CHICAGO, Sept. 24.- | Special Telegram to the BEE. |- Besides the natural and customary duliness incident to the markets on Saturday and the "evening up" process of the last day of the week, an election of two directors and the voting on an amendment to the rules especially tended to make business light to day. Members were evidently more interested in the rule by which, ac-cording to their several judgments, they were to reap larger or smaller profits for their work in the future than they were in the possibility of immediate profits, The wheat market opened %c below yesterday's closing figure and declined still another %c under free selling by Ream, Cudahy and S nger, possibly aided by the New York cholera seare, which, however, seemed to have expended most of its force in the short session of yesterday afternoon. Late private London cables, however, were firm and brought bids for wheat. It was reported that Minneapolis would show no increase in the stocks in store there on Monday. The Duluth market was strong and still remains higher than our own, indicating that the receipts there are disappointing either in quantity or quality or probably both. With this sort of news prevalent, when the abovenamed bears and their following ceased their hammering, and Fleming & Boyden, Geddes, and Milmine, Bodman & Co. appeared as good buyers, there was a speedy reaction, helped probably by the covering of the short sellers, who followed the big bears early in the day. From the low point the advance was quite steady to the close, but the volume of business was not large. Shipments from the seaboard were reported as 155,000 bushels of wheat. The receipts to-day were 116 cars, 48 cars more than were expected. There was one car of inspected Mo. 2 spring. Bankers report that considerable money is now going into the country for the purchase of the new wheat crop. The closing hour was strong at almost the highest point of the day—October 70¼ (270% c. December 73 (273) c. May 781 (278) 4c. The gain for the day was 1 (20% c on October, but the May option closed at exactly yesterday's closing figure. reaction, helped probably by the covering of Corn opened at about yesterday's closing

Corn opened at about yesterday's closing figure and the market was strong, but with comparatively little business done. The only feature appeared to be the continued buying by W. T. Baker, who is taking a large share of the offerings of cash corn. There are men on the floor who believe that these purchases are in fact for Hutchinson, and plenty of traders who credit the continued strength in corn to these purchases. The receipts to-day were somewhat less than expected—447 cars. The shipments were fair—270,000 bushels. Vessel room was taken for 470,000 bushels of corn to-day. The fluctuations in October corn were from 40% (@40% c to 41% (@41% c, and in May between 44% c and 44% c. The closing was steady at 41% (@41% c for October and 44% (@44% c for May.

Speculation in cats was about the same in volume as on the preceding days of the week, being rather light in all futures and almost entirely local. October opened at 25½c, sold from 25½c25½c, on the split to 25½c and closed at outside figures, or a shade stronger than yesterday afternoon. November opened and closed at 25½c and sold a split both above and below that. May sold and closed at 25½c, which was a small fraction. lower, the market touching 29½c at one time. Charters were made for 117,000 bushels by lake shippers.

Charters were made for 117,000 bushels by lake shippers.

In previsions more than usual interest was exhibited for the closing day of the week. Traders of all classes were remarkably well inclined to take hold, and in the general market there was not only comparatively fair activity, but a stronger feeling. Barring September and October short ribs, which declined 2134c, higher prices were the rule. Lard for deliveries included within the present year was advanced 5c, year pork the rule, Lard for deliveries included within the present year was advanced 5c, year pork 15c. January pork 12½c and January lard and short ribs 7½c. In the speculation witnessed January was the most active future. It sold for pork at \$12 15@12 20, for lard at \$6 40@6 47½, and for short ribs at \$6 17½@6 27½. The inside prices quoted prevailed early, and at the close pork for January stood at \$12 30, lard at \$6 45@6 47½ and short ribs at \$6 25@6 27½. For October lard ranged at \$6 35@6 45, and short ribs at \$8 22½@8 25, closing at \$6 42½@6 45 and \$8 25, respectively. Lard for November closed at \$6 87½@6 40, and for December at \$6 40. Cash lard was 2½c higher than October, and in good demand. Cash meats were in better request.

CHICAGO, Sept 24.- [Special Telegram to the BEE. |-CATTLE - Estimated receipts, 1,000; last Saturday, 2,033; week, 51,677; last week, 49,044. There was scarcely a sufficient number on sale to make a market, as nearly all of the 1,000 fresh cattle were the property of our local beef dealers that came on direct from Kansas City. There is nothing strange or new in this incident, as the same happens nearly every Saturday, as it is now an estab-lished custom to do as little business as possible in the cattle line on Saturday. Trading during the week has been fairly active. The 50,000 cettle that arrived were disposed of each day with little or no trouble. Prices on prime natives are a shade higher than at the opening of this week, but plain and mediums remain about the same. Texans and northern rangers have sold for the low est prices on record. Trade was rather slow and an unsatisfactory market for salesmen. In the Rock Island division prices were 10@15c lower than yesterday morning. In the Burlington division prices were about the same as yesterday. In the Northwestern division there was little or no change on the best, but plain and common stock sold for any price offered. A few rancy heavy, including Philadelphias and mediem butcher weights, the Underwood string of plain packers, about 600, was made up within a range of \$1.60 to \$4.70 and sold at \$4.90@5.15; good to choice mixed \$4.70@4.65. Light, the York sort, for instance, sold at \$5.00@5.05, and other descriptions at \$4.50@4.65.

NEW YORK, Sept. 24.- | Special Telegram the BEE. |-STOCKS-In the stock market another week of depression has been wit-nessed. Attempts to raily only met with nporary success and notwithstanding the beavy purchases by foreigners and their withdrawal of a large amount of securities from the market, also the large purchases of bonds by the government, the undertone has continued weak and very encouraging to the bears who had the nerve and money. Tradoug to-day was good for Saturday, but an un-settled feeling prevailed. The opening was weak in sympathy with London. The market was well filled with stock and prices declined k@l point. On the break shorts took hold and a rally occurred. The bank statement was expected to show a decrease but, to the surprise of everyone, exhibited an nerease in the reserve of \$1,904,000. This, though aiding in putting stocks up, cut les-

stocks recently purchased by foreign houses had been taken from the market, 47,000 shares of Reading being shipped on the Hurania and Fulda to-day. They also said that at the meeting of the Pennsylvania directors next week the dividend would be increased 6 per cent, that Lake Shore was earning 8 per cent and that New York Central would increase its dividend to 5 per cent. It was also stated that the greatest surprise in the Baltimore & Ohio deal is yet to come.
