WAIT TILL SOME OTHER DAY.

This the St. Louis Browns Must do to Beat Detroit.

GETZEIN SHUTS THEM OUT.

The Main Credit of the Victory Due to the Detroit Pitcher—Preparing For the Great Pigeon Shoot.

Detroit 9, St. Louis 0.

New York, Oct. 15.—[Special Telegram to the Bee.]—The game at the polo grounds today was played under circumstances to tempt the players to do their best work. The spectators who came out to see a good game of base ball without friend or favor, numbered ten thousand. They were not disappointed. They expected to see the St. Louis men make a closer fight than they did, but as they witnessed the splendid fielding exhibition of the Straff City club and the wonderful pitching of their Getzein, they could only admit that the victors were inevitable this day and St. Louis must wait till some other day. To Getzein belongs the principal honor of the victory. His delivery was too much for the ordinarily clever batters in the opposing team. When it is considered that of the whole nine from St. Louis only two men made clean hits and those in the last inning, it will be seen that Getzein was out as a pitcher and got there. On the other hand Fontz was hit frequently and hard, and while the Detroiters earned six of their nine runs, the support they received at certain periods was discouraging.

Table with columns: DETROIT, AB, R, H, E, S. B. F. O. A. E. Rows include players like Richardson, L., Gansell, B., Rowe, A., Thompson, R., etc.

Score by innings: Detroit 0, St. Louis 0.

Earned runs—Detroit 0, St. Louis 0.

Double plays—Bushing and Robinson, O'Neill and Robinson and Cumiskey.

First base on balls—Latham, Rowe, Robinson, Getzein, Bennett.

Struck out—Detroit 1, St. Louis 1.

Wild pitches—Getzein 1, Fontz 1.

Umpires—Gaffney and Kelly.

The Base Ball Situation.

Base ball enthusiasm reached such a low ebb by the exorable work of the late team to-day as to cause the players to be impatient to get the matter over with the summer. The game will be the last of the season.

Cricket.

Probably the last game of the season was played yesterday on the old ball grounds, between the Omaha and St. George clubs. The result was a victory for the Omahas by 54 runs. For the victors the batting of Messrs. Taylor, Roberts and Jopp was especially worthy of notice, the latter gentleman initiating his performance with a magnificent hit to left for 6. Mr. Taylor's contribution of 11 was the result of his usual care. The defeat of St. George was mainly due to their lack of practice, as that they have first class players among them cannot be denied, of which the bowling of Mr. Douglas and the batting of Mr. Robinson gives ample proof. Had the weather been a little less boisterous the scores on both sides would have been larger. There is every evidence that next fall if the club can procure a ground, cricket will prosper in Omaha.

Below is the score of yesterday's match in detail.

The Pig Pigeon Shoot.

All arrangements for the grand shooting tournament, under the auspices of Messrs. Penrose & Hardin, are being rapidly perfected. The tourney begins on the 25th and continues to the 28th inclusive. It will be a most interesting meet, inasmuch as the majority of the crack trap shots of the country will be here, including Bud, the champion wing shot of the world. An invoice of 600 pigeons was received from Minnesota yesterday, which swells the number of birds already in coop to the neighborhood of 8,000.

A large number of live black birds have already been contracted for, and there is no danger of a lack of animated targets. The game will take place in private Saturday night next.

The prize medal offered by the Police News for the middle-weight championship of this state is on exhibition at Patsy Fallon's place on Twelfth street. There are already four Frank Farmers, No. 1 and with the competition will be on within a few weeks.

McHenry Johnson, the "Black Star," left for Cincinnati yesterday morning, where he has an engagement at \$100 a week to meet all comers. The Star has been in Omaha for several months and has made many friends. He is the champion colored fighter of the West, and has won the title of champion of the world by defeating with any of the white pug.

The summing up of the season's average of the Omaha Gun club revealed the fact that Frank Brown, No. 1 and with the handsome badge with an average of 19%; John Papp, second, takes the handsome money prize of \$100. H. A. Penrose, third, 100 pounds of Sycamore sporting powder, average 18%; Billy Brewer fourth, a hunting coat, average 17 1/2.

Supreme Court Decisions.

DES MOINES, Ia., Oct. 15.—[Special Telegram to the Bee.]—The supreme court filed the following decisions today: James Braniff, appellant, vs. The Commissioners of Pharmacy, Polk district; mandamus to compel defendants to issue a license to a renewal of a permit to practice pharmacy. The court holds that according to chap. 157, which says: "Druggists and pharmacists who were registered before the expiration of their registration when they have voluntarily sold, parted or severed their connection with the drug business for a period of two years as the place designated in the certificate. Should such party wish to engage in the practice of pharmacy he is required to be registered by examination." The facts shown proved plaintiff's amenability to the statute and the judgment was affirmed; George Junge vs. John Howland, appellant, vs. W. H. Parker, Montgomery district, affirmed; Andrew Mitchell, appellant vs. John Joyce, Marion district, affirmed; A. Overbach, appellant, vs. City of Waterloo, Blackhawk district, reversed; Louis C. Dessaint, appellant, vs. William A. Foster, Scott district, reversed; George E. Pew vs. C. Bachman, appellant, Plymouth district, affirmed; J. A. RANDALL AND CARLISLE.

An Absurd Story Which Causes Much Amusement.

WASHINGTON, Oct. 15.—[Special Telegram to the Bee.]—The report that if Sam Randall will oppose Carlisle in his contest with Theodore he is assured that he shall have the chairmanship of the committee of appropriations is the subject of a great deal of amusement among the friends of the Philadelphia congressman. They assert that the story is too absurd to warrant the slightest notice, and the only reason it is noticed at all is the persistence with which his enemies reiterate it. Mr. Randall's friends point out that in the contest between Frank Hurd and Joseph Remeis, in which the noted Iowa trader secured a seat on the committee, the democrats were unable to unite in favor of seating the democrat and they argue from this that if an attempt is made to unseat Carlisle there will not be enough republicans who will not participate in the movement to insure its defeat. They reason out therefor that if Randall should attempt to defeat Carlisle on the floor of the house it would be impossible for him to carry enough democratic votes to elect the republican. The republican side of the house. Further, they insist that "Sam" will not plead the baby act but if Carlisle attempts to displace him he will find some other means of evening the score before the session closes.

Death to Birds.

WASHINGTON, Oct. 15.—[Special Telegram to the Bee.]—Professor Ridgway, the curator of birds at the Smithsonian institute, says that the specimen birds which were sent to him from New York, where they were found dead near the Bartholdi beacon light, are nearly all of the species known as "Warblers." They are insectivorous. These birds are night migratory in their movements, and thousands have been attracted from all directions by the brilliancy of the light and killed by flying against the glass. He says that the scientists fear that the destruction of these birds is so great that the species will become extinct before many years. He also reports that there have been found a great many crows and jays that are nearly all of the species known as "Warblers." They are insectivorous. Paragraphs About Gould.

LONDON, Oct. 15.—[New York Herald Cable-Special to the Bee.]—Sunday's Bulletin contains these editorial paragraphs: Mr. Jay Gould, according to the latest rumors, is determined to secure the Commercial cable company at any cost, but there are difficulties in the way to be overcome which even a Jay Gould may find too gigantic a task. The MacKay-Bennett company maintains as bold a front as ever and has carried the war into the enemy's camp by lately coming down to 6d per word to the public. So far the Commercial cable company has acted in a fair manner and it is hardly probable that in a war of rates extending over eighteen months it will succumb to a one-man attack, although that man may be Mr. Jay Gould. We now so constantly hear these rumors of the collapse of the Mackay-Bennett position that it hardly needs the effect constant assertion to be made by the New York Herald to assure us that the Commercial cable company has not given in. It is to be hoped that Messrs. Mackay and Bennett will be able to stand the racket of this prolonged war of rates. If they succeed in their object they may be sure of the hearty support of the British public.

A Fend Results in Murder.

GRISWOLD, Ia., Oct. 12.—[Special Telegram to the Bee.]—For a number of years past there has been a standing quarrel between a number of farmers in this county. Donahoe at once surrendered himself to the officials. All the parties involved in the quarrel are wealthy citizens and respected and prominent citizens.
