A NEW REGIME INAUGURATED

The Local Base Ball Status at Last Firmly Fixed.

ANNUAL MEETING DECISIONS.

Election of a New Board of Directors. Officers, the Manager and Players-A Number of Local Sporting Items.

Omaha's Western Association Team' Omaha can rest assured now that she will be solid next season, so far as base ball mat-

ters go, anyhow. For 1888 the local diamond is to be under a new regime. The regular annual meeting of the local association was held at the office of John Dougherty last evening. The attendance was large and enthusiasm much larger. After a somewhat exhaustive canvass of ballistic affairs gencrally, the new board of directors was elected as follows: J. S. McCormick, J. J. Philbin, John Dougherty, Jack Morrison, J. J. Hardin, E. O. Brandt and H. A. Worley.

Mr. McCormick then being called to the chair, on election of officers for the ensuing char, on election of oncers for the ensuing year was held, resulting in the choice of Mr. J. S. McCormick as president, J. J. Hardin vice president, John Dougherty treasurer, and H. A. Worley secretary. This is a fine selection of officers and Omain can only rely upon a competent, able and efficient management of her base ball efficient to be ensuing year.

ball affairs for the ensuing year. So far as the franchise for the new associa-

tion is concerned, satisfactory arrangements as to the disposition were made with its pos-sessor, Mr. Joseph Garneau, jr., and no further perplexity as far as it is concerned is to be apprehended. Matters could not be upon be apprehended. Matters could not be upon a more amicable and encouraging footing than they are, and the sport-loving people of Omaha can rest perfectly secure in the as-surance that next season they will witness an entirely different species of base ball from that which was inflicted upon them

throughout the season just closed. After the consummation of a vast deal of miscellaneous business at the meeting last night, the capital stock of the association was increased from \$5,000 to \$15,000, making Was increased from \$5,000 \$15,000, making the new stock \$10,000. Fifty per cent of this is to be paid down, 25 per cent on the 1st of April, and the balance on the 1st of June. Sixteen shares were subscribed by the members present, and a committee will be on the street Monday with a paper to make not the daired another with a paper to will be on the street Monday with a paper to make up the desired quota. This will entail but little trouble, as some of the most promi-nent men of the city have signified a desire to subscribe liberally under certain conditions. The conditions have been brought about and the full amount of the capital stock will be forthcoming speedily, and Omaha base ball affairs within forty-eight hours will be upon a solid foundation. Of the team next season there is little ad-

Of the team next season there is little ad-ditional to be said. The work of the retiring management, so far as consummated, will stand. Frank G. Selee, of the past season's Oskosh team, and an efficient, experienced man, will be manager, and the remains of the famous team which won the Northwestern championship will be transferred to Omaha. These include Wilson and Cooney, eatchers These include Wilson and Cooney, catchers; Lovett and Cassian, pitchers; O'Connell, Lovett and Cassian, pitchers; O'Connell, first base; Shannon, second base; Doran, third base, and Compana and Annis, fielders. These are the men thus far signed by Mana-ger Selee for Omaha, all reports about the securement of Walsh and Messitt to the con-trary notwithstanding. The latter two have not been signed, and it is doubtful whether they will be. Walsh is promising, but Mes-sitt decidedly mediocre, and what Omaha most wants is new faces. Manager Selee is still scouring the country for players, and his energy and activity will certainly shortly lead to the engagement of a full complement of players for next season. He will be tele graphed for Monday to report immediately in Omaha for conference with the directors when he will again be launched forth upon his expedition for talent.

Official Averages of Omaha's Players

Below is presented the the official averages of the Omaha team of the season just closed. They have been compiled from the official scores and the work has been care fully done. If there are apy errors to be

country, but without a backer is unable to get on a single meet. In view of his present impecunious condition, Ed Rothery, a local sporting manager, has sent for Weir to come sporting manager, has sent for were to come to this city, and he will probably be on hand within the next ten days. In the event that he does come, Tommy Miller says: "They needn't go to Minneapolis, St. Paul or any-where else for Warren, O'Leary or any other bantam to meet Weir. I am here and would be supremely happy to go up against the Spider in any style or for any amount I can raise. Uve been trying for a year to make a spiner in any style or for any amount 1 can raise. I've been trying for a year to make a go with some first chass man simply to show that I can fight, but all my efforts have amounted to nothing. However, mark it, if Weir comes to Omaha he can't ignore me."

Pat Killen Anxious to Fight.

St. PAUL, Nov. 19 .- [Special Telegram to the BEE.]-Pat Killen appears to be very uneasy. He expresses a very strong desire to fight somebody, he don't care whom. The principal object of his attention just now is Mike Conley, of Ashland. To-day he issued a challenge offering to fight Conley to a finish with kid gloves for \$100 and the gate receipts, and deposited \$250 forfeit. Conley has been asking for a match all along and now a chance is presented. The Ashland man has a number of stalwart friends, who say they will back him for any reasonable amount. Conley would a little rather meet amount. Conley would a fittle rather meet Clow, it appears, and wants to arrange a ten-round contest to take place at Ashland. Sev-eral months ago Clow refused to go to Ashland, expressing the be-lief that he would not receive fair treatment in Conley's town. It was said yesterday that Clow's manager, not feeling any too well over the showing his man made with Glover, had made up his mind not to have anything to do with the Colorado man unless he accepted Conley's challenge and went to Ashland. Killen's hands are in good shape and he seems disposed to make any sort of a match. Gleason has not yet appeared to make a match with Harry Gilmore, as he said he would do. Gilmore's backers in Min neapolis, although heavy losers by the result of the recent Myer-Gilmore mill, have not changed their minds in regard to the Cana-dian's superiority and stand ready to again wager on a second match. Myer is in bonds in Illinois and is not yet rendy to sign articles for another fight. John Donaldson has de posited \$250 as a guarantee that lke Weir, the "Belfast Spider," will be in Minneapolis to meet Tommy Warren.

New Sporting Headquarters.

At the grand opening of Prince & Kirby's sporting headquarters on Sixteenth street next Thursday evening, a very attractive programme will be presented, one of the best features of which will be the gold medal contest on the "home trainer." the medal to be awarded to the contestant making the onickest mile. The "home trainer" is an ingenious machine for indoor bicycle practice, is sta tionary but works upon the same principle as a wheel upon the road. The entries for this event already embrace Charlie Wood, Harry Course George Board Ed Washburg, Harry Curry, George Beard, Ed Washburn, Harry Green, P. J. Kirby, Olie Wood, Charlie Merle, John Ruston, Fred Cook and George Kosters. Prince & Kirby will have one of the most popular resorts in the city, with bicycle and sporting goods department and gymnasium annex.

Reports from up the Platte and the Mis-souri say that the geese are coming in by the thousands. During the remarkably prolonged period of balmy autumn weather the birds have continued their revels in the far north, but the cold blast that is now here has driver them south, and the near grounds will afford great sport for a few days to come.

Jim Manning, it is said, will receive \$2,500 as captain and manager of the Kansas City team. The salaries of the other players, alteam. FIRE AT FORT SCOTT. A Disastrous Blaze in the Kansas Vil-

lage-Other Conflagrations. FORT SCOTT, Kan., Nov. 19.-[Special Telegram to the Beg. |-At S o'clock this morning fire broke out in the Goodlander mills, in the cast portion of this city, and before aid

arrived the whole establishment was in a blaze. A high west wind was blowing at the time and the fire spread with lightning rapidity to the immense elevators near by and

west to the cottages. The engines were powerless to accomplish anything, although the firemen worked like beavers. At 9:30 o'clock it was deemed useless to further fight the flames without aid from the outside Telegrams were sent to various places, and delegations from Parsons and Kansas City started, but before Fort Scott was reached the fire was out. The mills were entirely destroyed, were located at the southwest corner of Clark and Oak streets, and were owned by Charles W. Goodlander and B. E. Langdon. The total loss to them is estimated at \$10,000. Within two blocks is the

Gulf depot, and is directly in the line of the fire. The Cottage house was also de-

stroyed, and this was located directly opposite the Gulf depot. It is owned by George Hamiling. Luckily for the city the portion destroyed is not directly in the hear of the city. Among the property destroyed in addition to the small dwelling house is a planing mill and a lumber yard. The fire was caused by the sudden igniting of oil which had leaked from a tank on a railrord

switch back of the mills into the engine room When it flowed into the engine room it be came ignited by a spark from the fire box. The engineer was slightly injured, but escaped before the fire had done much damage. The Goodlanders carried an insurance amounting to about \$75,000 on property and about \$75,000 on stock. The small hamlet that surrounded the mill was entirely destroyed. It consisted of about twenty small cottages and one or two small stores. This loss will be almost total and will amount to \$50,000. It is thought that there was at least 150,000 bushels of wheat in the elevator and this, with building, were completely destroyed. The total loss is estimated at \$300,000, with insurance of from one-half to two-thirds that amount.

Forest Fires.

MEMPHIS, Tenn., Nov. 19 .- For the past ten days forest fires have been raging all around this section of the country and owing to the extreme dryness of everything and the prevalence of high winds, they are becoming very dangerous. Farmers are straining every nerve to save their gins and residences and several have been burned out. The railroads are blockaded and traffic is interrupted by the burning of bridges and the falling of burning trees. Telegraph communication is being seriously interfered with. Unless rain comes soon the damage will be most great. Much apprehension is felt. NEW ORLEANS, NOV. 19.—The city is filled

with smoke to-night and the same condition with smoke to-night and the same conditions are reported from Yazoo City and from many points in the Mississippi, Yazoo and Talla-hatchie valleys, and navigation on the Missis-sippi is being impeded. Fires along the Tallahatchie are supposed to be the cause. Terrible fires are raging on Haney island and Kilby lake and much damage from forest fires is propried in southern Arkaness fires is reported in southern Arkansas.

AN EXTRAORDINARY WEEK

Omaha business has been unusually brisk. Wholesalers and retailers say their business is from 25 to 50 per cent greater than it was at this time last year. This is healthy, prosperous and substantial. Fur and clothing dealers have been clamoring for cold weather. The first blast blowed down from the north Friday night last. This will insure activity in winter goods. We have had some-a great deal-of glorious weather this fall. This has enabled almost everybody to shape things so as to be prepared for winter blizzards. Those who are now 'out in the cold' armost everybody to snape things so as to be prepared for whiter blizzards. Those who are now out in the cold are to be pittied. A great many people in South Omaha are still living in tents and improvised houses—necessarily so—as it has been simply impossible to build houses fast enough to supply the demand. While this is all so they have have taken the time to "receive" a "few" hogs, cattle and sheep. The official for past week—yesterday esti-mated—makes a total of 3,622 cattle, 37,443 hogs, and 1,837 sheep. "This represents a good many pounds of meat, and "beats the record" for receipts in the new Porkaplis of the world. All the new packing houses are nearing completion, and when ready to buy all that comes the receipts will be somewhat startling. In the even tenure of our way we do not allow little things like this to disturb the peace of our mind, nor do we allow ourselves to become over enthusiastic as to the probabilities of the future. But we are not so blind but what we can see in all this a

It indicates a "progressiveness" that causes timid people to become "rattled." Notwithstanding all this, dealings in dirt have been fairly active. Something About Courier Pigeons.

Major George Settle, of Brooklyn, N. Y. owns the homing cock Albright, the grand mother of "Lady Patterson," a carrier bird owned by Edward Rothery, of this city. Albright is the mother of the fastest carrier known. This bird flew from Steubenville, O., a distance of 343 miles, in six hours and thirteen minates, or at the continuous rate of nearly a mile a minute. Mr. Rothery gave "Lady Patterson" a trial fly one day last week, and was much pleased at her unerring flight and good action. A homing club, in which County Attorney Simeral and Lee Es-telle will take much interest, is to be organ-ized here next spring. In view of this club, Mr. Patterson owner of many fine birds Mr. Patterson, owner of many fine birds writes the Brz from New York with refer

ence to homing pigeons: "Every homing pigeon bred is registered Together with a pedigree, owner of mother and father, and their pedigree. This information goes to the secretary of the association for the breeding of homing pigeons. Every owner of birds is known by a number registered with the secretary. If a a number registered with the secretary. If a strange pigeon should stray in here or one get shot, upon seeing the pigeon I would im-mediately write to the secretary giving the number found upon the bird. He could in-stantly tell who the owner was, and he would be informed of what had happened his bird. All owners purchase little seamless metal bands of the association. These bands bear the owner's registered number and are placed upon the leg of the pigeon two or three days after they are hatched out. It is three days after they are hatched out. It is by these bands we know to whom a carrier belongs if a strange one chances to fall in our hands. I think the lovers of sport in Omaha will derive much pleasure and benefit from a homing club. The flying of pigeons is very popular here in New York, and in fact throughout all the eastern cities. Mr. Rothery's birds are from the best strain in the world."

weather has been closely bordering on a bliz-zard. The cold was severe and the wind very high. The telegraph has been working badly all day. New York Anti-Saloon Republicans

NEW YORK, Nov. 19 .- The New York state anti-saloon republican league has issued at address to republicans of the state, calling upon all who are interested in the movement to place the party in the state on a platform of open opposition to the saloon, to meet with the league in conference at Syracuse, Decem ber 15 and 16. The call declares that the late election demonstrated that the liquor interest rallied its entire force against the republican candidates; that the republican party, there-fore, has nothing to lose by taking an open stand against liquor, and asserts it has much

to gain, as evidenced in the results achieved by the republicans in Pennsylvania. The Death Record.
