

THE BEET SUGAR FACTORY.

Rival Real Estate Owners Anxious to Secure the Location.

THE PROPOSED BELT LINE.

Lincoln Capitalists Making Preparations For Construction—Contractor Fitzgerald Has an Interesting Law Suit—The Waterloo Case.

FROM THE BEE'S LINCOLN BUREAU. Messrs. A. J. Levalle and N. B. Booth, of Chicago, the gentlemen who have been in correspondence with Lincoln parties relative to a beet sugar manufacturing plant, are in the city. The gentlemen came upon a telegram from General McBride, who has been actively at work to secure this plant for Lincoln, and negotiations are now in progress. It has developed that the project is not as anxious to secure the plant. W. H. B. Stout, Messrs. McBride and Melone and other land owners south of the city in the vicinity of the penitentiary are anxious to get the plant for that locality. The Touzalin interest at the platted town of Havelock, six miles east of the city, is in active competition for the plant, and West Lincoln is also considered a competitor. Some of the parties interested in the competition have suggested that each locality prepare and submit its proposition, allowing the projectors of the enterprise to state which they will select, and then whatever extra assistance would be necessary to secure the plant could be obtained from capitalists in the city who wish to help but are not directly interested in the project of location. Legal matters in regard to the proposed location, and they were working on a project to this end yesterday. One question of the board of the localities named receiving houses and crushers be located and from them the liquid be piped to the central factory in the heart of the city, where the reducing and refining would be done. Mr. Levalle, who has had practical experience and work in a beet sugar factory in Canada, found that it was unprofitable to depend wholly upon farmers to supply the crude material; that in the growing of the beets, their care and harvest, it required more capital than the planters for the present plant, therefore, contemplates the growing to a great extent of the crop necessary by the syndicate, and for this reason, the projectors of the formation of the company, at least two or three thousand acres of ground located as closely as possible to the plant, and the property tended to put in a plant that will employ the year around from three to six hundred families, and that will represent a capital of from \$200,000 to \$1,000,000. In the introductory proposition the projectors asked of the citizens of Lincoln that they take one-fifth of the stock in the enterprise, that should be furnished in lands and in the very general opinion that a more liberal proposition for a plant of this extent could not be expected from any source.

THE BELT LINE PROJECT.

Active measures are being adopted again in the proposed belt line around the city, and John C. Bonnell, one of the capitalistic energetic realtors in pushing things. H. D. Perky, who, a short time ago, laid before Lincoln business men and capitalists his proposed street car works, arrived in the city Wednesday and is taking an active part in bringing both the question of the belt line and car works to a favorable solution. Yesterday Mr. Bonnell, Mr. Perky, Mr. Ryan and Mr. Atkinson went over a portion of the proposed line, and Mr. Perky has given out that whatever is done in relation to the belt line and the car works must be done quickly. Mr. Bonnell yesterday stated that the city was practically certain of securing both the line and the car works, and he felt equally as confident in regard to the beet sugar plant that, located on the belt line, would be one of the immediate sources of revenue in the way of transportation. The surveyed line for this circle road runs in close proximity to the state hospital for the insane, to the state penitentiary, to the new Wesleyan university under course of construction, and to the state fair grounds. To owners of suburban property the road means more than to any one else, and they will exertly have the opportunity in a very short time to show just how badly they want it.

AN INTERESTING CASE.

For the past two days an interesting case has been on trial in district court entitled M. Osborne vs John Fitzgerald. The matter in controversy is the profits resulting from the construction of the Kenasaw cut off on the B. & M. railroad. Mr. Fitzgerald was the contractor and his claim is that Osborne was employed in the work on a salary. Osborne on the other hand, claims that he was a partner in the work and that under the agreement he was to receive a fourth of the profits. These profits, Osborne claims, amounted to \$120,000, but the testimony of the defense was that the profits were but \$67,000. Judge Field who heard the case, took it under advisement.

AN INTERESTING CASE.

There is an interesting byplay brought to mind by this case that will be remembered by a good many people in the city of Omaha. About six months before this cut off was contracted for, citizens of Plattsmouth, Syracuse, Beatrice and Fairbury discussed and organized and had incorporated the Plattsmouth & Southwestern railroad to run in a southwesterly direction from Plattsmouth to Avoca in this county, Saratoga, Otoe county, and on to Beatrice and a terminus at Fairbury. Mr. Fitzgerald joined the new corporation and from his long experience in railroad work, was appointed president of the new company. Several meetings of consultation were held by the incorporators, an assessment for the opening expenses was made, and the feasibility of the road was discussed and so very favorably commented upon that, with Mr. Fitzgerald at the head it looked as though it would actually be built. But at this particular juncture the Burlington, which was antagonized by the proposed road, came to the front, and the projectors of the Plattsmouth & Southwestern availed themselves to find that the president of their company had just discovered an extensive contract from the B. & M. The contract was for building the Kenasaw cut off, and from that day to this the Plattsmouth & Southwestern has existed on an unsteady basis. The board of transportation were in session yesterday agreeing upon the findings in the Waterloo case, in which parties there complain that the Union Pacific, in erecting an earth embankment in place of a trestle at the approach to the bridge, have caused the river to high water to back over the country to the great damage of many land property owners. The board find that the complaint is just and that the people are entitled to the relief and their findings cover an order that the Union Pacific, in refusing to accede to findings heretofore, had no ground for their refusal and that the complainants are entitled under the facts to a verdict.

CITY BRIEVITIES.

The bond election moved along very quietly through the new building for the hour. A very light vote vote was being cast. The opposition to the bonds did not crop out to any extent and there were no workers at the polls with anti-bond tickets. The projectors of the road had a lingering suspicion through the day that the B. & M. was liable to fall upon them and an effort was made by them to get a vote large enough so it could be overcome at the eleventh hour.

POWER OF ATTORNEY.

The Widow of S. P. Rounds Selects a Son-in-Law.

Yesterday afternoon an important legal instrument was filed at the office of the county clerk. It was the vesting of power of attorney with Charles H. Smith, by Mrs. S. P. Rounds, wife of the deceased proprietor of the Republican. Mr. Smith is a son-in-law of Mrs. Rounds and his residence is in Denver, where he conducts the American house. The document is signed by Mrs. Rounds, with S. P. Rounds, Jr., as witness and bears the attest of Nellie K. Brown, notary public. Mr. Smith is a resident of Denver, with power to attend to any and all business transactions for her, or in which she may be interested, to collect insurance money which is or may be due her upon the life of the deceased; also to sign her name to any receipt or paper in relation thereto, and to sell, control or dispose of in any manner any real estate, stock or property or any land lot or other property which she may own or have any interest in.

CHRISTMAS AT CREGGINGTON COLLEGE.

On Christmas eve, at Creggington college, there will be a solemn high mass at Creggington college. The reverend rector, M. P. Downing, will be celebrated; Rev. Francis Hillman, deacon; Rev. Mr. Mara, sub-deacon. On that occasion the Acolythical society, thirty-five in number, lately reorganized by Prof. John J. Donohue, will make their first public appearance. Some disappointment has been felt that St. John's Collegiate church was not ready for Christmas, as was originally intended, but the tardiness of contractors had long since put that hope beyond fulfillment. The church will certainly be ready, however, before Easter. Mrs. Burkhardt, assisted by her children, will sing the Christmas carols, the music at the high mass. Other masses will be said at 6 and 7:30 o'clock on Christmas morning.

ONE MORE CHANCE. The unseasonable warm weather has left a few more Overcoats on our hands than we desire to carry over into the new year, and in order to sell them right now, we have cut the prices all to pieces. Commencing to-morrow we will offer our very finest Overcoats at prices heretofore asked for medium qualities. The biggest cut we will make on our fur and plush trimmed goods. There are not many of them, but we have a few very fine garments trimmed with good fur and silk plush. We want to make a sweep with these goods and close them out before we take stock. We invite those who have so far managed to get along with their old or light weight Overcoats, and whom the open winter has kept back from buying a heavy one, to inspect these garments. They will be surprised to see how little money it takes now to procure such an elegant Overcoat. This is really a grand opportunity and the last chance this season.

In Men's Dress and Business Suits we have a beautiful stock--the largest in the city--and our prices are known to be by far the cheapest. Many fine suits have been marked away down in order to reduce stock and we will save you fully 25 per cent--if not more--on every suit.

The big trade we have had in Boys' Overcoats last week has broken up the sizes of several lots, but we still have a fair assortment. The prices are such that we expect them to be cleaned out soon.

Our Hat Department is known to offer better hats for less money than any regular hat house in the city. The fine Fur Derby's which we are selling for one dollar have made a name for us. No other house sells a hat of equal quality for less than \$2 or \$2.50. We have received several new styles for the holidays. Our finest hats at \$2.50, \$3 and \$3.25 cannot be bought at any other house for less than \$3.50, \$4 and \$5. We offer in this department a splendid line of Fur Caps at just one-half their regular retail prices.

The beautiful and artistic display of Men's Furnishings in our large windows will give an idea of the variety of goods we have and the prices we ask. We invite those who are puzzled with the all-aborning question, "What to give," to look at our window and they will see what we can offer in the way of presents for gentlemen. Sensible and thoughtful men prefer and enjoy substantial Christmas gifts of this nature. There is a satisfaction in giving or receiving a present that one can be seen wearing, a gift that combines utility and beauty, and nowhere else can you get such goods so cheap. Our popular system of selling goods at the lowest prices will be continued during the holiday season. We have no fancy prices and those who purchase of us can save enough on each purchase to buy a nice present for themselves.

Beginning Monday we will present visitors at our store with a beautiful holiday souvenir, copies of which are displayed in our windows.
