

THE DAILY BEE.

PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION. Daily Morning Edition including Sunday...

THE BEE PUBLISHING COMPANY, PROPRIETORS. E. ROSEWATER, EDITOR.

Sworn Statement of Circulation. State of Nebraska, County of Douglas, s. s. Geo. B. Tzschuck, secretary of the Bee Publishing Company...

Sworn to and subscribed in my presence this 13th day of December, A. D. 1887. N. P. FEIL, Notary Public.

THE old chestnut concerning the resignation of United States Marshal Bierbower is again on its legs.

HIGGINS confesses that he is going. His political life is pretty thick but the shafts of public disfavor to which he has been subjected seem to have found a vulnerable spot at last.

THE drought in some parts of the country, it is said, will exterminate the chinch bug. If true, this will be something of a compensating element to the farmers living in the "dry belt."

A NEW county has been formed in Nebraska. It is to be known as Perkins county. If named after Perkins, the railway manager, there is something appropriate in it.

THE wooden arch on Farnam and Sixteenth was ordered to be taken down by the council over a week ago. It is false economy to leave it until it blows down.

Now look for an exodus into Canada of New York politicians. The legislature of that state is to appoint a committee to inquire how much money was paid by candidates for judicial position as "assessments" to political parties.

THE Chicago & Alton railroad made a commendable break in determining to lower the rates on lumber as well as other freight to the Missouri river.

THE high license law works well in Pennsylvania as elsewhere. In Philadelphia its effects are almost prohibitory. Liquor dealers are experiencing no end of trouble in finding bondsmen and the falling off in the number of saloons is unprecedented.

EX-COMMISSIONER SPARKS in his letter to the president claimed that Lamar's decision overruling his own in the Omaha railroad grant would, if adhered to, give the railroad companies millions of acres which might otherwise go to the public.

SUCH an inquiry into the present condition of the civil service as Senator Hale proposes in his resolution, offered in the senate last Monday, would undoubtedly produce some highly interesting disclosures.

THE Nebraska City Times was assaulted by Ed Corrigan, a horseman and general sport of Kansas City, a few days since. A month or so ago Corrigan brutally attacked the sporting editor of the Times, and the injuries received almost resulted in the death of the Times' employe.

GENERAL VAN WYCK'S views. Ex-Senator Van Wyck, who was unquestionably defeated in his candidacy for re-election to the senate by the influence of corporate power, was recently interviewed in Washington by the New York Times.

THE editor-in-chief of the Kansas City Times, Dr. Munford, was assaulted by Ed Corrigan, a horseman and general sport of Kansas City, a few days since.

THE Nebraska City Times was assaulted by Ed Corrigan, a horseman and general sport of Kansas City, a few days since.

Postal Telegraphy.

Both Senators Edmunds and Callom have postal telegraph bills before the senate. That of the former is the same that he introduced at the last session.

There are several respects in which this measure will need to be modified, but a discussion of them is not urgent at present.

By proclamation of Governor Thayer South Omaha has been declared a city of the second class, subject to the legal requirements and obligations governing such cities.

THE difficulties that confront Mr. Carlisle in the matter of constructing the standing committees of the new house are numerous and embarrassing.

THE Duluth, Denver & Huron railroad company have graded the road within thirty-two miles of Watertown.

THE erection of several new brick blocks at Hermosa to take the place of those destroyed by fire is already contemplated.

THE REVEREND SWINDLER.

More Facts About Mr. Brown, Otherwise Servis, the Forger. HOW PINKERTON RAN HIM DOWN. He Proves to Be the Same Crook Who Beat the First National Bank of Chicago Out of \$6,500.

Servis the Swindler. The Bee of yesterday contained the news of the arrest of the "Rev. D. B. Browns," otherwise Edwin C. Servis, for his swindling operations in Central City, this state, where he defrauded the First National bank out of \$1,500 by means of a forged check.

THE GREAT DEMAND.

Interested Information. Wanted, a Miner's Lamp—Also a Railroad Contractor—A Safe Place to Invest Money in Real Estate.

I have constant requests to find out who makes the best lamps, and I have been asked to repeat request that my readers, gentle or turbulent, avail themselves of my good office and acquaintances in bringing them in contact with those who make and sell anything from the proverbial needle to the antithetical diamond.

Several years ago, if you remember, I found the "pretty and sensible" mistress of the West, who had just started to make money, and on consultation with a physician I found that I had caught a cold, which was not only a very unpleasant disease, uncomfortable and disgusting, and doubly dangerous because so insidious, and having access to the general system, and the mucus membranes of the nose and throat.

Having been thus permanently benefited, I would like to say that I have since then treated many others of the same kind, and I will always in the future doubly appreciate the meaning of the words "a cold cured," as being the best and most liberal. The old adage, "Money saved is money earned," is a sound motto in a clear head.

THE treatment of catarrh, lung trouble, asthma, cough, and other ailments, is a very delicate matter, and one that requires the most careful attention. It is not only a matter of health, but of life, and it is one that should be treated with the most skillful hands.

THE treatment of catarrh, lung trouble, asthma, cough, and other ailments, is a very delicate matter, and one that requires the most careful attention. It is not only a matter of health, but of life, and it is one that should be treated with the most skillful hands.
