of advance that they look for will take care of itself. On the other hand, the argument of the bears-which, it must be admitted, they show their belief in by their works-is that the market is being builed now without any warrant for it in the law of supply and demand by men who want to get higher prices simply to sell on. The market opened strong at last night's closing prices-70c for October and fractionally higher at 73c for December—sold up 1/2c, then down from 1/2c to 1/2c, then rapidly back to nearly the highest point yet reached and continued to advance until the highest point of the day was reached at 70%@70%c for October and 73%@73%c for December. There was good buying by Fleming & Boyden and A. M. buying by Fleming & Boyden and A. M. Wright & Co., and it was reported that St. Lon's people were buying, presumably to cover shorts. A part of the same report was that much of the buying yesterday was for St. Louis account. Ream, Cudaby and Brega were sellers. Cables, both public and private, were favorable, the public cable giving spot wheat Id dearer and prices tending upward for American wheat. A late private cable was said to have been received from Antwerp of an unfavorable nature, but this was in direct contradiction to the public advices from that point, which reported an advance. Outside markets were variable. New York opening ½c higher, St. Louis about ½c lower and Toledo from ½c to ½c higher than yesterday's close. The receipts of wheat here were about as expected—68 cars—but the inspection shows a low grade, only 2 cars passing as No. 2 spring. There was more business transacted than has been usual for the past few weeks, prices There was more business transacted than has been usual for the past few weeks, prices remaining firm after the first break and subsequent rally and closing at 70% for December and 78% for May. The gain on the day was 16c in October, 18c in December and 14c in May. Corn was burdened with the activity in

Corn was burdened with the activity in wheat. October corn opened at yesterday's closing figures—41c—sold down to 30c, where Hutchinson's purchases are credited with having steadled the market, and thereafter prices receded until the close. The highest point was 41@41 c. Hutchinson was a seller of May corn and of some of the October option later. Men in the corn pit consider it a dull day when this trader is on both sides of the market at the same time in the session. S. B. Weber is credited with a large share of the corn buying for several days past. The

S. B. Weber is credited with a large share of the corn buying for several days past. The receipts of corn at this point were 489 cars, 80 cars more than were expected. "Sympathy with wheat" is a frequent expression as a reason fo 1the continued strength of corn. The closing was steady at 41@41½c for October and 44½@44½c for May, a fractional advance for the day.

Oats presented the same dull condition of affairs in the speculative market noted for some days past. Trading in futures was very light and fluctuations in prices narrow. October opened at 25½c, sold at 25½@25½c together and then improved to 25½c and closed at 25½c at 1 o'clock. November sold at 25½c and May closed at 25½c, after selling at 25%c and at 25%c apple one in cash lots in store to speak of, but oats on the regular market peak of, but outs on the regular market rere firm.

Provisions exhibited increased strength.

Provisions exhibited increased strength. There was no improvement in trading, which was feverish, but the feeling favored holders and better prices were the rule. Based on last night's closing, an advance amounting to 7½c was established in January pork, 2½@5c in the different deliveries for lard and 7½c in January short ribs. October short ribs, which are still under control, were firm at yesterday's prices to a triffe higher, selling at \$8,25@8.30, and closing at \$8,37½. In lard the October future ranged at \$6,30½6.37½, and closed at \$6,37½, the final quotations for November being \$6,32½ and for December \$6,35. January divided with October the speculative interest witwith October the speculative interest witnessed, and at 1 o'clock stood at \$12,22% for pork, at \$6,40 for lard and \$6,22% for short ribs. For May lard sold at \$6,65 &6.75. The

CHICAGO LIVE STOCK.

CIIICAGO, Sept 23 .- [Special Telegram to the BEE.]-CATTLE-Good to choice cattle were rather scarce and in good demand and sold 10c higher. The common to fair kinds were in liberal supply and sold slowly at no better prices. There were no cattle here as fine as the load or two that sold at \$5.25 yesterday, but there was a fair showing of good cattle. A four-load lot, for instance, sold at \$4.95. The tidy fat steers of light and medium weights sold at stronger prices, but the thin cattle and coarse lots were hard enough to sell at steady prices. FINANCIAL

NEW YORK, Sept. 23.- [Special Telegram to the BEE.1-STOCKS-The stock market opened weaker in sympathy with lower prices in London and moderate realizing by foreign houses, also by parties who bought on the recent declines. The government's purchase of \$3,494,000 bonds yesterday, and of \$1,000,000 up to 1 o'clock to-day had a quieting effect upon those who have been howling about tight money, and after the first decline a better feeling set in, extending to I point. Trading was of the spasmodic order and the votume of business lighter than any previous day this week. Gould said in an interview that he purchased 5,000 shares of Western Union yesterday because it was ef Western Union yesterday because it was choice, \$4.30@4.85; skips and pigs, \$2.00

SIX CONSECUTIVE ADVANCES can stand against any opposition and no opposition can stand against it." Notwithposition can stand against it." Notwith-standing the recent sharp reaction there is no increase in commission orders, the public being practically out of the market and having no surplus money to gamble in stocks at present. About noon the bears showed a disposition to raid the market, but at 1 o'clock quietness reigned, with prices well naintained. During the last hour the market appeared to be full of stocks and a gradual softening occurred all along the line and at the close last sales were at nearly the in-side figures of the day and recorded declines from 16 to 36 per cent. Lake Shore, Missouri, Kausas & Texas, Pacific Mail, St. Paul, Reading, and Western Union showed the largest loss.
