A cable rail-way has just been built in St. Paul and I shall make a trip there to see its workings Chicago has a fine cable line and I have beer ooking at the new one just completed. MORMON CHURCH RECEIVER. Interesting Arguments in the Case at Salt Lake. SALT LAKE, Utah, Oct. 20 .- In the terri-

torial supreme court to-day, arguing against

the appointment of a receiver for church property, Colonel Broadhead, for the Mormon church, claimed that congress was powerless to pass the law under which these pro ceedings were instituted. This law, he said, was an act of spoliation, repugnant to the constitution and the American idea. United States Attorney Hobson replied that by the enabling act congress reserved full power and right to annul or revoke legislative en actuated in this territory. The act of incorporation of the church was granted with this limitation. In 1862 congress limited the church holdings to \$50,000 and all Mormon church property has been acquired in defiance of this law. Further the statute of 1862 specified that no property acquired should be used to uphold polygamy or immorality, whereas it is noto-rious that every power and energy of the Mormon church has been exerted contrary to this. Therefore congress had a right to force its requirements and the church was stopped from pleading vested rights or lack of notice

retiring. A Jeffersonian Reception.

WASHINGTON, Oct. 20 .- [Special Telegram to the BEE.]-It is not likely now that anything will be done toward a formal reception to the president and Mrs. Cleveland upon their return to Washington next week Some of the friends of the president have determined that he should be received as well in Washington as he had been at every other point along the route of the trip. But the people who came to the front and undertool to run the arrangements had a sum of mone left over from the Sheppard affair and the proposed to use it in the illumination of the avenue with a pyrotechnical display. Those who are not quite ready to canonize Sheppard say this would be an exceedingly unwise posay this would be an exceedingly unwise po-litical move. They were sure that it would not receive the approval of the president if it came to his knowledge, as it certainly would. For these reasons it was proposed to abandon the proposed reception and when the president and Mrs. Cleveland return they will drive to the white house as they have heretofore done—without any more cere mony than the cheering of the crowd which will be assembled at the station to welcome

THE ANARCHISTS. Counsel Confident That a Writ Error Will Be Granted.

WASHINGTON, Oct. 20.-[Special Telegram to the Ber.]-Neither Black, Solomon, Pryor nor Butler, counsel for the anarchists, have yet arrived in the city, but all except, perhaps, Butler, are expected by a late train to-night. Hon. J. Randolph Tucker, who has had charge of the arrangements at this end of the line, is in the city and will take a prominent part in the proceedings. The arguments will be made by Messrs. Tucker, Pryor and Butler, and Black and Solomen will act as advisory counsel. Mr. Tucker is confident, as are all the rest of the counsel. that the writ of error will be granted on constitutional grounds and claim that they can cite the most convincing precedents in support of their arguments. If the writ is granted a stay of proceedings will be ordered and Oscar Neebe will be returned to dered and Oscar Neebe will be returned to the Cook county jail from the Joliet peniten-tiary. The state of Illinois would doubtless ask the discharge of the writs, but these of course would be refused. When the date for the hearing arrives the counsel for the state will move for the affirmation of the decision of the supreme court of Illinois. Then the case will be set down for trial on the calendar and it may be two years before the calendar and it may be two years before it is reached, unless a special order be made. NO APOLOGY MADE.

Statement of Secretary Bayard About the Seized Canadian Sealers. NEW YORK, Oct. 20 .- [Special Telegram to the BEE.]-A Washington special to the Herald says: Secretary Bayard was seen at a late hour last night in regard to the alleged apology to Canada for the delay in releasing the Canadian sealers in the Behring sea. Mr. Bayard said: "In February last the president of the United States ordered the release of those British vessels seized in the Behring sea for alleged violation of the laws of the United States regulating the capture of fur seal. The fact that he had so ordered the release was at once communicated to the British minister at the capital, who, under instructions of his government, had inquired concerning the matter within a week whether with the president's order. On inquiry at the department of justice it was found to the suprise of the secretary of the state that owing to some misapprehension or misconcep-tion of the president's order the vessels had not been released. Thereupon the department of justice immediately renewed the order for their release, and the fact of this renewal of the order of the president made in February last was at once communicated to the British minister with an expression of regret that the first order had not been promptly obeyed. No other apology or communication whatever to the British government or to Canada has

been made upon this subject."

An Ottawa special to the same paper says Those who have watched the controversy since the first seizures in August of last year, the minister of justice thinks, cannot but have been struck with the vast amount of contradiction on the part of the United States authorities. Long after the intelligence of the seizure of the Caroline, the Onward and the Thornton reached the Canadian government, the Washington authorities, according to published correspondence, were waiting for authentic information from Alaska. Repeated demands were made by the imperial government for a statement of the intention of the United States government, and finally, in February of that year, came the order of the attorney-general for the release of the vessels. How the order of the government was disobeyed by the officials of the United States government in Alaska has been al-ready published. In the American press Mr. Bayard's attention has, during the interven-ing months, been called to the conduct of the Alaska officials, and although in an interview with a newspaper correspondent in Washing on he denied that it was possible for a United States officer not to carry out the wishes and orders of the government, evi-dently he had had a contrary view forced

Chicago's Crooked County Gang Refused a New Trial.

DECISION OF JUDGE JAMIESON.

He Examines the Case Carefully Bo fore Coming to a Conclusion-Motion For an Arrest of Judgment.

Bad For the Boodlers. CRICAGO, Oct. 20 .- [Special Telegram to the BER !- The "boodlers" in the omnibus case

had their hopes of a new trial fastened to a rope of sand. At 10 o'clock this morning, when they filed into Judge Jamieson's court, all of them betrayed signs of nervousness. Manifestly they indulged some hope that the efforts of their lawyers might be, after all, rewarded with an advantage, however slight, and mayhap lead to the granting of a new trial. Five minutes after Judge Jamleson began to read his decision, however, these hopes were dashed, and twenty minutes later, when the reading was ended, "the boys" found themselves one step-and a long one-nearer to the penitentiary. Almost the last barricade in the technical fortifications of the defense was down. During the pronouncement of the court the utmost stillness reigned. Most of the seats were occupied. In his characteristic, terse and epigrammatic way Judge Jamieson went to the very root of the questions involved in the application for a new trial. In rendering his decision Judge Jamieson said the conspiracy should be proved, as alleged, and within a period circumscribed by the statute of limitations. It was urged that the court erred in admitting was urged that the court erred in admitting testimony tending to establish the conspiracy more than eighteen months prior to the finding of the indictment. It being incumbent on the state to establish the alleged conspiracy, it was not improper to show when the conspiracy begun. Proof of its beginning and growth was proof of its existence. That and growth was proof of its existence. That proof it was obligatory on the prosecution to sustain. It was the fault of the defense that the statute of limitation was not brought to the attention of the jury. On the point of the discharge of the jurors, Ostrander and Parks, the point had been fully discussed during the progress of the trial. Touching on the point that Klehm furnished certain information to the state, the court remarked that the information only related to an attempt to pack the jury. "The defendants' say that no such scheme existed and if it did not exist Kehm disposed of no secret advantageous to the state and disadvantageous to the defendants. state and disadvantageous to the defendants. But if it did exist the exposure was credi-But if it did exist the exposure was creditable, no matter how unfairly it was obtained." With regard to the testimony of the witness against Wren and the admission of Nic Schneider's books in evidence, the court said that they formed a part of the evidence of the conspiracy and were therefore admissable. New trials were of the conspiracy and were theres fore admissable. New trials were not granted, moreover, because of lucid objections employed by counsel in the heat of argument. The judge dist posed of the objections to his instructions to the jury in brief order. The court went one "The jury that tried this case was an exceptionally intelligent body of men and I could not believe that the conclusion arrived ceptionally intelligent body of men and I could not believe that the conclusion arrived at by them was reached through any medium other than the testimony which they heard. Nearly all of the instructions given on behalf of the people had received the sanction of distinguished courts, and upon the whole, I can see no reason why the original verdict should be disturbed." Wasserman and Ochs, once the first few words of the court made once the first few words of the court made it plain that the motion was to be overruled, leaned back in their chairs and a sudden pallor overspread their faces. Wren occupied a seat back other defendants and hands twitched nervously, as if he were doing his utmost to conceal a feeling of strong ex-citement. When the court finally declared that the verdict of the jury could not be disturbed, Attorney Sullivan moved for an ar-rest of judgment. Saturday next was fixed on as the day when a date for the discussion on this question should be submitted. By 10 o'clock the court instructed the atterneys to be present so as to dispose of the whole matter as quickly as possible. The main point upon which the defense will rely is the ale eged circumstance that the boodlers were not given a trial within three months after
