Delivered by carrier in any part of the city at H. W THATON, Manager, Manager, TELEPHONES: BUSINESS OFTICE, NO. 43, NIGHT EDITOR NO. 33.

#### MINOR MENTION.

N. Y. Plumbing Co. Reiter, tailor, Fall goods cheap. See Chapman's pictures for Christmas. The district court resumes Monday morning.

The Pacific Mutual Telegraph comany will soon open its office at No. 502 Broadway.

The city council meets Monday night to consider different matters of importance to the city.

The "Great Wrong" party were en-tertained at the Creston house and Bechtele hotel. extended. The new fire department building on

upper Broadway has been supplied with fire alarm connections.

The Union elevator received Friday double the amount of corn received on any other day since March last. As the witnesses against F. Miller, arrested for disturbing the peace, did

not appear against him yesterday, he was discharged. The Chautauqua Literary society will

hold its regular meeting to-morrow evening at its hall on Main street. The subject for reference will be an interesting one and a full attendance is desired.

In different portions of the stores of H. Eiseman & Co., are displayed the presents which they advertised to give to their trade. The articles exhibited are the very best, and the display is as handsome as a picture.

If some of those who have the decora-tive art on the brain would direct their attention to the rude guy posts to which the cables of the electric light masts are attached a grateful public would weave laurels for the succesful one.

A fire hydrant has been placed upon Pearl street, just opposite the new county court house. This was done, presumably, as a protection to the clock face which is in constant danger of being struck by lightning for its audicity. Complaint is made that dirt is being dumped on Pierce street in such a man-

ner as to interfere with travel and with good prospects for having the street made impassible all winter, as it is liable to freeze in its present condition. Clergymen desiring the benefits of half-fare rates over the Northwestern road for the ensuing year are requested to call upon J. C. Mitcheil, 421 Broadway, who is supplied with permits. Applications should be made before January 1st.

Frank Levine, the tobacconist, has at his cigar store one of the largest collections of rare coins in the west. He has now about six thousand, and the variety is great. He has just got a new and novel cabinet for holding some of his rarest specimens.

On Friday afternoon John Stagg, a brick mason, while at work on a building near the Drover's hotel, slipped and fell to the ground, a distance of about ten feet. He struck upon his head and shoulders and the scalp over the right temple was torn away from the skull. He was taken to J. B. Atkinsdrug store where Dr. Macrae attended him, after which he was taken to his home on Eighth street. Considering all things, his escape from fatal injuries is little less than a miracle.

The police court vesterday was short on news. One solitary appeared before the judge and gave his name as Timothy Quinlan, a tinner from Sioux City. Tim-othy had disobeyed the injunction to take a little wine for his stomach's sake, and had a revised edition which led him to take whisky straight instead. He pleaded guilty and then commenced the sympathy dodge, but Judge Aylesworth has seen the play so often that he was not touched.

The work on the new German Catholic church has been delayed somewhat by the non-arrival of the stained glass from Chicago. So soon as the windows can be put in the work of decorating and finishing the interior will commence and be rushed right along.

A change has been made in the Congregational choir, Mrs. Evans, nee Anna Menkel, is to take the alto in the quartet in place of Mrs. Ward, who has filled the position so acceptably for some time past. It is understood that Mrs. Ward is to take a like place in the Presbyterian church choir.

John A. Finch will hold a Salvation meeting to-day at No. 717 Sixteenth avenue, between Seventh and Eighth streets. All are cordially invited to attend.

A beautiful Processional cross, the exact counterpart of that in use in Trinity church, New York, has been presented to the "Boy choir" of St. Pauls church by the young ladies of the Acme club, an organization which has done noble work in the furnishing of the church. The cross will be used for the first time at service this evening. Preaching in the First Baptist church at 10:30 a.m. and 7:30 p.m. by the pastor. In the evening: "The Man After God's Own Heart." their own language. Elder Mark H. Forscutt, of Omaha, will preach at the Latter Day Saints church this evening at 7:30 o'clock. The public are cordially invited.

For best quality coal and wood, call on Gleason, 26 Pearl street.

#### Shoot the Shooters.

The young boys like the older ones have crazes. Their present one is the annual "nigger shooter" epidemic. The mildness of the initiative stage of the disease has developed beyond the shooting of beans at a stupid target, or into the blue either, and now no boy is satisfied unless his aim is at some brittle target of glass or some living form of flesh and blood. With the development of the craze the ammunition has

actions being suspicious, it was thought the trunks and boxes contained the goods stolen from Fremont. An examination was made yesterday, but the goods proved not to be the ones stolen The trunks and boxes contained clothing, apparently a portion of some stock of goods. The police think they have discovered a plant, and it is thought that the parties who left them

have been frightened away. A Glimpse of China. Last evening an audience of quite respectable dimensions braved the weather to witness the Chinese entertainment at the Baptist church. The programme announced, and which was fully carried out, contained many of the customs of that people which are, viewed

from an American standpoint, unique to say the least. A wedding was presented with all the etcetera which obtains in the actual ceremony; also, a supper which was novel and realistic as well. The entertainment was presented by three natives of the Flowery Kingdom, which assures those who were

there that the various representations were given according to the modes pro vailing in the land of flowers. The affair was a financial success, as more than three hundred tickets were sold before the doors opened.

For an elegant birthday giftor Christmas present, a Domestic sewing machine leads them all.

Rifle Club. Last evening a number of the shots

of the city met and organized a rifle elub. Dr. Seibert was elected president; Broadbeck, vice-president; Chas. Mathias, secretary, and M. F. Rohrer, treasurer. The organization was christened the "Council Bluff's Rifle club." A range will be laid out east of the city near the brick yard, upon which a com-fortable building will be erected. The membership numbers at the start about a dozen which is expected to materially

increase. A meeting will be held in one week to perfect the arrangements of the organization as to the future. Special Sale.

A Case of Straw.

Yesterday the case of the state against William Simpson, of Pleasant township, was tried before Justice Schurz. The complainant is William Overturf, and the charge is malicious mischief. Some weeks ago Overturf lost a stack of straw by fire, and his complaint alleges that Simpson set the fire. He places his loss

at \$25. Simpson was bound over to appear at the next session of the grand jury. Bail in the sum of \$150 was se-cured. William Simpson and Thomas Bowman appearing as sureties. You Want Them.

Judge Deemer arrived in the city yesterday morning. The purpose of his visit was to hear arguments in the case of Crittenden vs. Armor, Barbee & Co. et al. This was tried before him some time ago and the arguments of counsel were deferred until such time as counsel and court could agree upon. One of the attorneys was out of town yesterday and on account of the storm did not return in season to attend to the case. Judge Deemer returned home last evening. He will go to Audubon to-morrow to preside at court now in session there.

There are in the county jail now an even score of prisoners. There is only one woman in the twenty. The revolving cage is as difficult to turn as ever and growing a little worse if anything. The great iron cylinder or cage hangs from the top, and in the settling of the building the bottom crowds on the foun-dation more than it should. There seems no way of remedying the trouble without great expense. The result will probably be that the settling will grad-ually continue, and if so the time will come when the cage will not turn at all. The whole jail will needs be recon-structed. It is understood that those who favor this sort of a revolving jail concede that while it will work all right for a two-story jail, the three-story ones are not liable to be satisfactory.

The county board did not find it very profitable to attempt to cut down Jus-tice Schurz' official fees. 'The suit before Judge Aylesworth secures for the justice all but about \$20 of the fees claimed by him, and in saving this amount the county has an expense for costs of \$75. At this rate the county is a loser by its attempted economy. The judgment is, moreover, a vindication of Justice Schurz, the cutting down of his fee bills by the county attorney being an intimation that he was charging for services never rendered. There are other claims on which suit has been commenced against the county, one being by Marshal Guanella, whose bills had also been chopped to pieces.

With the first of the month the blaze of the electric masts will be turned on the city. The system of lighting the city will then be put to the test, and there is some little anxiety to note the result. There is much confidence felt is the coming light and if the maste in the coming light, and if the masts prove to be wisely located the streets will doubtless be brilliantly lighted. There are many who claim that with the city so well lighted all night there will be no chance for burglars or thugs. Others differ in this, and some of the most experienced police officers claim that the record shows that there are more burglaries on moonlight nights than on dark ones. They account for this by saying that the thieves can see to work better when it is light, and they can watch the officers easier and avoid them more readily by sneaking into shadowy places.
