PARSONS' CROWNING FOLLY.

He Obtains a Brief Lease of Office By An Injunction.

LINCOLN PEOPLE INDIGNANT.

This Last Move Looked Upon As An Outrage-Oiling Up the Legal Machine-Divorce Suits-Some Political Pointers.

IPROM THE BEE'S LINCOLN BUREAU. There was much excitement in Lincoln yesterday when it became known that the attorney for Police Judge Par-sons had secured an injunction from the United States court restraining the city council from further action in the investigation and charges that have been the subject of trial and comment for two months past. This remarkable proceeding fixes December as the time when the mayor and council shall go to Omaha and answer why the injunction should not be made permanent. This is a remarkable procedure and the public at large is justly indignant. That the federal courts should interfere in a case of this character to prevent the case of this character to prevent the council and mayor from investigating and removing a corrupt official is a spectacle that is beyond comparison and public opinion that has been divided, is to-day moving unanimously against the high handed procedure. The city council has heard the charges against Police Judge Parsons through their committee and the finding of the committee was unanimous for removal of the judge from office. The plea was made for a little further time and the extension of time has been used to invoke the federal court in a case between the city council and one of the city officials under its control. Public opinion seems to be that if the judge had entered a plea of guilty from the housetop that the confession would have been mild compared with the proceedings of his attorneys in this matter. The council is being urged to pay no attention to the order from the federal court but to act on the merits of the case and not let their findings be thwarted by such an unwarranted action as this which obviously is intended to thwart the direct action of the council and perpetuate in office an official who has been tried and convicted by a long investigation. This last act is the crowning folly of the police judge himself.

PREPARING FOR COURT.

The district court for this county, that convenes the coming month, is exciting the attention of the clerk of the court, who is busy getting the docket out for the term. A grand and petit jury has been drawn for the term, the petit jury comprising the following citizens: George Camp, Henry Mundt, W. P. Dakin, George W. Burtis, L. J. Byers, J. H. Bullock, John O. Wagoner, James Bowman, J. H. Naden, J. D. Johnson, J. B. Vail, G. W. Eggleson, J. H. Harley, R. H. Moffitt, Thomas Fitzgerald, J. G. Miller, J. Nolan, James H. Wilson, E. J. Brithower, F. G. Wittswick, Gerritt Ripen, Henry Miller, William Kinyon, C. R. Van Dyre.

Two new cases were entered on the divorce side of the ledger yesterday. One is that of Benjamin K. Roberts against Jenny G. Roberts, in which desertion is alleged. The parties were married in 1885 and the desertion dates from that year. The second divorce case is that of Margaret Riley against John Riley. Her claim is that her husband is an habitual drunkard, that he is guilty of gross cruelty, striking and beating her and driving her from the house. She asks that the property may fall to her.

STATE HOUSE NOTES.

The contract for the building of the hospital for the incurably insane at Hastings has been awarded to Ellis, Reynolds & Specker, Norfolk. The appropriation for the building was \$75,000 and the bids as opened were as follows: J. G. I. bids as opened were as follows: J. G. I. Cleland, Hastings, \$69,000; Scales & Clark, Hastings, \$73,110; George E. Cesney, Hastings, \$73,000; Samuel Chaney, Hastings, \$73,300; Ellis, Reynolds & Specker, Norfolk, \$63,900.

Judge S. B. Pond, of this district, handed in his resignation as judge to Acting Governor Shedd at noon to-day. Governor Shedd accepted the resignation

Governor Shedd accepted the resignation to take effect on the 1st of October, at which ime Governor Thayer will be at home to act further in the premises. As there s no term of court to commence until October 10 it is probable that the gov-ernor will wait unli the judicial district nomination is made and nominate the republican candidate to succeed Judge

Secretary Laws and Treasurer Willard went to Norfolk yesterday to visit the state insane hospital located at that

The call of the Second district cases in the supreme court yesterday brought nu-merous attorneys from the bars of Cass and Otoe counties to the court room. RAILROADS PERNICIOUSLY ACTIVE.

As the day for holding the republican state convention draws near the interest in the gathering increases. The roads that have set out to retire Judge Maxwell have relaxed none of their efforts, and on the other hand the people over the state are awakening to the realization that the railroads are more desperately in politics than ever and endorsements of efforts of the board of transportation to lower freight rates come up from all sections of the state. Among the counties of late to hold conventions are Seward that endorses the efforts to reduce rates and sends Attorney General Leese, of the state board, as one of the delegates. Red Willow county, the home of Secretary Laws who is also a member of the board, sends that official as one of the state del-egates. The fine work of the roads con-tinues and the familiar faces of oil room patriots are again seen in the hotel lob es. The scheme to have several candidates for judge who in turn are to unite on any man to best Maxwell is being vig-orously worked with Dillworth at the head working a sectional interest in the western part of the state.

The question of two regents of the state university is attracting more than customary attention and the contest for the two places on the board promises to be more lively than usual. Among the didates for regents are Dr. Davis, of McCook, who has selected his delegates to the state convention and who has a numerous following in this part of the state. State Senator Micklejohn, of Nance county, is frequently and favora-biy mentioned for one of the regents while McAllister, of Central City, is also a prominently mentioned north-of-the-Platte candidate, and King, of Polk, a former member of the legislature, is de-veloping strength. It is also stated that Representative McCann, of Sheridan, will be boomed by his friends for re-gent.

A Wonderful Machine, But it Will Wear Out.

There is no doubt that man is a fine nechanism, but like every other machine he wears out by friction. It is said he is born again every two or three years. His body is virtually remade from food. To retard this making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time to recuperate. The process of making a new is so accelerated by purging with BRANDRETH'S PILLS that a new man, as it were, may be made in two or three months, and the change in the mechansm is such that the worn out part is replaced by the new without the usual running down of the entire machine. You don't have to stop for repairs. Purge away with BRADRETH'S PILLS the old, diseased and wornout body.

A Knife in a Fish. Cassell's Magazine: A recent bulletin of the United States Fish commission reports the capture of a codfish at Gloucester, Mass., in September, 1886, which contained a pocket-knife of curious work-manship embedded in its flesh. The knife has a brass handle curved and tapering, with a silt in the hollow side for the blade, which is of lance shape. It is 61 inches long, and it is thought the owner must have been some aborigine, or perhaps a sailor. The knife was discovered accidentally in handling the cod.

Laundry Philosophy. San Francisco Chronicle: Wong Fat yesterday found among the clothes ready for delivery at his laundry a gaudily

striped garmen that looked like an ulster for a barber's pole.

Removing a Serious Obstruction

Dynamite and giant powder might answer admirably to remove obstructions from Hell Gate in East River, New York, but explosive measures in medica-tion are ever attended with disastrous consequences. With Hostetter's Stomach Bitters, on the other hand, the bowels are relaxed, not by a convulsion of nature approximating to an eruption of Mt. Popocatapeti, but gradually, beneficially, without wrench-ing or drenching. The liver and stom-ach, as well as the bowels, are toned and benefitted by it.

Effective Treatment for Tramps. Chicago Tribune: A tramp called at a house in a Chicago suburb a few mornings ago and asked for some cold victuals. He was given a plate of oatmeal mush, some raw dried prunes, a tomato and a saucer of hominy, the whole without seasoning of any kind.
"I-I-can't you let me have some milk,

and some sugar, salt and pepper?" in-quired the embarrassed tourist, as he surveyed the spread. "Milk is not wholesome," replied the lady of the house, sweetly, "and we never use condiments. I can let you have some cracked wheat, if you like."

Haven't you any meat?" "Oh, no; we never use meat; it is not fit for the human stomach. Would you like

"Is this the kind of stuff you live on?"

"Certainly, my friend. Cow-Boy Dialect.

Scribner for October: It becomes, indeed, a familiar and useful addition to your conversational stock of the vernacular. Nay, you even find the field of its lar. Nay, you even find the field of its usefulness enlarging, for the term of the "round up" and the "branding" and sheep shearing are more or less piquant and lend themselves easily to applications remote from their primitive usage. Transposed to the ordinary business or social concerns of modern

they come to have a sort of zest in them; they reveal new sources of humor; they place old saws and old cus-toms in a sharp light, a fresh illumination; but always by that undercurrent of suggestion, by contrast or association with the original pursuits, which the words described. So I heard last year, a politician speak of a bolter of the republican ticket as a "bucker." A "bucking horse," is one "that jumps sidewise or forward, up and down, with his legs stiffened into an unrelaxed perpendicular," and the image certainly has a kind of affinity with the moral action of a refractory voter.

"Lay thy sweet hands in mine," he said, but she only remarked that she had neuralgia and must hold her head. He gave her Salvation Oil and now he holds ier sweet hands by the hour.

Watches For Blind Folks. "This is one of the cutest things in the

watch line that has yet appeared," said Jeweler Charles S. Crossman, holding up one of the new Swiss watches designed for the use of the blind. "The old raised figure watches were clumsy, and the blind people were constantly bending or breaking the watch hands by touching them. In this watch a small peg is placed in the center of each tigure. When he hour-hand is approaching a certain hour the peg for that hour drops when the quarter before it is passed. The person feels the peg is down, and then counts back to twelve. He can thus tell the time within a few minutes, and by practice he can become so expert as to tell the time almost exactly.
