CRICAGO PRODUCE MARKET.

CHICAGO, Sept. 28.- | Special Telegram to the BEE. |-There was a weak and tired feeling in the wheat market this morning at the opening and usual reaction after several days advance. The realizing of profits by the longs, both here and elsewhere, was credited with its fair share in bringing about such a result. Moreover, the majority of traders never look for a continuous advance and act upon their belief in a reaction and naturally help to cause it. There was not much news, but what there was appeared to favor the bears. A greatly increased movement of spring wheat is expected in the northwest, railroad men reporting a demand for cars greater that they can supply. New York dispatches announce a "soft" market and good houses selling there. Public cables reported spot wheat firm and an increase of 400,000 busnels in the amount on passage to the United Kingdom, Later cables quoted the near future on California wheat at 1/d decline, but gave an advance for the January delivery. Ream was said to have put out again this morning the wheat bought by him yesterday. Milmine, Bodman & Co., who have furnished a good support for the market for several days, began selling yesterday and were selling to-day. It was also reported that Henry Clews & Co. were heavy sellers in New York. Fleming & Boyden were still buyers of October, but not, it is believed, in as large quantities as of late. At least two houses here and possibly others had New York dispatches giving a decrease in the amount on passage to the United Kingdom of 940,000 bushels instead of an increase of 400,000 bushels, as the board of an increase of 400,000 busness, as the board of trade cable had it. From the opening, which was at 71%c for October, 74c for December and 79%c for May, there was a slight rally and then a quiet steady decline to the i o'clock close, which was at the low point of the session—71c for October, 73%c for December and 78%c for May. The loss for the session from vesterday's closing prices was %c in October and %c in December and May. lay. The corn market was active and higher and

there was a very large amount of business transacted. The demand for cash corn for shipment, which has already been referred ahipment, which has already been referred to, continues good and the news received seemed to be all in favor of the buyers. The lowest public estimate of the corn crop yet made—that by the Farmers' Review of 1,300,—000,000 bushels—was a strengthening feature, and the recently published reports of a great shortage in the root crop of Great Britain, and also of the shortage in the Danublan corn crop, from which Great Britain's demands for corn have been largely supplied, were taken as an intimation of increased exmands for corn have been largely supplied, were taken as an intimation of increased export demand for our corn. There was considerable covering of short sales, and that, too, by big bears. Hutchinson's brokers were for the first time buying May corn as well as October, and plenty of it. Baker was a purchaser again of cash corn and it is now said that these purchases are for export. J. T. Lester & Co. were also buyers. The receipts to-day were but 377 cars, 400 less than were expected, and but 200 cars are estimated for to-morrow. Vessel room was taken here for 130,000 bushels of corn to-day. Public cables quoted corn higher with an upward tendency. The opening was about at yesterday's closing figures—41%c for October, 41%c for December and 45%c for May—and there was a quite steady advance with heavy trading all the way to 42%c for October and 46% for May, after which there was a slight decline. The close was strong at 42%c asked for October and 45%c for May.

Oats were more active, speculative trading under this heading being larger than for several days past. The principal feature of the market was the unusual strength developed in cash and the near futures. Sales of No. 2 cats were made on track to go to store at 26c and October improved from 25%c at the opening to 25%c@26c bid at the 1 o'clock close, being an advance in the latter of a strong %c. May oats were only ½c better at 1 o'clock, that future selling from 29%c@30 on the split. The feeling was bullish all through.

In provisions there was a better showing of life. Interest, however, was largely transwere taken as an intimation of increased ex-

In provisions there was a better showing of life. Interest, however, was largely transferred to the January product, though in the near deliveries of lard, as well as in October of life. Interest, however, was largely transferred to the January product, though in the near deliveries of lard, as well as in October short ribs, there was more or less doing throughout the day. In the January future, which was in good demand, so far as short ribs and pork were concerned, by a heavy trader to cover short contracts, there was almost a boom. Pork for this month sold from \$12.52\frac{1}{2}_4\$ up to \$12.55 and short ribs from \$6.27\frac{1}{2}_4\$ up to \$6.40, closing at \$12.42\frac{1}{2}_4\$ and \$6.32\$ respectively. In pork the advance actually established was \$12\frac{1}{2}_4\$ cand in short ribs 5c January lard, which was slower than the other speculative lines, sold at \$6.45\frac{1}{2}_6\$ (0.50\frac{1}{2}_6\$), cotober short ribs ranged at \$7.60\frac{1}{6}_6\$.02\frac{1}{6}_6\$ and closed at \$6.47\frac{1}{6}_6\$ bid, an improvement of \$2\frac{1}{2}_6\$. October short ribs ranged at \$7.60\frac{1}{6}_6\$.02\frac{1}{6}_6\$ and closed at \$7.75\$. Lard for near delivery advanced \$2\frac{1}{6}_6\$, cesting at \$36.45\$ bid for October. \$6.40\$ for November and \$6.42\frac{1}{6}_6\$ for December. Cash lard was \$2\frac{1}{6}_6\$ higher than October. For 160-lb green hams, \$2\frac{1}{6}_6\$ was paid. The cash trade was only moderate.

AFTERNOON SERSION.—Wheat easier; September closed at about \$70\frac{1}{6}_6\$ (70\frac{1}{6}_6\$), cotober sold at \$73\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), cotober sold at \$73\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), cotober sold at \$73\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), esplit, closing at \$73\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), cotober sold at \$25\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), esplit, closing at \$42\frac{1}{6}_6\$; closing at \$42\frac{1}{6}_6\$; cotober sold at \$25\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), esplit, closing at \$42\frac{1}{6}_6\$; cotober sold at \$25\frac{1}{6}_6\$ (20\frac{1}{6}_6\$), esplit, closing at \$25\frac{1}{6}_6\$ (20\frac

CHICAGO LIVE STOCK. CHICAGO, Sept 28.-[Special Telegram to the BEE. - CATTLE-The market to-day was considered stronger by some, but the cattle that sold at \$5.35 to-day were all 10c better than those sold at \$5,25 yesterday. The medium to good grades were not quotaably different and the inferior kinds were certainly no better than steady. The cattle that come in competition with the western cattle have been selling badly of late because the western rangers are very plentiful and never sold as low as at present. FINANCIAL

NEW YORK, Sept. 28 .- [Special Telegram to the BRE. |- The stock market was slow and business to noon showed a falling off from yesterday, which was the dullest day in

age. The bears were nervous and anxious to cover and the slight advances recorded were chiefly the result of their operations. Londoners continue to hold the bulk of their stocks, which is regarded as an encouraging feature. Deacon White took hold of St. Paul and despite the talk about decreased earnings succeeded in driving the shorts in, and advancing prices % per cent. A feature of the market in trading was the strength in the Vanderbilts and Coalers. Lake Shore was bulled on reports that its dividend would be increased to 5 per cent, also that the in siders were buying it. The favorable statement made by Reading yesterday had a good effect, and prices advanced 1 per cent. Jersey Central followed with a similar advance, bu Lackawanna only went up % per cent. The rest of the market was steady to firm, but outside the favorites little was done. There was a perceptible hardening of the market as the day advanced, and prices gradually advanced, last sales being like yesterday, at outside figures on a majority of stocks, the advances ranging from 1/4 to 11/4 per cent. Omaha led with 13/4, Union Pacific 13/4. Reading 1%, Lackawanna %, Lake Shore 36, New York Central 34, Northwestern 34, St. Paul 36, New England 36, Canada Southern 136, Louisville & Nashville 36, Pacific Mail 36 and Western Union 14 per cent. Illinois Central declined 14 per cent to 11714. Business with local houses was fair, two or three firms doing most of the trading and were chiefly

buyers. The total sales were 351,361 shares. GOVERNMENTS-Government bonds were YESTERDAY'S QUOTATIONS. MONEY—Call easy at from 4 to 5, last loan 4\(\frac{1}{2}\), closing offered at 5 per cent.

OMAHA LIVE STOCK.

Wednesday, Sept. 28.

Cattle. As compared with yesterday there was a heavy falling off in cattle, there being only thirty-one loads in to-day as against seventy-one yesterday. The offerings of corn fed one yesterday. The offerings of corn fed steers were greater than for some days back. The demand was strong for that class of cattle and the market advanced about 10c. One good bunch of seven loads brought \$4.50. The offerings of range cattle were moderate and the market about steady. Butchers stock was slow and dull.

Hoge. There was an increase in the receipt of hogs, as compared with yesterday, of 700. The average quality was very fair and a little better than yesterday. The market opened a little late and not very active at a opened a little late and not very active at a decline of about 5@10c. There was one more buyer on the market than yesterday, which helped to improve the demand somewhat. The market closed about mid-day, with everything closed. While the market during the day and at the close was generally called steady at the opening prices, there was, however a bid of \$4.50 made early in the morning on two car loads that sold later at \$4.45. The general feeling on the market is weak, and the majority of the salesmen are predicting still lower prices.
