THE NEWS IN THE BLUFFS.

Arrival of the Long-Expected Hook and Ladder Truck.

DESCRIPTION OF ITS WORK.

The New Union Pacific Bridge Formally Turned Over By the Engineers - Serious Runaway - Other Little Items.

New Fire Fighters.

The long expected hook and ladder truck arrived yesterday over the Chicago, Milwaukee & St. Paul, and was the object of much admiration as it was drawn through the city.

The apparatus is of considerable interest, and is to be used by William Gronoweg. The apparatus is from the establishment of E. B. Preston & Co., Chicago, and is of the newest pattern.

It is elegantly finished and is fully supplied with chemical extinguishers, axes, bars, picks, ropes, lanterns and buckets in addition to the ladders and poles. The large seventy-five foot ladder is firmly fastened to the truck and will support several men and lines of hose without any other bracing than that afforded at the base.

The other ladders are 55, 35, 30, 25, 20, 18 and 10 feet in length, and the facilities for handling them are unexcelled. The two large chemical reservoirs have a capacity of 100 gallons each, and are 10 feet in length, weighs 7,200 pounds and cost \$2,700.

As its new quarters on Broadway are not quite ready, it is housed for the present in the new patrol house. It will be nearly a month before the Broadway house is finished, but it can be occupied in about a week.

The second story is now in the hands of the plasterers, and the carpenters are busy on the lower floor. When fully completed and occupied by the new fire fighters, it will be the handsomest and best equipped buildings of its kind in this section of the country.

A little practice will enable the boys to do very effective work and do it with remarkable rapidity. Everything about the truck, while simple, is of a high order. The truck can be driven into position, a pin pulled, and the horses driven away. The base of the seventy-five-foot extension ladder is firmly fixed to a turntable, so that when it is raised it can be tilted in any direction, and at any angle.

Two cranks raise the ladder into position, and another throws up the extension, and in less time than it takes to tell it the ladder is in position, and the six boys at the top, they having done all their climbing while the men at the cranks were hoisting. This city has long had an efficient fire department, and no serious fire has occurred for years. The boys are now better prepared than ever to protect the city.

Turned Over. Yesterday the engineers who have been at work on the new Union Pacific bridge formally turned it over to the agents of the company, by whom it was accepted and thrown open to the public, and, for the first time in the history of the world, a carriage was driven across a wagon bridge connecting the cities of Omaha and Council Bluffs.

The first carriage to cross the bridge was one of Jim Stephenson's best. Very appropriately, Mr. E. Duryea, the resident engineer, had charge of the carriage, and the bridge was very little for him. In this case a gun was arranged in a corn field in such a manner that when he pulled the trigger the gun discharged and the carriage was driven across the bridge.

The party took a drive about the city and made a pleasant call at the BEE office, returning as they came. As the BEE gave an extended account of the new bridge last Sunday, a repetition would be out of place. The combined wagon, foot and railroad bridge is now an established fact. How kind the public will take to it is something only the future will tell.

Every one making a cash purchase of 25 cents at T. D. King & Co.'s cigar store gets a chance to win a prize drawing. Twenty elegant prizes.

Death of H. B. Morehead. MISSOURI VALLEY, Nov. 9.—At the residence of his mother, Mrs. C. T. Hobbs, in this city, yesterday, November 8, 3 p. m., while all around was contentment for the moment, the spirit of H. B. Morehead took flight to the country on which there is so much speculation, but of which we know nothing. Roland, as he was familiarly called, was a philosopher and so was reconciled to death, never dreading the inevitable. Born in the presidential state, Greenbrier county, Virginia, June 9, 1833, he came to this country when but four years of age and has resided here almost continually since.

Mr. Morehead entered into partnership in 1857 with C. L. D. Craywell at Council Bluffs in the musical instrument and book and stationary business, but from which, after five years, he was compelled to withdraw owing to his failing health, caused by a cold contracted while in the discharge of his duty as a member of the I. O. O. F., to which order he was greatly attached and always vehement in defending its tenets. He was initiated into the mysteries of that order by Council Bluffs lodge No. 49 in 1857. That trend disease, consumption, carried him to his untimely grave. He has suffered greatly, but passed away easily, without a struggle. His pleasing social qualities coupled with his sterling business character caused him to be a favorite of his friends. A large circle of friends in Council Bluffs will mourn indeed upon reading this, and will join with those here and elsewhere in extending the sympathy which the widowed mother and bereft sisters so much need in this, their hour of sadness. The funeral services were conducted

by the I. O. O. F., together with the Rev. T. F. Thickett, assisted by the Presbyterian choir, at 3 o'clock yesterday afternoon.

A Mathematical Wonder. New York World: Reuben Fields, a most extraordinary individual, has returned to his home in Council Bluffs, after an absence of some years in the west. Fields is known far and wide as the "Mathematical Prodigy," and indeed, he is a most wonderful creature. Perfectly illiterate, not being able to tell one letter or figure from another, he has, nevertheless, by the science of mathematics that Blind Tom does to music, Fields is now about twenty-eight years of age, and his ability to quickly and correctly solve the most difficult problem was discovered when he was eight years of age. That faculty continued to develop until he is able to solve, with lightning-like rapidity, anything in the higher branches of mathematics. For instance, the moon is a certain number of miles from the earth; a grain of sand is as long as how many grains does it take to connect the points? The answer to this or any other problem comes like a flash. He can also tell to the fraction of a second the time of day or night. This marvelous man has been tested by the most expert mathematicians, and his answers to problems have been found to be invariably correct. Scientists have examined Fields' head and pronounce his wondrously developed faculty a profound mystery to them. Fields knows little more than this extraordinary ability. He claims that his power in this respect is a direct gift from his Creator, and liable to be taken away from him if not properly used. The possessor of this gift never went to school in any of the regular schools, but he works, except to occasionally aid merchants in invoicing their goods, and in this business he has been known to keep a score or more of clerks busy footing up columns of figures. He is a very large man, and has no other occupation, he lives among his acquaintances, putting up wherever night overtakes him. He is very proud of his gift, and frequently compares himself to Samson. Fields gave an exhibition of his powers, before Governor Crittendon and other distinguished men of Missouri on a late visit west, and they unhesitatingly pronounce him one of the greatest wonders of the century.

MAKE NO MISTAKE.—If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, a curative power superior to any other article of the kind before the people. For all affections arising from impure blood or low state of the system it is unequalled. Be sure to get Hood's.

In the Grip of a Bear. A correspondent from Bangor, Me., writes: Dr. B. H. Ordway, an old army doctor, says that a case he has just had is one of the worst he has ever called to attend. The patient is a man named Sullivan. He was summoned to Plantation No. 7, by a messenger, who had to walk several miles through the forest. Arriving at a little farm house on the plantation he found his patient. In the back of the house, on a bed, lay a man, who had been shot by a bear. The man, who had been shot by a bear, was lying on his back, and his head was resting on a pillow. He was in a state of unconsciousness, and his eyes were closed. The doctor, who had been summoned to the plantation, found the man in a state of unconsciousness, and his eyes were closed. The doctor, who had been summoned to the plantation, found the man in a state of unconsciousness, and his eyes were closed.

Beaten at Her Own Game. Birmingham Age: Superintendent Morton of the Union railway company tells the following story: "When I first took charge of the road the drivers complained to me of a certain driver who rode down town and back again every day without paying fare. She would get aboard the car and hand the driver a \$20 bill to change. Of course he could not change it and could not ask the lady to return it, so she rode down town every day without paying fare. One morning I gave one of the drivers on the line which passed the lady's house \$20 in nickels, and instructed him to change the lady's fare. She fell into the trap, and about 10 o'clock boarded the right car on her way down town. She handed the driver the \$20 bill, and he promptly returned her 400 nickels. She put her fare in the box, but was so angry she left the car and did not get again for a month. After that she always had change when she boarded a car."

Transcontinental Travel. Three through cars started from New England yesterday to California, filled with about 125 men and women, most of whom have been employed in various branches of service at a great White Mountain hotel during the summer and early weeks of autumn, and are to fill similar places, under the same employer, in a winter resort hotel on the other side of the continent during the next few months. The incident is a striking illustration of various developments of modern civilization, for one the ease of communication between the two coasts; for another, the new employments opened by what may be called the resort industry; for a third, the growth of the leisure class, which sustains these great hotels in all seasons of the year. Closely connected with these tendencies is the development of the excursion business by the railroads.

GRATEFUL—COMFORTING Epps's Cocoa BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by an application of the fine preparation known as Epps's Cocoa, Mr. Epps has provided our breakfast tables with a pure, delicious, and healthful article, which will surely make us healthy and happy. It is by the judicious use of such articles of diet that all the nervous and debilitated are enabled to eat with pleasure and to digest their food with ease and to resist every tendency to disease. Hundreds of subtle poisons are floating about in our veins, ready to attack wherever there is a weak point. We may escape them by avoiding all unwholesome and indigestible food. It is a good plan to take a course of Epps's Cocoa, made simply with boiling water or milk. Sold only in the original tins by Grocers and Dealers.
