THE THIRD PARTY TICKET. The Union Labor League Holds Its County Convention.

EXPERTS IN THE JONES CASE. A Dust Explosion at the Crystal Mills Causes Heavy Damages—A Trio From the Military Band Injured.

Another Ticket. NEOLA, Ia., Oct. 17.—The Union Labor party met here in convention to-day. There were fourteen delegates present. Mr. Follett was made chairman and Mr. Robinson secretary. John Ahles though present was not a delegate, but as he expressed it, was there only in the interest of Mr. John Jones, of Council Bluffs, who wanted to be sheriff.

The session of the convention was held in the skating rink. The first business that came before the convention was the adoption of a series of resolutions which set forth that both the old parties had departed from the written law of our fathers and that they now resolved to cut loose from both the old parties and affiliate with no one who had accepted any favors at their hands, but to leave them to the mercy of their own folly.

The resolutions were adopted without a struggle except that portion which cut off the nominees of the old parties from an endorsement. Cory Reed, of Council Bluffs, having four of the delegates, they made a vigorous kick, but to no avail.

Nominations were then proceeded with. For senator, Mr. Hunter presented the name of Abraham Harris, whom he said carried with him a weight unequalled by any man in the county. The convention being convinced of this he was immediately nominated by acclamation.

For representative, John Short, upon a wave of Mr. Ahles' hand, placed the latter gentleman in nomination. Mr. Moran, of Council Bluffs, placed in nomination C. A. Reed, Mr. Loucks and John Short declared that under the resolutions he had no business in the convention. Mr. Moran replied that Mr. Reed was a Knight of Labor and their strongest advocate in the Bluffs; that no other man in the Bluffs had as much influence with the members of the party as Mr. Reed, and if he wasn't nominated he would carry 700 votes to the republican party.

Mr. Loucks said if he was so influential with the Union Pacific, the labor party didn't want him; that he couldn't carry ten votes to any party and that he only went into the republican party when the democratic party refused him an office. A ballot was taken and Mr. Ahles was nominated and then in one of his characteristic speeches declined. Mr. Hunter and Mr. Ahles were then named and nominated. Mr. Reed being again shut out with his four votes.

For sheriff Mr. Loucks was named, but declined. Then a delegate named Jimmy O'Neil hit the chairman, squelched him. Then George Robinson, of Avoca, was named and nominated. For treasurer Zenas Brown was named. He expressed a willingness to enter the county vaults, and was nominated.

For auditor Mr. Morris was nominated. He bewailed the fates that decreed that he should be born so late in life and wanted an older man named, but the convention was short in material and couldn't stop to listen to him.

For superintendent of schools John Short was named, which raised a laugh from even John himself, who wanted the convention to "pass" on him, which they did by nominating him. Then John treated places with J. Brown, saying that the treasurer's office was more to his liking.

The surveyor's office was left blank. For coroner J. W. Kelgore was nominated. For supervisor, Mr. Bowman, of Washington township, was nominated, he being represented as a man who never voted the democratic or republican ticket if there was another to be had.

The convention then took up a collection to defray the expenses of printing the tickets and adjourned. John Jones, like Cory Reed, hesitated to subscribe to the platform and was lost. John Short, with his earnings and unlimited knowledge of parliamentary rules, was the most entertaining feature of the occasion.

Mr. Hunter made a short address thanking the convention for naming him as a representative and told how his father, with Thad Stevens, took the stump in support of the republican party and its infancy and how he had told his friend Cory Reed that he couldn't, as a representative of labor, help secure for him an endorsement by the labor party.

Explosion at the Mills. At ten minutes before 6 o'clock yesterday morning as Charles Henry, a flour packer at the Crystal mills, 713 South Main street, was sweeping in the upper story of the mill, a terrific explosion occurred. The employees were all in the building, ready to go to work, and as some of them rushed up stairs they met a column of fire about six feet high. The mill is plentifully supplied with hose, and in a very short space of time the men had three streams playing. An alarm was turned in from box 34, but the flames were under control when the fire department arrived. Mr. Henry's face was quite severely bruised and burned, but Dr. Montgomery, who attended him, says he will recover. The damage will amount to about \$1,000.

The loss by fire and water is covered by insurance, but the policies do not cover the explosion damage. About ten feet of the wall was loosened and sprung out, so that it will have to be taken down to the second story. The roof was considerably damaged, but none of the machinery received any injury. Several windows and a skylight were shattered. There were about twelve thousand bushels of wheat in the building, but the small amount of water used did it no material damage.

Mr. T. J. Evans, president of the company, expresses great satisfaction that the damage was no greater, as he expected to find everything in ruins after hearing of the explosion. He believes that the ruin would have been complete had it not been for the care used to keep everything clean, as a lot of dirt and dust throughout the building would have resulted as in the cases of the Pillsbury and Washburn mills in Minneapolis. Repairs have already been commenced and will be completed in about a week.

These explosions are not uncommon in flouring mills. Scientists attribute them to minute particles of flour in the air which are very inflammable, while results show them to be possessed of terrific explosive power. Mill owners scarcely understand the whys and wherefores of this mighty agent, and hold it in considerable dread.

The Jones Trial. In the district court the trial of Jonathan Jones, for the killing of David Roberts, in 1878, is still in progress. Yesterday much of the time was taken in the tedious examination of expert witnesses. Several physicians from Omaha and this city were in attendance, ready to give opinions concerning the sanity or insanity of the defendant. They have been making examinations of Jones' present condition, and there seems little doubt that he is now almost idiotic. The main contest is over the question whether he was irresponsible at the time of the homicide. At that time he was engaged in dealing in cattle, and from this and other evidence the prosecution is trying to establish the fact that he was not so insane as not to know right from wrong. The mother of the defendant was on the stand for a long time yesterday. She at last tired of what seemed to her the needless questions of Colonel Daily, the county attorney, and the old lady, in an innocent sort of a way, remarked that she had tried to tell all about it, and as there was nothing more to say, she left the stand without leave or asking. The court even had to indulge in a smile, and the attorneys let her have her own way.

Methodist Reception. The members of the Methodist church and congregation will join in a reception at the new parsonage on Thursday evening next. The occasion will be one in which the new pastor, Rev. W. H. W. Rees, will become better acquainted with his people and the people with him. The hearts of this community are very warm toward men and women who are earnest and devoted in philanthropic and religious work. Rev. Mr. Rees is one of those in all that the terms imply, and his people and the community at large will heartily welcome him and his work. He is a man of scholarly attainments and is one of the finest pulpit orators in the city. His sermon of last Sunday evening gave convincing evidence of this. In showing "Why he was a Methodist" he showed a familiarity with denominational history and religious evolution which ranks him at once with the best scholars and thinkers.

Funeral of Mrs. Cox. MISSOURI VALLEY, Oct. 17.—The funeral of Mrs. Cox, wife of H. B. Cox, a well-known citizen of this city took place this morning from their home on the outskirts of the city. Mrs. Cox came with her husband to Harrison county in 1858 and has resided at or near where she died, ever since. She was a sister of Sheriff Reed, of Pottawattamie county, the two families being friends was legion. She possessed a pure christian character and was a woman of great hospitality and charity. The largest procession ever formed to follow the mortal remains of anyone was the one that followed her to a mile in length. Mr. Cox and family have the heartfelt sympathy of a large circle of friends.

Wants Waterworks. The Missouri Valley council at its meeting Saturday night, considered the petition from the committee of the board of trade, asking that the question of waterworks be submitted to the voters at the coming election. The council decided to present the question of bonding the city in the sum of \$25,000 for this purpose. There was not a dissenting vote among the aldermen. The board of trade, lately organized, and embracing many of the most wide-awake and influential business men of the city, are in the most earnest way carrying and the waterworks being secured.

Red-Headed Girls and White Horses. The discussion over the alleged simultaneous appearance on the streets of white horses and red-headed girls has reached a point in the west that reminds one of the 18-14-15 puzzle, the chestnut ball and the "punch-conductor" song, put in a writer in the Nealon Telegraph. The superstition is the neatly hit off by a Kansas City paper as follows: "Whoever says so is a liar," roared a boisterous old gentleman from the front of the city hall. "These stories are got up to play upon the credulity of country people. I'm getting tired."

"Look there, now," he shouted, "there's a red-headed girl, red-headed till you can't rest. Where's any white horse? Just as easy as rollin' off'n a log to prove the originator of the fa d liar. I don't believe there's a white horse within a mile." But chancing to gaze in the direction of the high school house, was seen, to which, not one but two milkwhite horses were hitched. The Dexter man fainted.

To this may be added that columns have been written explanatory of the white horse coincidence without satisfying the public. Possibly the reason why, when a red-headed girl appears on the street, a white horse soon makes his appearance, will have to be sought for in history. This suggestion is thrown out for what it is worth: Away back in the early Greek and Egyptian days, red-headed girls were very justly prized above all the members of their sex. Men fought, bled and died for their smiles, and they were quite the rage. Cleopatra herself, we are told, was the possessor of an auburn head, and Helen of Troy, some contend, was equally fortunate. As is well known, the belief in transmigration of souls was then prevalent.

Based upon reasons now lost to philosophy, and conspicuously brave men killed in battle took the forms, under the smiles of Jupiter, of white horses. We can imagine then that when gallant knights went forth to battle after passionate adieu to their auburn-headed Helens and Cleopatras, and found themselves after fierce conflicts with the barbarians prancing steeds with snowy flanks, that memory of their lost loves dwelt in their eagle heads. It may be that these fellows in the shape of white horses are still following red-headed girls around. Of course, in this prosaic age, no live journal has time to argue such a proposition, but the folks who believe that there are more things in heaven and earth than are dreamed of in our philosophy, Horatio, can amuse themselves with the suggestion. No body will deny that the white horse is an animal of taste.

Peculiar. In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is "twice as strong abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

One of the latest freaks of military science is the training of watch dogs for sentry duty. The French war minister has given orders that dogs shall be tried in connection with advance post duty and taught to bark at the approach of an enemy or stranger. Dogs are to be used as scouts, and if they prove useful are to be attached to all the line regiments and stationed regularly with the dogs of war; this promises to have a literal as well as a metaphorical meaning.

Vigor and Vitality. Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

Jacob Sims, the well-known attorney, was yesterday gladdened by the arrival at his home of a young man, a very young, who will in 1896 doubtless cause the firm sign to be printed, "Sims & Son."

A newspaper change is being made by which E. S. McIntosh, who has been attending to the business and news for the Omaha Council Bluffs, will take the city editorship of the Evening Globe. He has a keen sense for news, knows how to make it readable, and will strengthen the democratic paper locally in many ways. His successor on the "Globe" is Mr. Grimm, who has been teaching school in Omaha, and who is said to be a gentleman who will speedily make friends in the Bluffs.
