The Honorable Repudiated.

The triumphant election by sweeping majorities of the non-partisan judiciary ticket in this district registers the popular protest against the roustabouts and their methods. It will probably be a long time before another attempt is made to put upon the bench of this district men who are notoriously unfit for such a position and who lack the confidence of the people, which every judge should have.

A Brilliant Political Fight.

The local political fight in New York City was one of the most brilliant political battles ever witnessed. The chief point of interest was the district attorneyship, an office of vast importance, as the conclusion of the case against Jacob Sharp, charged with bribing the aldermen, was involved.

Of Great Benefit to Omaha.

The opening of the Armour packing house at South Omaha yesterday is an event of great interest to the people of this city. One thousand hogs were slaughtered the first day, but this number is by no means the full capacity of the concern.

The United States Senate.

It seems to be very probable that Mr. Riddleberger, of Virginia, will be succeeded in the United States senate by a democrat. His term will expire March 3, 1889.

The Result in Ohio.

It has never been seriously doubted that the republican ticket in Ohio would be successful. The democrats were heavily handicapped by the very bad record which the party had made during the past three or four years.

The Banner Ward.

The Fourth ward has for years been the banner ward of republicanism in Omaha. Populated almost entirely by business men and the best class of our citizens its expression through the ballot box affords a reliable index of the sentiment of the reputable and intelli-

gent element of the community.

The banner ward has been heard from and it spoke with no uncertain sound. Judge Maxwell, who represents the party sentiment of the ward, received 938 votes for supreme judge, against 499 for the democratic candidate.

The Interference of the President.

The interference of the president in the Massachusetts campaign appears to have been less effective than was his intermeddling in New York. There was great joy in the democratic camp of the Bay state when the information was communicated that Mr. Cleveland endorsed the state ticket and desired its election.

The State of New Hampshire.

The state of New Hampshire has come tardily into line with the states which have laws to prevent and punish bribery or corruption, and this cannot be explained on the ground that there has been no demand for such a law.

Electricians have discovered.

Electricians have discovered that the human brain when at work evolves enough heat to drive an electric motor, through the intervention of a thermopile.

Glorious Autumn.

Crisp autumn, golden autumn, autumn of our northern clime, being the one thing Spring they say a splendid season, but you beat it every time.

Season of delightful evenings.

Season of delightful evenings, charming mornings, glorious noons, Purple dawns, rosy sunsets, tender starlight, mellow moons.

Let the poets sing of spring time.

Let the poets sing of spring time, let them, and I will care a rap, Hoary winter, glorious autumn, never lingers in your lap.

Let the poets sing of spring time.

Let the poets sing of spring time, let them, and I will care a rap, Hoary winter, glorious autumn, never lingers in your lap.

active competition was stirred up in that direction.

All the rival roads are now preparing new time tables, showing decided reductions in time to Chicago and New York.

THE FIELD OF INDUSTRY.

Last week six carloads of cotton jeans were shipped from Biddford, Me., to China. It has been estimated that there are 600,000 saleswomen in the United States and 300,000 dressmakers.

Artistic hand work is becoming very common throughout the west on account of the great reduction in cost.

A Maine mechanic has invented a hydraulic press that compresses sawdust into one-fourth its loose volume.

The Amsterdam knitting mills have all large orders ahead.

New manufacturing companies are springing up in the west, and there seems to be no trouble in obtaining sufficient capital to start them.

There is a good scarcity of Spanish eggs in foreign markets, and several foreign rates have been advanced.

Indianapolis' natural gas people are about to buy \$100,000 worth of wrought iron pipe to conduct natural gas to that city from wells twenty miles away.

It has been estimated that the present production of finished silk goods in the United States is \$70,000,000; capital employed, \$30,000,000; number of hands, 50,000.

Manufacturers in Great Britain are gradually adopting liquid fuel in place of raw fuel.

There are 20 blast furnaces in and about Pittsburgh, and 20 steel works, 15 window glass works, 37 flat glass works and 11 green glass works.

The painters, plasterers, and decorators are very busy at this season, and the work is in progress, and will probably be crowded with interior work during the winter.

Valuable anthracite coal finds are being made on the Northern Pacific coast.

On account of the rapid expansion of our manufacturing capacity the machine shops of this country are being exceedingly busy, and as a consequence prices have begun to move up.

The unsuccessful candidacy of Colonel Frederick Dent Grant for the office of secretary of the state of New York demonstrates the impossibility of bodily transferring to a son the boundless love and veneration which the people have for the father.

The Atlantic ocean will hereafter enjoy the unique distinction of being the one thing in God's universe that ever got more from Jay Gould than it gave.

A Health Injuring Strain.

The announcement that Mr. Cleveland has an attack of rheumatism leaves no room to doubt that the mental strain of his recent election, which is daily physical, as an Irish philosopher would state the case.

The Power of Thought.

Electricians have discovered that the human brain when at work evolves enough heat to drive an electric motor, through the intervention of a thermopile.
