DOINGS OF THE DEMOCRATS.

Mayor Groneweg Enters the Race for the State Senatorship.

THE TICKET AS COMPLETED.

Annual Meeting of the Section Foremen and Their Election of Officers—Death of John Spink—Court Crumbs.

The Democratic Ticket. The democratic county convention met yesterday in the opera house. G. A. Holmes called it to order, and W. H. M. Pusey was chosen temporary chairman.

F. H. Guanelia was selected as temporary secretary. On motion of G. H. Jackson a committee of five were named on credentials. Judge Aylesworth called attention to the fact that there were contesting delegations in the Fourth ward, and protested against the selection of any member of the committee from that ward.

Mr. Pusey, as chairman, thought this was a wise suggestion. He was from the Fourth ward, and a member of one of the contesting delegations. He did not know whether he was himself a delegate or not, but he knew he was a democrat.

The committee as named were: H. O. Seiffert of Knox, Dr. W. A. Ellis, G. H. Jackson of the city, John A. Hartzen of Keg Creek and C. W. Hardman of Valley.

A contest from Carson was also reported and referred.

On motion of G. A. Holmes a committee of five on permanent organization was appointed: Ed McKenzie of Silver Creek, J. B. Maxfield of Norwalk, George Blaxim of city, J. H. Rizer of Belknap, J. L. Fetter of Oakland.

The convention then adjourned until 9 o'clock, but it was long past that hour before the committee on credentials could settle the numerous disputes and report the list. In regard to the Fourth ward the committee reported in favor of admitting both delegations and giving each delegate one-half a vote. This included Mr. Pusey, the chairman, who thus got only half a loaf, and made him a fractional delegate. The report was adopted.

The committee on permanent organization reported in favor of James Kelley, of Macedonia, chairman, F. Guanelia, of Kane, secretary, which was adopted.

Mr. Kelley in taking the chair made the first speech of the convention. It was conventional, but had the merit of brevity.

Fremont Benjamin moved to proceed to nominate in the order of the call.

On motion of G. A. Holmes two tellers, F. Benjamin, of Avoca, and Mr. Holmes were appointed. Mr. Holmes declined in favor of J. T. Roberts.

For senator G. A. Holmes announced the name of William Groneweg. Cheers. Mr. Pusey, by request of numerous delegates, as he said, announced the name of Lucius Wells. The first ballot was informal. It resulted, Groneweg, 564; Wells, 161. On the city proper the vote stood, Groneweg 274; Wells 83.

Mr. Cuppy moved that Mr. Groneweg be made the nominee by acclamation for senator. Carried with the usual applause.

Two representatives were next nominated. Mr. Seiffert, of Silver Creek, and Avoca, as one, and moved his nomination by acclamation. Judge Aylesworth named R. W. Briggs, of Carson. Mr. Pusey asked that the motion for acclamation be not pressed. Mr. Briggs should be given a chance. The chairman ruled the first motion out of order, so long as there was objection to it. Mr. Pusey named A. W. Wyman, of Keg Creek, J. B. Matthews was named by the Washington delegation. G. A. Holmes was named but he declined consideration.

The informal ballot, two being voted for at the same time, stood: Hart, 109; Matthews, 43; Briggs, 304; Wyman, 38; Holmes, 2.

Mr. Crispy then renewed his motion to declare Mr. Hart one of the nominees by acclamation. Carried unanimously.

The first formal ballot on the other representatives stood: Matthews, 38; Wyman, 304; Briggs, 304; Holmes, 1. Necessary to a choice, 57.

Second formal ballot: Wyman, 44; Briggs, 34; Holmes, 3; Matthews, 1. Necessary to a choice, 57.

Third formal ballot—Wagner, 563; Briggs, 281; Mathers, 20; Holmes, 1. Total vote 112.

The question arose as to whether 57 was necessary to a choice, or whether 112 was a majority. The chairman, after including in a brief study of mathematics, declared Mr. Wyman had taken the nomination by half a vote. This nomination on the half shell was then made unanimous.

The nomination of a sheriff followed. Mr. Pusey moved that the informal ballot be taken without announcing names. Carried.

The informal ballot stood: James O'Neill, 371; C. D. Walters, 17; J. T. Hansen, 21; W. B. Perkins, 15; William Curry, 6; W. J. Haines, 54; R. T. Lovell, 2; O. H. Lucas, 24; J. A. Churchill, 4.

A formal ballot resulted: O'Neill, 49; Perkins, 34; Haines, 24; Walters, 84; Haines, 3; Lucas, 24. Total, 113 votes.

Second formal ballot: O'Neill, 604; Haines, 294; Perkins, 19; Lucas, 3. Necessary to a choice, 57.

The nomination of James O'Neill was made unanimous on motion of Mr. Hazen.

For county treasurer Fremont Benjamin named John H. Plumer, the present incumbent, and moved that he be nominated by acclamation. Unanimously carried.

The nomination of auditor followed. Dr. Ellis moved for an informal ballot, with no announcements of candidates and no speeching.

That ballot resulted: Ira Hendricks, 58; D. E. Gleason, 374; T. W. Van Siever, 10; R. Kirkwood, 8; John Clausen, 8.

Mr. Van Siever moved that Mr. Hendricks be nominated by acclamation. Judge Aylesworth did not think this fair, and the objection was considered good. Mr. Hendricks insisted on a ballot, as he believed in giving everybody a fair chance.

The formal ballot resulted in the nomination of Mr. Hendricks, he receiving 914; Gleason 144; Kirkwood 5; Clausen 1. Judge Aylesworth moved to make it unanimous. Carried.

Next came county superintendent. Mr. Seiffert, of Avoca, named J. E. Larrimore, of Knox township; Justice Crow, Minden, named the present incumbent, J. W. Laird; Judge Aylesworth named B. F. Wood; W. H. M. Pusey named John K. Cooper, of this city; Neola's delegation presented George M. Wilson.

The informal ballot resulted: Cooper 418; Laird, 27; Wilson, 21; Larrimore, 19; Wood, 3. Total 112. Necessary to choice 57.

First formal ballot—Cooper 674; Larrimore, 18; Wilson, 154; Laird, 11. This nominated Mr. Cooper, who was formerly superintendent of schools of this county.

For county surveyor J. F. Brodbeck was named by Mr. Holmes and nominated by acclamation.

Judge Aylesworth named for coroner Henry Faul, the present incumbent. J. G. Tipton named Dr. Waterman.

The ballot was a formal one and resulted: Waterman, 67; Faul, 45. Dr. Waterman's nomination was made unanimous.

There was one member of the board of supervisors to be nominated. M. Jackson, of this city, named Henry Rishton.

W. B. Cuppy urged the name of F. G. Hetzel, of Knox. W. H. Kuhn, of Gardner, was named, also S. Dye, of Macedonia, and J. A. Matthews, of Neola.

The first ballot was formal. It resulted: Hetzel 404; Rishton 264; Dye 184; Kuhn 17; Maxfield 94. Total 112. No choice.

Second formal ballot: Hetzel 57; Kuhn 214; Rishton 194; Dye 14. Mr. Hetzel was declared the nominee by acclamation.

The selection of a county central committee followed, and then adjournment.

COURT CRUMBS. Judge Doemer was among the interested republican spectators, who occupied the gallery. He was accompanied by Colonel Daily, the county attorney. They sat through to the finish.

Judge Aylesworth was the humorist of the convention. He headed the contesting delegation from the Fourth ward. As the vote of the ward was divided between the two delegations, the secretary called for the first half of that ward to announce its vote, and then for the second half. Judge Aylesworth got tired of having called the "second" half and in announcing the vote he insisted on calling it the "first" half. The fractional split-up caused the tellers to test their knowledge of mathematics.

Ira Hendricks, after his nomination, placed a stock of cigars on a box of the opera house, for the free indulgence of those in the convention who enjoy the weed.

The convention was the most quiet and business-like ever held by the democrats in this city. They indulged in little outbursts of oratory, and kept right at work to the very finish. The chairman had smooth work, there being no wrangles, no complications of motions, and no appeals.

The Close of Court. The federal court finished up this term last night. The jury, in the case of Hamilton vs. Pearey, brought in a verdict for the plaintiff in the sum of \$625, after being out seven hours and a half.

The case was very much mixed up and the verdict was a surprise. The district will now move back into its old room, and grind out justice with the same celerity as before.

Cured of Lock-Jaw. New York Sun: David Casai, a nine-year-old Italian boy of 10 Rose street, lies at the Chambers street hospital in a condition of convalescence after an unusually severe attack of lock-jaw. Cases of recovery from lock-jaw are so few that they are considered as freaks, and a physician never holds out the slightest hope of recovery to the friends of the patient suffering from it. Young Casai, dropped in, I ran a piece of glass into his foot, and six days later lock-jaw set in. He had no attention until the 10th inst., when he was removed to the Chambers street hospital. He was then in such a state of convulsion that every muscle was rigid as iron. He could be held out horizontally by the ankle as easily as if he had been a stick of wood.

House Surgeon Dench at once administered bromide to paralyze the nervous system, with occasional hydropneumatic injections of calabar bean to knock the stiffness out of the spinal column. For four consecutive days the boy took two ounces of bromide every twenty-four hours. As a result, the rigidity of the muscles gradually relaxed, and thirty grains is an extreme dose for an adult, and one dose a day is generally sufficient.

The boy's body limbered a little four or five hours after treatment had begun, preventing for the time his death, which must have ensued within ten hours had his convulsions not been relieved. He was then able to take a little food, the first of bread and butter being eaten. After four days there was a recurrence of the convulsions and the boy's jaws became firmly set. Life was sustained by injections of food, while the treatment of bromide and calabar bean was continued. The boy's condition gradually improved, and Dr. Dench says that he is now out of danger and well, except for extreme emaciation which will necessitate his detention at the hospital for some time.

A Warning. The high repute and extensive sales of ALCOCK'S POROUS PLASTER has not only encouraged imitations but dangerous compounds to be offered for sale. Let the public bear in mind that ALCOCK'S are the only genuine and reliable porous plasters, and that while they contain the indispensable necessary ingredients for a perfect plaster are purely vegetable and free from deleterious drugs.

The Domestic Problem. Cassell's Magazine: A change in social sentiment would produce an equal economic change. It is the tendency of the times to degrade and not to elevate household service, and to discourage American girls from the employment of their own hands on account of its implied social degradation. Ladies who read Carlyle, and who take pleasure in Herbert's often quoted lines upon the divinity of drudgery, have a manner of considering their maids the inhabitants of a different world from their own.

While their theories are sound on the dignity of labor, their practices places laborers in a lowly position. Howework will be done in a degraded manner, without business honor and respected. If the mistress would hire her servants as her husband in trade hires his clerks, her relations between the manager of the house and the laborers would be on the sound basis of political economy and not on a social or sentimental footing. As in other fields of labor, thorough training could be expected, and the girl who answers to service would be a profession as the bookkeeper learns to keep accounts. In order to maintain a contented household and to encourage the best efforts of her servants, the mistress should aim to be in a position to consider, as the farmer or merchant endeavors to gain the affection and respect of his workmen.

The business principles which regulate the household can be applied still higher to the public part in the domestic service question. In many European countries governmental supervision regulates household service. Servants in some places possess council boards, without which they cannot find situations. The mistresses note the girl's behavior in this book, which is counterchecked by the police. Why could not the system suggest of a supervising board of domestic service, composed of the prominent matrons of city or town, would be a useful department in municipal government. Its duties would be the supervision of intelligence offices, and the careful oversight of the unprotected girls, as well as prevention of fraud against housekeepers, and its good results can be predicted as one answer to a difficult problem.

Long-Distance Telephoning. Electrical World: Mr. Hall's assertion as to the competition between the telephone and other means of communication calls for notice. In meeting the criticism that long distance telephone rates are too high, Mr. Hall says: "If the long-distance telephone competes with anything, it is with the railroad, and it does that in the same way and about to the same extent

as the local telephone competes with lively stables and street cars. This idea he dwells upon and expands, instancing cases in proof of it, and he sums up the whole situation in the remark: "When time is not important, people write letters; when greater haste is necessary, they send telegrams; but when time presses and there is urgent need for haste, they telephone. When the nature of the business requires personal communication, quickness and efficiency of the railroad or the telephone line must be used—and this is our field: Quick communication with instantaneous replies and prolonged personal interviews."

In the main Mr. Hall is entirely right. The only point that seems to us open for use in the way of reply is that there is competition between the extra-territorial lines and the local telegraph lines, and that this competition appears to be on the increase.

THE CHLOROFORM MYTH. A Detective Explodes the Belief in the Use of Chloroform by Burglars.

New York Mail and Express: An old detective, in the employ of Inspector Byrne, was telling a Mail and Express reporter a blood-curdling tale of midnight robbery.

"Why didn't the burglar chloroform the man the moment he got into the room?" inquired the reporter. "You say he was there half an hour before the man woke up and captured him."

"Didn't I tell you that the man was over six feet tall and as strong as a bull, while the burglar was only a boy sixteen years old?"

"Yes, but what of that?"

"Did you ever see a man chloroformed?"

"No."

"Will you go into a doctor's office sometime and see how it is done? Unless a man is held down by force or submits himself willingly to the operation, it is impossible to chloroform him."

"Yes; but this man was in a sound sleep."

"What of that? Do you know how long it takes to put a man under the influence of chloroform?"

"A minute or so, I suppose."

"Two or three minutes, rather, and the first application of the drug is certain to waken any living man who is not under the influence of some powerful narcotic. Before he had taken two whiffs the anaesthetic he would have been wide awake, and the robber would have been captured half an hour earlier than he was."

"But they chloroform people sometimes, don't they?" asked the reporter.

"You refer to doctors, I would say yes, but if you mean burglars, I would say no. I don't know a single instance, though the public and the press believe there are many every month. I think I can tell you chloroforming persons by thieves is a myth and a fraud. It is a story originated by the victims to add a more startling flavor to their yarns."
