KEEP the judiciary pure.

An honest judge is the noblest work of man.

THE judiciary must have nothing in common with the partisan machine.

r Pur no man on the judicial bench who is loaded down with pledges to pol-Iticians.

EVEN the Chicago papers are beginning to advocate commutation of sentence for the anarchists.

JAY GOULD occupied six staterooms on the Umbria. The wonder is that he did not take the whole steamer.

THE administration of justice can be safely entrusted only to men who are independent of all partisan influence.

COBURN has made a good sheriff, and the people of Douglas county will re-elect him by a handsome majority.

DAKOTA has little chance of becoming a state. In fact none until the demo cratic party experiences a change of heart.

THE Crow Indians have been given to understand that they must surrender or die. It's a poor choice for the Indians either way.

Deceiving the Voters. The law says that mixed tickets, which it defines as those on which are printed the names of candidates other than those nominated in the convention of the party named at the head of the ticket, shall be thrown out

in counting the ballots. Republicans, look out for them. A mixed ticket is a bogus one, and the law provides that they shall not be counted .- Omaha Republican.

The law says no such thing. Mixed tickets are just as legal as any others provided they are printed under a distinct heading. The plain intent of the law is that no deception shall be practiced on the voter by inserting the name of a candidate under the regular party heading who was not placed on the ticket by the party. In other words, a ticket headed "Republican" with the name of a democrat inserted in place of any regular republican candidate would be bogus, but a mixed ticket headed 'Citizens' Republican," "Independent Republican,""Republican Workingman's" or any other designation differing from the regular heading is as legal as ing it. any other ticket. Such tickets have been voted in Omaha at every election for years and every name on them has always been counted. But the Republican purposely falsifies the law when it

says that a mixed ticket cannot be counted under the law. The law makes no such provision. The law does not even authorize the throwing out of a bogus ticket, but merely provides that the name of any candidate fraudulently inserted in place of the regular candidate on a straight party ticket shall not count. All the other names on a bogus ticket are counted just the same, as if the ticket was straight. No ticket can be legally thrown out. Every other interpretation of the law is a bare-faced imposture.

A Word With Wage Workers. Nobody is more interested in electing honest and competent county officers and unpurchasable judges than the wage workers. A rich man or a wealthy corporation can always get low assessments on their property. And even if the county is managed by boodlers they can stand the increased taxation much better than the wage worker whose little home and scanty furniture are assessed for nearly all they are worth. The Paxtons, Kountze's, Creightons, McShanes and the railroads can stand a tax of \$100 easier than a mechanic,

laborer or clerk can fifty cents. The same applies to the judiciary. The men of wealth and great corporations always exert a great influence in the courts, and would have no trouble in getting the ear of a judge who is in the market. The wage worker who gets into court has no show for justice unless the men on the bench are above purchase and beyond corruption and corporate in-The attempt to throw sand into the

eyes of workingmen by appeals for sympathy in behalf of Estelle, Ballou and Hancock by pleas of poverty and sneers at silk stockings ought not to deceive them. It is an attempt of mercenary charlatans and legal quacks who have proved themselves unworthy of confidence and without principle or integrity. Wakeley, Doane and Groff are above want and temptation, but they are by no means what would be called wealthy. They are citizens whose in-

he became indifferent to even his own injunctions. There ought to be nothing more heard about pernicious activity from administration sources.

Advancing Southward.

The cultivation of closer trade relations between the United States and the states of Central and South America is a policy the wisdom of which no one will question. That too little attention has been given to this policy in the past is generally admitted, and as the result other nations have improved the great commercial opportunities that were presented, and have secured the possession of a trade which they will spare no efforts to hold. The development of the immensely rich country in the southern half of the hemisphere, is, however, still in the first stage. The possibilities of growth are almost illimitable, and a

vast commerce, very much greater than that of the present, may yet be secured by the United States if adequate enterprise and energy are directed to obtain-

It is gratifying to note that some progress is being made in extending our commercial relations in this region. This is being accomplished through the agency of postal treaties. Under existing laws these treaties can be negotiated by the postmaster general and the president without the consent of the senate. The postmaster general has taken advantage of this authority to open negotiations with every government in South and Central America and the West Indies with a view of establishing a general system of commercial intercourse by parcel post delivery and a letting down of the customs barriers in the states treated with. Although unable to promise any reciprocal action on the part of the United States in the matter of customs restrictions, his advances have been most favorably received, and there is fair assurance that within a short

time satisfactory arrangements will have been perfected between this government and a dozen or more of the governments of South and Central America and the Antilles, similar in character to those recently effected with Mexico, the good results of which are already ap-

parent. While the enlargement of trade relaions effected by this means could never be very extensive, the establishment of these postal treaties is a valuable step toward other methods necessary to bring about commercial intercourse on the scale to be desired. They foster and increase communication between this country and the states with which the treaties are made, and the tendency of this is to create a demand for the removal of other barriers that are in the way of a further extension of commercial relations. When two countries learn that their interests are to be mutually advanced by cultivating intimate business intercourse the way is open to mutual concessions. There is no reason why this country should not have its share of the trade of the countries to the south of us if we will treat them as liberally as other countries and put ourselves in a position to transact

our business with them as promptly as

do other countries. No country of

South or Central America has ever

shown any indisposition to trade with

tion in opposition to the prevailing political complexion of the community. Some states have laws forbidding students from voting where they attend school away from home. This is just.

MAKE no mistakes in voting for

county commissioners. You must vote for candidates who are pitted against each other; otherwise your vote is thrown away. Remember that Walsh, republican, is running against Corrigan, democrat; Turner, republican, against Timme, democrat; and Morrell, republican, against Anderson, democrat.

KINGS AND QUEENS.

Queen Victoria has presented Mme. Albini with the jubilee commemoration medal, in diamonds and sapphires.

The Emperor William has sent 10,000 marks to be distributed among the necessitous people in the cholera stricken district of Messina.

The King of Corea furnished his winter palace with \$18,000 worth of American chairs beds and tables. He also bought an American steamer for \$28,000.

It is stated by Berlin correspondents that the czar will return to St. Petersburg via Berlin, where he will have a private interview with the Emperor William.

The princess of Wales is very fond of horseback riding. She is said to ride on whichever side of the horse that happens to suit her, and to find great comfort in the change of positions.

Prince Holenlohe will allow one of his sons to become a Russian subject in order that he may inherit the Wittgenstein estates. The prince has refused all offers of Russian nobles to purchase the property.

The Princesses Louise, Victoria, and Maud of Wales, Grand Duchesses Xenie and Olga. the czarowitz, the Grand Dukes Michael, and George of Russia, and Prince Hans of Denmark, make up the royal party of young people enjoying the measles in Copenhagen. The Nantes museum, which is one of the richest departmental museums in France, has just acquired a small casket of no little historical interest-namely: that in which

the heart of Anne, of Brittainy, queen of France and Navarre, was placed at her death. Queen Victoria, according to a recent

chronicler, sits down to a breakfast table laden with Scotch porridge, cold rump steak pie, hot rump steak, cold rump steak, cold gammon of bacon, boiled eggs, Scotch scones, brown bread, butter, honey, tea, coffee, and a kind of cocoa specially prepared for her majesty.

The queen of Sweden seems to be an un commonly sensible woman. She delights in nothing so much as the open air, her books and the palette. And, by the way, it is whis-pered that she can use the brush with very considerable skill, and that it is not alway necessary to praise her picture because they are painted by a royal personage, for they have decided merit of their own.

The Prince of Wales' study at Sandring ham is the smallest room of his suite, and is lighted by but one large window. There are no draperies or decorations in the room. The principal piece of furniture is a solid oak desk, with every convenience for writing upon it. Under the desk is a waste basket in the shape of a high hat, which is said to have been designed by the prince. There are no books in the room, though there are plenty of shelves, but they are filled with pipes and all the usual articles of the smoker's outfit.

A Berlin newspaper announces that there are now eight bachelor heirs to thrones in the German empire, and eight spinster princesses of fifteen and upwards. The first list in-cludes Prince William of Nassau, Prince Rupprecht of Bavaria, Prince Frederick of Anhalt-Dessau, Prince Ernest of Hesse-Darmstadt, Prince Frederick of Saxony and Prince Frederick of Waldeck-Pyrmont. The second list is headed by the three younger daughters of the German crown prince, next

to whom come five princesses of the royal family of Bavaria.

Roorbacks and Plots.

Every voter this morning ought to be prepared for lies and roorbacks of all kinds which it is known are to be circulated by the unscrupulous demagogues who have been seeking to foist upon the people the rotten ticket containing the four incompetent, bushwacking roustabout candidates for judges of the district court. The supporters of these worthless aspirants to the judicial position will not only seek to misrepresent the non-partisan candidates for the district court by the circulation of libelous misrepresentations, but have already concected a plot to carly this morning take possession of the polls and allowing all their friends to vote while opposing every obstacle to those who do not yote at their dictation. More than this they have foully conspired to carry their point by the assistance of the men employed by the street car and gas companies, every one of whom will be compelled to vote for the dead-beat Estelle. Upon this man the whole strength of Vanderburn, the thieves, thugs, gamblers, pimps and procurers of the Third ward has been concentrated, leaving the other republican candidates to look out for themselves. This is an at-tempt on the part of the disreputable portion of the community to override the wishes of the honest and industrious citizens, taxpayers and mechanics of this city and county and there is but one way to circumvent it and that is for every honest citizen to be or hand carly and prevent the consummation the damnable scheme above referred to. It this case, a non-corruptible judiciary de-mands the vigilance of the people, and if this vigilance be exercised there will be no doubt as to the outcome of the day's election.

TAYLOR'S PETTY MEANNESS.

The Figure-Head of the Republican in the Role of a Hog.

It was the desire of the BEE to publish this morning a complete list of all candidates for election. Many of the candidates, especially those running for constables, as sessors and justices are unknown to the public; their names never having appeared in print. Through the hoggishness and petty meanness of Cadet Taylor this enterprise was frustrated. A BEE representative called at the Republican office yesterday to obtain a list of the candidates. Mr. Need ham, the county clerk and his deputy, Mr Wells, were present and the former held in his hand a proof sheet of the tickets for the various wards. The foreman of the printing establishment refused to let the BEE man have a copy and referred him to Mr. Rounds who was in his private office at that tim Mr. Rounds very politely granted the request and issued a written order to the foreman to furnish the bearer with a copy of the differ ent tickets, but before the mandate could be fulfilled, in comes Taylor and the result of a whispered conversation that he held with Mr. Rounds was a cancellation of the order to furnish a copy of the proof. The BEE rep-resentative then asked to be allowed to copy the names of the candidates for justices, assessors and constables in the several wards, and although Mr. Rounds was favora bly disposed toward granting the request Taylor again objected and the request was denied. It was fully explained to Messrs Rounds and Taylor that it was to be pub-lished in the interests of the republican

party by notifying voters who their candi dates were. Notwithstanding this, Taylor's commissions, thereby defrauding deponent petty spite prevailed. LEARNING, experience, integrity, ability and independence are the quali-Scations that fit a man for the judicial office. All of them are possessed by the candidates on the non-partisan judicial ticket. The opponents of that ticket have not one of these qualifications.

UNDER the existing tariff system a duty of 92 per cent is exacted on the cheaper cloths and 571 on the more expensive ones. As the poorer classes have to buy the former and the rich mainly purchase the latter, the injustice of this arrangement is manifest.

NEXT to the judicial officers, the most important positions to be filled by the voters are those of precinct assessors, but unfortunately little or no attention is being paid by anybody to the assessors. Every taxpayer should carefully scan his ticket, and take pains to give us competent and honest assessors.

THE council of South Omaha ordered the saloons closed on election day. The Omaha council has in defiance of the law and the mayor's order to the chief of police, adopted a resolution that the saloons may be kept open. The South Omaha councilmen are democrats, while two-thirds of the Omaha council are republicans.

IT was all right for a republican governor, James W. Dawes, to appoint Eleazer Wakeley as judge of this district five years ago. It was perfectly proper for the republican judicial convention to nominate Judge Wakely with James N. Neville four years ago. But since Cadet Taylor has come to -n-partisan judiciary ticket.

tegrity has never been questioned, and in whose hands the wage workers would be in no danger of injustice or betrayal. The fact that Hancock, Ballou and Estelle have been associating with a certain class of alleged working men who hang around saloons, while Groff, Doane and Wakely have kept out of the slums, will hardly influence intelligent and decent wage workers in favor of the roustabout candidates. On the contrary it ought to set every thinking wage worker

against them. The President's Interference.

If the interference of President Cleveland in the New York campaign was not pernicious activity it would be very difficult to satisfactorily define just what that objectionable conduct is. The contribution of the president to the campaign fund may perhaps be pardonable. It was voluntarily made, if that action can be considered voluntary which proceeds from a knowledge that it is desired and expected. Very likely it was not solicited, but Mr. Cleveland knew it was wanted and would be acis inconsistent with that complete indeceptable, and therefore he sent it. THE supreme court of Indiana has de-

White lillies, for they tell of peace Beyond the gates of even, Where whispers of the soul's release Seem mystic hints of heaven, And yesterday—but that has gone, And so I needs must borre A hope of that swift coming dawn, The promise of to-morrow.

Forevermore to-morrow lends Bright visions of completeness True lovers, and the steadfast friends With faces full of sweetness; But backward all seems dim and gray, And vaguely touched with sorrow: I care not for you yesterday If I may have to-morrow.

The past is past-ah! dead indeed, I weep not for its going, Its phantoms weird no more I heed Than west winds wildly blowing; Press onward, ave, and upward, heart, While I my gladness borrow, For hope and I shall never part While I can have to-morroy

The New Bridge.

In Sunday's BEE it was announced that the new Union Pacific bridge would be opened to the public yesterday. Although this was the intention of the Union Pacific company it has been found necessary to de ay the time until Friday, the 11th instant. On that day Engineer Duryea will formally tender the work to the company and retin from any further connection with it. Mr Duryca proposes to give over the structure fully finished even to the minutest detail. The toll rates have not yet been decided upon but they will be placed at as low a figure possible

Benson Registers From Omaha.

To the Editor of the BEE: In Sunday morning's BEE you kindly mention my name and say I am still a resident of Davenport I am glad to say I register from Omaha, the best town in America of its size, and I expect to live here when we will have to make very few exceptions as to size.

ERASTUS A. BENSON.

Taylor said that he would not honor such an order, neither would he accept an order from the chairman of the county central committee, and intimated that nothing would influ ence him short of an order signed by a ma-jority of the fifty odd members of the whole ounty committee.

Prior to this, another BEE representative had seen Mr. Kelly, who stated that he had no objection to furnish a proof of the ticket. Following is a list of the democratic candidates furnished the Bgg by Mr. Brown.chair man of the printing committee of the demo cratic central committee:

THE CHIEF'S EDICT.

The Law Calling for the Closing of Saloons on Election Day.

Chief of Police Seavey issued the follow ing order to his men yesterday:

His honor, Mayor Broatch, has instructed me to close all the saloons in the city from 8 o'clock a. m. on Tuesday, November 8, 1887, the day of the election, and to keep them closed until 6 p. m. of the same day, in ac-cordance with the law. All police officers are hereby instructed to enforce the law of the slate and the ordinances of the city, which are as follows

Section 14, chapter 50 of the compiled stat-utes of Nebraska, and section 17 of city ordinance No. 483 reads: Every person who shall sell or give away

any malt, spiritous or vinous liquors on the day of any general or special election, or at any time during the first day of the week, commonly called Sunday, shall forfeit and pay for every such offense the sum of on-hundred dollars.

Officer John Turnbull will at once notify all saloon keepers and hotel proprietors with in the corporate limits of the city of Omaha o close their saloons and bars in accordance with the above order, and also to notify them that all persons violating the law will be promptly arrested. By order of W. S. SEAVEY, Chief of Police

The above order only applies to keeping closed on election day. Officer Turnbull has completed fully three fourths of his notifications, and reports out of the great number of saloon men visited he has only met with four or five who have made any sort of a kick They generally recognize the order as a healthy one, and are perfectly willing to comply. An especial watch will be kept upon the recalcitrant saloon keepers, and if the law is violated they will get the limit.

To the Saloonkeepers.

As there may be some doubt as to the enforcement of the order to the chief of police directing the saloons to be closed on election day between the hours of 8 o'clock a. m. and 6 o'clock p. m., I desire to say that the order will be enforced and you are expected to observe it. I believe as good citizens you will comply with the law, and relieve me and yourselves from any embarrassment at-tending a disregard of the same. W. J. BROATCH, Mayor.

A Letter From Mr. Shields. OMAHA, Nov. 7 .- To the Editor of the BEE

An article appeared in this morning's Repub lican intimating that I was not a citizen of the United States and that I depended for my citizenship upon that of my father, and asking that I withdraw from the ticket. I was also told yesterday while in Waterloo, that this rumor was being diligently spread in the county precincts : and this has gone so

ion by law; further deponent saith not [SEAL.] J. P. EWING. Subscribed and sworn to in my presence this 7th day of November, 1887. HERMAN E. COCHRAN, Notary Public.

Love Feast at the Opera House. There was a big crowd present at the love feast held by the republicans of the Fourth ward at the opera house last night. It was a jolly, go-as-you-please gathering. The speak-

ers were in a merry mood, the candidates appeared on the stage beaming all over with smiles, the singers were in excellent voice and the musicians played their best. Success at the polls was predicted for the whole republican ticket from top to bottom.

Colored Republicans.

The colored republicans of the city were out in large numbers last night, and attested their devotion to the party and its candidates in their present contest in enthusiastic and vigorous terms. A ratification meeting was held at the corner of Twelfth street and Capitol avenue, and the words of the speakers were warmly applauded.

How the Bets Go,

The political strikers and bookmakers were a busy crowd yesterday and last night, and the man of great influence who appears periodically about this time of year with the votes of whole wards on his inside pocket, which he can deliver to the highest bidder, was out in full force and buttonholed candidates. There was the usual assurances evi dates. There was the usual assurances evi-dent that there generally is on the eve of election among political parties, and it was an utter impossibility to find a candidate, be he democrat or republican, who was not confident of success or considered the race a
