CHICAGO PRODUCE MARKET.

CHICAGO, Oct. 17.-[Special Telegram to the BEE.]-Wheat traders spent most of the morning in waiting for the visible supply statement, which was time wasted, so far as any appreciable effect exerted upon the warket when it did come was concerned. An increase of but 349,000 bushels when the estimates had been for from 500,000 to 1,000,000 bushels increase might naturally have been expected to furnish some encouragement to the bulls, but it did not advance prices. This was explained partly by the very general talk about large quantities of wheat going into private warehouses in St. Paul and Duluth and thus escaping the official statistician. The first public cable gave spot wheat steady and the second quiet with a moderate demand and prices unchanged. The October and November deliveries of California wheat were quoted lower in Liverpool, but January and May higher. Private cables were dull and some private advices from the continent were dull to the effect that stocks were liberal and that the situation generally was unfavorable for holders. New York reported that the chief occupation on the produce exchange was "waiting" and that the feeling there was rather weak. News of any and all descriptions failed to affect prices in this market to any considerable degree, as can be seen from the range, which was but 1/4c in November and 1/4c in December and May. The opening was at

Becember and May. The opening was at barday's closing figures—70% for November, 71% for December and 77% for May. The close was at 70% for 70% for November, 72% for December and 77% for 77% for May. The corn market suffered most from the falling-off in the demand for cash corn, buyfalling-off in the demand for cash corn, buy-ers having withdrawn because of the impos-sibility of getting vessel room. Then there were heavy receipts—784 cars—when but 585 were expected, and big receipts are looked for to-morrow—650 cars. The increase in the visible supply also of 861,000 bushels was not without effect, though an increase of 500,000 bushels had been expected. The market opened at Saturday's closing figures— 41c for November, 4034@41c for December and 44% for May, and the decline was quite uniform to 40% for November and December and 44% for May. Hutchinson was selling corn early, but bought cash corn of all grades nearly and in liberal quantity at the decline and checked it. Under this buy ing half of the decline was recovered and the close was steady at 40% c for November, 40% c asked for December and 44% c for May.

more life was shown. Shorts were buying. and October and November were about on level, both closing at 1 o'clock at 25% c. I cember sold at 25% (a 25%)c and closed at 25% (c, and May weakened from 20% c at the opening to 29% c, closing on the split at 20% (a 20% c. In provisions the week opened with an encouraging exhibition of interest. Specula-tion and general business failed to show

much, if any, improvement on the recent poor showing, yet the market claimed in-creased attention and the outlook rather romised enlarged trading. The feeling, owever, was easier and with good receipts of hogs and a weaker turn in corn more dis-position to sell was shown. Lower prices were the rule and as compared with Satur-

tober sold at 69% c and November at 70% c; December sold at 72% (#72% c, closing at Recember sold at 72% (6.72% c, closing at 72% c, May closing at 77% c, Corn, firm. Oats, firmer; October and November at 25% c bid; December about 25% c. Pork sold and closed for January at \$12.50; other deliveries nominal. Lard quiet and unchanged. Short ribs for October sold at \$7.05 and closed at \$7.07\%, an advance of 5c; January sold and closed at \$6.17\% (6.20.

CHIAGO LIVE STOCK.

CHICAGO, Oct. 17.-[Special Telegram to the BEE.]-CATTLE-Prime native steers were scarce and selling fully up to the last week's prices, a few lots making \$5.00@5.25. The ordinary run of shipping and dressed beef natives were also scarce and selling fully up to last week's prices, some salesmen quoting a shade higher. Native butchers' stock was slow and as low as at any time. Stockers and feeders steady. Dealers look for a more active demand the coming week. Range cattle were in heavy supply and if it were possible to sell lower than the present low range, down values would go. Texans are making no more money than last week. FINANCIAL.

NEW YORK, Oct. 17 .- [Special Telegram to the BEE.]-STOCKS-The stock market was active, but intensely nervous. A better borrowing demand existed than has been known for over a month, and in many instances a good premium was paid. In some quarters a decided change in sentiment has taken place over Sunday, while in others the bears were as pronounced as ever in their belief in lower prices. As a natural result there was a rush of shorts to cover and prices averaged a trifle better. An impression prevails that Gould has been at the bottom of the recent severe decline in stocks, notwithstanding his frequent assertions that he is out of the market. It is said that after floating his large block of Missouri Pacific he began laying his plans for smashing everything to prevent private concerns from floating their securities, which was necessary in order to continue their western extensions. The publie has already seen the result. The market opened excited and irregular, with most stocks fractionally lower except Erie, St. Paul, Lake Shore and Union Pacific, all of which were 1/61/2 per cent higher. The strength in these stocks had a good effect on the general list and the weak ones soon turned. The cliques supported their special ties, the buying being the best in over week. Many operators who lost last week sent bearish dispatches, advised purchases for a small rally and during the morning ad vances extending to 114 per cent were recorded, the Vanderbilts showing exceptional strength. London bought Lake Shore, Erie and several other stocks. Europe settled Reading. There was talk of a large short interest in the latter and rumors of a squeeze The last hour the market remained firm and last sales on the active list were at almost outside prices and recorded net advances of 1% per cent, New York Central having the lead. Reading was up 34, Lackawanna 34. Jersey Central 134, Louisville & Nashville 16. New England 1, Western Union 34. St. Paul % and Northwestern % per cent. The declines were I on Chicago, Burlington & Quincy, 1 on Cotton Oil "stiffs" and 1/4 per cent on Missouri Pacific. The total sales were 427,169 shares, including 140,600 shares of Reading. Business on the board of trade. The market was very dull and quiet. A few

aggregated 7,000 shares and 20,000 Erie sec-GOVERNMENTS-GOVERNMENT bonds were dull but firm to strong.
