It is not improbable that Senator Harrison, of Indiana, is correct in saying that there is no prospect that any of the territories will be admitted to statehood before the next presidential election.

Timme says nothing about his excessive mileage, but his German organ tries to vindicate him by charging that O'Keefe drew more mileage and pay this year than Timme.

Prisonment of a man like Wilfred Blunt.

Prisonment of a man like Wilfred Blunt induces all Englishmen to think, and the deliberate consideration by the people of the suppression of public meeting and the freedom of speech is a thing which the ministry is most unwise to provoke.

The crisis which has been threatened in France seems to have been averted. A few days ago it seemed certain that Grey would resign, and the most distressing consequences to the republic were predicted.

Crawford to Fairbrother.

WEST POINT, Neb., Nov. 3.—To the Editor of the BEE: Please give the following response publication in the BEE:

AL FAIRBROTHER—Sir: In answer to your interrogatories published in to-day's Bee, I assure you that I am not a member of the negative, and say to you that each and every one of them is untrue and absolutely and maliciously false, and the fact that you did not make an effort to have them substantiated by inspection, in your questions—which any fool can ask—leads me to believe that you know that the insinuations were false, and made them in a spirit of malice, and induce people to believe they were true when you did not have the courage or manhood to make the charges direct. If you will make an affidavit that your charge is true and send it to me, I will pay the expense and afford you an excellent opportunity to prove it. If you know of any other persons who are guilty of the injury of the people, why did you not tell them what it was and at the same time tell me? I am sure that you are in the interest of the people, whom you profess to favor, but try to deceive on the eve of election by your false insinuations. The people are entitled to have the truth.

J. C. Crawford.

More About Crawford.

MADISON, Neb., Nov. 4.—To the Editor of the BEE: The denial of Judge Crawford in the BEE yesterday that he went to Lincoln last winter for the avowed purpose of defeating the reelection of General Van Wyck provokes a smile of incredulity on the face of those who know him and his methods. He is generally known as a member of the political ring, who on all occasions speaks sneeringly of Van Wyck and his friends, and who esteems it an element of honor to have the name of "Van Wyck" in large influence with the railroads. He has openly advocated the taking of usury and does all he can to discourage the success of actions brought against a railroad. He is a man of great wealth and has recently suffered thousands of dollars by the repeated adjournment of his court while he was on a junketing tour in Washington and the south on political and private business. He is a man of high standing in this county on election day, except in Norfolk, where he has made a bargain with some republicans to sell out Norris.

Mr. Hancock's Reply.

PAPILLION, Neb., Nov. 4.—To the Editor of the BEE: I suppose no one can live in a community five years and not have a few personal enemies. W. C. Rogers seems to be one that your man has stirred up and a personal letter addressed to me through your columns is the result. I hope it will result in increasing your circulation out here.

In reply to Mr. Rogers' letter, I plead guilty to the charge of being a "blackguard." They had a law suit. It went adversely. After waiting some time execution was issued and Mr. Rogers, Bates and others had the costs to pay. Some of the witnesses attending under subpoena were intimidated and as the case did not go to trial, I had some difficulty in taxing their fees and mileage, and in one or two made a mistake. In paying the costs the bondsmen, through a mistake, were some short and I know as a man of "large influence with the railroads." He has openly advocated the taking of usury and does all he can to discourage the success of actions brought against a railroad. He is a man of great wealth and has recently suffered thousands of dollars by the repeated adjournment of his court while he was on a junketing tour in Washington and the south on political and private business. He is a man of high standing in this county on election day, except in Norfolk, where he has made a bargain with some republicans to sell out Norris.

THE MINISTERIAL FRAUD.

Rev. W. E. Kimball Explains How Brown Secured That Letter. The following letter was received by the BEE yesterday from Rev. W. E. Kimball in relation to the man Brown, who swindled the Central City bank out of \$1,500, an account of which was printed in Thursday's Bee.

MADISON, Neb., Nov. 4.—To the Editor of the BEE: The letter of introduction which you published is not the letter that I gave Brown to take with him to Central City. The one I gave him is as follows:

"This will introduce to you Rev. D. G. Brown, an evangelist worker, who intends to spend the winter here, and I hope that you can assist him in finding a location and a field of usefulness."

The one you published was changed by Brown to suit his damnable purpose.

Paris Gaiety.

Paris Gaiety: As the audience were leaving the theater an over-dressed would-be dudu threw away the cigar he had just lighted, and raising his hat to a charming-looking but unprotected American lady, said: "Can I call a cab?" A faint look of astonishment on the lady's face was followed by a smile and sweetly murmured: "Merci!"
