### THE SPECULATIVE MARKETS.

Prices of Wheat See-Saw Backward and Forward.

THE CORN PIT FEATURELESS

Provisions Receive More Attention Than For Several Weeks-No Change in Cattle-Hogs Brisk-Quotations.

#### CHICAGO PRODUCE MARKET.

CHICAGO, Oct. 18.-[Special Telegram to the Brg.]-December wheat started in at 72% c and there were sufficient buying orders at hand to gain an advance to 721402723,c, which was very brief. There was then a drop to about 72140, 667214c, where the price lingered for a while and again declined to 7136073c, which was the low point for the session, and was again touched after an advance to 72%c had been made. Property appeared to be wanted always at about this point, and there was a second recovery to 72%c, which was the close. This see-sawing process between 713/6672c and 723/cc was not accompanied by any considerable amount of trading and no manner of news appeared to be accountable for the slight fluctuations unless possibly the last advance, and the steady close might be attributed to a late cable, which gave spot wheat firm and 1/d higher at Liverpool. The New York market was steady at unchanged prices, but reports from that city said business there was "deplorably dull" owing to the absence of outside orders for the speculative market. It was reported that some wheat was bought for foreign account in New York.

The corn market was almost featureless and quite dull. There was a small decline in prices, taking the session through, which was not surprising, in view of the fact that there is a great scarcity of vessel room, and with higher freights, buyers of cash property for shipment are scarce. The receipts were a little less than expected—625 cars—and only 418 cars are expected to morrow. Some re-ceivers are advised that farmers' deliveries of old corn are about through with, and the fact is mentioned by those who expect to see higher prices for the article that corn shipments have been greatly stimulated during this month by lower freight rates, also that the unsettled weather and bad roads are to be expected about this time and a little later, from all of which it is inferred that we are from all of which it is inferred that we are not likely to be overwhelmed with receipts. The market opened at a small decline from yesterday's closing figures—at 40½@41c for November, 40½© for December and 44½@41c for May. There was an advance from these figures to 41c for November and December and to 44½© for May, but the advance was not maintained and on the down grade the starting point was passed by November and December, which closed at 40½©, but May rested at 44½©—only ½© lower than yesterday's close, while the loss on November and December was ½©. and December was <sup>1</sup>4c.
There was light trading in future deliveries

of oats and the market was extremely nar-row, there being hardly be fluctuation in

In provisions there was some awakening of old time life. Traders found it necessary to again take possession of the pit and for the first day in many weeks the market claims something like general attention and proved more than ordinarily interesting. Fair activity characterized business, yet the move-ment was bearish and lower prices the rule The unexpected receipts of live hogs devel oped an unusual desire to sell. Packers who have been heretofore conservative in selling against their anticipated production joined the ranks of sellers and with excessive offer-ings severe depression followed. Based on last night's closings the day's decline amounted to 20c on January pork, 106e12½c on the different deliveries of lard, 2½c on October short ribs and 10c on January short

### FINANCIAL.

NEW YORK, Oct. 18.-[Special Telegram to the BEE. |- STOCKS-The stock bulls appeared more hopeful after securing fair advances yesterday, but are still very timid and trade cautiously. Some of the most conservative traders are inclined to the opinion that there was too much company on the bear side, the recent decline inducing too many light-waisted traders to oversell themselves, and they deemed it policy to cover and await further developments before taking an active hand. A large percentage of shorts covered yesterday and the effects of their actions were plainly visible in the sharp decrease of business, especially about mid-day, when the market became quite dull. The opening was steady to firm, with advances extending to 34 point. London bought St. Paul, Reading, Louisville & Nashville, Erie, and Lake Shore. Reading led the list and for an hour was active. The demand for stocks in the loan crowd was brisk and favorites loaned at a fair premium. The bears manifested a disposition to resist the advance and the fight made a good trading market. The reported failure of the Leipsicer Discountes Gessellchaft at Leipsic, owing to a defalcation of over \$2,200,000, caused free selling and declines extending to 134 per cent wereerecorded, Northern Pacific preferred having the lead. The weakness in the latter was attributable to the reported selling out of Oregon Transcontinental and lack of harmony at the Northern Pacific meeting to-day. The decline was only temporary. A reaction followed that carried prices 1400% higher than in the early bulge. St. Paul earnings for the second week in October increased \$11,776 and prices advanced 1 point. The earnings of the railreads continued ahead of any of the past four years except in a few cases among the Granger roads. The gross earnings of 117 roads for the month of September aggregated \$32,621,344, against \$29,113,648 for the correspending month of last year, an increase of \$2,907,696 or 10 per cent, the increase in mileag having been only 6 per cent. In September of the present year the average gross earnings per mile of the 117 roads reporting were \$492, against \$495 last year and \$454 in 1885. From January 1 to September 30, 111 roads report gross carnings of \$244,633,315, against \$213,461,310 for the corresponding period of 1886, an increase of \$31,172,005 or nearly 15 per cent. For the nine months only six roads report smaller earnings than in 1886, and the total decrease on all six roads was less than \$250,352. The market eased off a trifle from the outside figures in the last bour, but the close was fairly firm, with ad-Vances ranging from 114 to 234 per cent, choice, \$4.35e4.50; ccmmon to medium; \$4.05 Chicago, Burlington & Quincy and Rock G4.30; skips and pigs, \$3.00@4.00.

Island showing the largest gains. Vanderbilts were up \$4@14, St. Paul 34, North-western 34, Cotton Oils 134, Manhattan 234 and Manitoba 234 per cent. The bear leaders expressed little faith in the bulge and regarded it a good time to sell. The total sales, were 310,218 shares, against 427,000 shares

OMAHA LIVE STOCK.

Tuesday, Oct. 18. Cattle. The receipts of cattle show quite a gain as compared with yesterday, there being one hundred and seven loads of fresh arrivals. There was very little change in the market values remaining about steady. Quite a good many corn-fed natives changed hands and a few loads of corn-fed westerns. The demand for feeders was not heavy and only a few northern and western cattle changed hands, Butchers' stock remains about steady.

Hogs. Hogs.

There were thirty-eight cars of hogs received to-day as against nine yesterday. The market opened with only twenty-three cars in and was active at an advance of about 5c over yesterday. The offerings were quickly taken at the prices and the pens closed at an early hour. About 10 o'clock another train bringing in eleven loads arrived. Meanwhile very discouraging reports were received from Chicago indicating a bad break in the market there and the buyers were held back. Offers were made, however, on the late arrivals of \$4.00@4.15, and later the hogs were all sold at about those

later the hogs were all sold at about those prices, barring two loads which were held over. The market closed fully 15c lower than the opening. Sheep.

The receipts of sheep were heavy, there being twelve double-decks of fresh arrivals. The market, however, was very quiet and only one load was sold. Official Receipts.
