Wheat Fluctuates in the Morning Within Narrow Limits.

CORN WITNESSES HEAVY SELLING

A Strongly Bullish Session in the Provision Pit-Lattle or No Change in Cattle Prices-General Quotations.

CHICAGO PRODUCE MARKET.

Cuicago, Nov. 20 .- [Special Telegram to the Brn. |-The wheat market was weak this morning. It opened lower than it closed last night and immediately began to drop still further, but later a reaction sent prices above the opening and still later there was a partial loss of this advance and as a result of the morning trading prices at the close were just about the same as at the opening. In May, the most active delivery, the entire fluctuation of the morning amounted to Mc, the other deliveries moving within somewhat narrower limits. December wheat opened at 76c and May at 83c and presently the market sagged until December sold at 75%@75%c, January at 7614c and May at 82%c. These were the lowest prices of the session. As an offset to the bearish foreign news there came reports of the taking of ten boatloads at New York by exporters and a large part of this was said to be for Lisbon. New York exports to that port are not uncommon, but the fact that our wheat was wanted there at this time seemed to give buyers some courage. Occasional buying orders came in from all points and commission houses were said to be buying quite generally for New St. Louis account. The market at neither of those points seemed to show any weakness and the early sellers to show any weakness and the early schere here became buyers, the result being to send prices along up until December sold at 76½c, January at 76½c and May at 83%c. The ex-treme top prices were not long maintained. The most active trading and hardest fight The most active trading and hardest fight was when May wheat stood in the neighbor-hood of 83½c. It rested there for some time, but was hammered down to 825½c and rested at 1 o'clock at 83c. December closed at 1 o'clock at 753c and January at 763c.

There was heavy pulling in corn early, much of it believed to be realizing on grain

bought at considerably lower figures, but a fair amount of it was set down as short sell-ing. The result of this selling was to send prices down about 1/2c for the most active de-liveries. There appeared to be no news affecting values, and the drop was credited to the desire of some heavy operators to re-alize profits, and to the belief of others that after so good an advance a reaction was sure to follow. December and January opened at 46%, May at 51c, and under the free offerings noted December sold down to 46c, January to 464c, and May to 504c. Then an improvement began and continued steadily until December touched 46%c, January 47c and May 51%c, but the outside figures were only

May 513c, but the outside figures were only briefly held, the 1 o'clock closing being at 463c for December, 463c for January and 513c for May.

Outs for May delivery opened on a level with Monday's closing figures. Free realizing sales caused the market to weaken and the decline was not effectually checked until \$201.66361c was not effectually checked until 32½(a:32½c was touched. Then there was a slight reaction and the 1 o'clock close was a pretty firm one at 32½c sellers. Very little was done in near futures. November sold sparingly at 20% and December at 28%, while for January 28% was asked. In provisions the market was strongly bull-ish. The advancing turn experienced was in

fact something of a surprise to a majority of the trade. In sympathy, partly with the im-provement in the cereal lines, but mainly on account of small receipts of hogs, coupled with free buying by a couple of well known shorts the market moved upward in the free est and easiest manner possible. Higher prices appeared to be made almost as a mat-ter of course and with moderate changes and no serious reaction an appreciation over last night's closings was shown at 1 o'clock of 45 @471/c in pork, 10@121/c in lard and 221/2@ 25c in short ribs.

CHICAGO LIVE STOCK.

CHICAGO, Nov. 29 .- [Special Telegram to the BEE.]-CATTLE-As to prices, there seemed little or no change compared with Monday or Friday. If anything the turn was rather upward than otherwise, yet there was no substantial advance, especially on medium and plain natives, of which there were large numbers on sale. Common native butchers' stock and canning cows remain about as low as ever. There was an immense run of Texas cows to-day and yesterday, and as a consequence natives had to be sold as cheap as Texans. The sales of Texas cows below show the low range and the large number disposed of. There is a fair demand for stockers and feeders at about last week's prices. Shipping steers, 1350 to 1500 lbs, \$3.75@4.90; 1200 to 1350 lbs, \$3.25@ 4.30; 950 to 1200 lbs, \$2.10@3.40. Stockers and feeders, \$1.75@2.85; cows, bulls and d, \$1.00@2.80. FINANCIAL.

NEW YORK, Nov. 29.—[Special Telegram to the Ber.]—Stocks—The stock market was very much unsettled. Just before the the close it seemed as if it would turn finally in favor of the bulls, but it weakened at last and went off again on nearly the whole list. Comparing the close with that of yesterday, there is a decline of %@% per cent on such stocks as St. Paul, Northwestern, Lake Shore, Missouri Pacific, Delaware, Lacka-Wanna & Western and New York Central, while the Pacifics and some others maintained an improvement of 3,60% per cent. Western Union, Louisville & Nashville and Omaha closed at yesterday's prices. The market opened feverish, with moderate activity, but fractionally lower, and though there was gallying at times, the general level was kept

down during the morning. There was som support from the bull cliques and commission iouses, while the traders favored low prices. The bears were large sellers to-day, but they were met by large buying on the part of the bulls, and the market gained in strength. The impression became very strong toward the close that the bear party was very largely oversold and must cover at a rise, hence the buying was good. London opened lower today on American securities and continued to decline during the day, the reduction reach-160% per cent on the leading shares. The

total sales were 312,000 shares.

Total...... 6,27 Live Stock Notes. Hogs steady. Fat cattle strong.

A more active cattle market. Dick O'Hanlon, of Blair, was is looking ver the market. Emily Bros., of wisner, sold a good load of ogs at the top price.

M. J. Hughes, of West Point, was among the visitors at the yards. C. D. Ryan, of Jackson, marketed a load of 334-lb hogs at the top price.

St. Clair, the extensive pork packer of Cedar Rapids, Ia., bought five loads of hogs on yesterday's market. Among the visitors at the yards was the Hon. Watson Tyson, of Blair, a well known shipper and politician.

J. H. Holt, of Pickerell, marketed three loads of sheep. It was the first bunch bought in this market by Swift & Co.

Armour has been the heaviest hog buyer so far this week, his purchases for Monday and Puesday amount to nearly 4,000. W. E. McCloud, who has been home for a

week's visit, returned yesterday with eight loads of cattle of his own feeding, from Waco Swift & Co bought their first sheep on this market yesterday. If there is any one thing in this country that is needed more than another it is a sheep market. While it is not expected that one packing house can make a market, the opening of the Swift packing house is a long step in the desired direction. Swift handles the most sheep of any packer in Chicago and it is hoped that he will do correspondingly large business here.

The recent advance in the price of coal is due to two facts. First, an increase in demand. The west is becoming settled very rapidly and the demand for coal has increased one-third in two years, Second, a failure on the part of railroads to provide cars in which to ship coal. A BEE reporter was informed yesterday that orders sent in last June were not yet filled on this account.
