

PICKED UP ABOUT THE CITY.

Verdict of the Coroner's Jury in the Delaney-O'Shea Killing. THE WAGON BRIDGE PROJECT. Sudden Departure of Texas Tom For Paris Unknown-The Board of Public Works and the City Hall.

The Delaney-O'Shea Inquest. Engine No. 305, by which O'Shea and Delaney were killed, as recounted in yesterday's BEE, was taken out on its regular morning run by Engineer Charles Swezey, as Engineer Campbell had to attend the inquest at South Omaha.

Joe Withrow, who owned the horse that was killed, valued the animal at \$300. He says it was the best heavy horse he had in his stable.

Engineer Campbell is one of the oldest engineers on the road and is considered to be the most careful. Only a short time ago he saved the lives of three children on the bridge near Valparaiso by his presence of mind.

The funeral of Delaney and O'Shea will take place from St. Philomena's cathedral this morning at 10 o'clock. A delegation of firemen will attend.

The judge feels aggrieved at the unfair reflection cast upon him, as he says he was invited to be present by Mr. P. E. Her and Max Meyer two weeks previous to the banquet. In fact, the judge claims, that he was asked by anyone to retire from the room, and nothing of an unpleasant nature occurred to his knowledge.
