CHICAGO PRODUCE MARKET.

Chicago, Oct. 11.—[Special Telegram to the BEE.]—A market with the slightest possible fluctuations and without news or happenings sufficient to influence either judgment or prices was what grain traders had to struggle with during the greater part of the morning session. The wheat market was fractionally lower. The corn market was fractionally higher. The public cable gave spot grain and futures steady, with unchanged prices. Receipts here exactly fulfilled the estimate of 185 cars, of which 140 cars were spring and sixteen graded No. 2, but of these eleven cars were of old wheat, leaving but five cars of contract grade in the 129 cars of new spring arriving. Outside markets were virtually unchanged in the morning, though New York dispatches said the market was bearish because of small buying by exporters. Clearances from the seaboard were less than 33,000 bushels. Receipts at Minneapolis were 210,000 and at Duluth 126,000 bushels, but the shipments from the former port were 66,000 bushels and from the latter 88,000 bushels. The close was strong at the highest point of the day, which was touched just as the bell tapped. November 70c, December 72c, May 77c.

FINANCIAL.

New York, Oct. 11.—[Special Telegram to the BEE.]—Stocks—There was a sharp fight for control of the stock market. The bears who sold stock yesterday were inclined to cover and bought freely. Londoners sold sparingly, but bought more than they sold. The latter have sold a great many stocks short recently and unloaded their poorest stocks on the Dutch.

OMAHA LIVE STOCK.

Tuesday, Oct. 11. The receipts of cattle were not heavy and the market was fairly active. Good cattle sold at about steady prices. The receipts of hogs were light again today, there being only seventeen loads on the market. As a result of the light receipts prices advanced up still higher, \$4.45 being reached by one load. The general feeling on the market is that liberal receipts would cause a rapid decline.
