- SCIENTIFIC -MANUFACTURING OPTICALS GLUCK & WILKINSON

Bill Nye and the Barber.

New York World: To-day I got shaved at a barber shop, where I begged the operator to kill me and put me out

of my misery.

I have been accustomed to gentle care and thoughtfulness at home, and my barber handles me with the utmost ten-derness. I was, therefore poorly pre-pared to meet the man who this morn-

pared to meet the man who this morning filled my soul with woe.

I know that I have not deserved this, for while others have berated the poor barber and swore about his bad breath and never-ending clatter and his general heartlessness, I have never said anything that was not filled with child-like trust and hearty good will toward him.

I have called the attention of the public to the fact that sometimes cus-tomers had bad breath and were restless tomers had bad breath and were restless and mean, while being operated on, and then when they are all fixed up nicely they put their hats on and light a cigar and hold up their finger to the weary barber and tell him that they will see him more subsequently.

Now, however, I feel differently.

This barber no doubt had never heard of me. He thought I was as ordinary plug who didn't know anything about luxury.

I shall mark a copy of this paper and send it to him. Then while he is reading it I will step up behind him with a pick handle and kill him. I want him to be reading this when I kill him, because it will assist the coroner in arriving at the immediate cause of his death.

ing at the immediate cause of his death.

The first whiff I took of this man's breath I knew that he was rum's ma-

niac.

He had the jim jams in an advanced stage. Now, I don't object to being shaved by a barber who is socially drunk, but when the mad glitter of the maniac is in his eye and I can see that he is debating the question of whether he will cut my head off and let it drop over the back of the chair or choke me

over the back of the chair or choke me to death with a lather brush, it makes me nervous and fidgetty. He honed his razor on his breath, in fact.

This man made up his mind three times that he would kill me, and some

one came in just in time to save me.

His chair was near the window, and
there was a hole in the blind, so that
when he was shaving the off side of my face he would turn my head over in such a position that I could look up into the middle of the sun. My attention had never before been called to the appearance of the sun as it looks to the naked eye, and I was a good deal surprised. The more I looked into the very cen-The more I looked into the very center of the great orb of day the more I was filled with wonder at the might and power that could create it. I began to pine for death immediately, so that I could be far away among the heavenly bodies, and in a land where no barber with the delerium triangles can ever

with the delerium triangles can ever enter.

The barber held my heard down so that the sun could shine into my darkened understanding, until I felt that my brain had melted and was floating around and was swashing about in my skull like warm butter.

His hand was unsteady, too. I lost faith in him at the start, when he cut off a mole under my chin. I did not care especially for the mole, and did not need it much, but at the same time I had not decided to take it off till it got warmer. In fact, I had worn it so long that I had become attached to it. It had also become attached to me. That is why I could not restrain my tears when the barber cut it off, and then stepped the barber cut it off, and then stepped back to the other end of the room to see how I looked without it.

Cashington, the millionaire,

Cashington, the inflomatre,
Married a lady far from fair;
But when smiles lit up her face
You forgot her want of grace.
SOZODONT gave brilliant teeth,
These won her a bridal wreath.

General Dan Sickles. I have just enjoyed an hour's chat with a veteran one-legged hero of the war, who is always an object of interest to New Yorkers, writes John Swinton. General Dan Sickles left his right pillar on the battle-field of Gettysburg, a quarter of a century ago. As you look at General Sickles it is hard to believe that in three years he will reach the that in three years he will reach the age of three score and ten. In his frame he is truly a "stalwart of the stalwarts." He is of great girth in the body and chest, and his arms look as though he could wield the hammer of Thor. He nas a massive head, strong features, a dark complexion, and an energetic expression which is increased by the fire of his dark eyes. His thick head of hair and heavy mustache retain their pristine hue, and seem even darker than they were in his younger years, but whether this is owing to the influence of art or the generosity of nature it would take an experienced observer to

lively veteran of politics and war was in the New York legislature, and during the bitter debate upon slavery that pre-ceded secession he was a leader of the democracy in congress. His career as a volunteer officer in the service of the volunteer officer in the service of the union, from the tima he raised his renowed brigade until the day he was maimed for life, and through the battles that were fought between the Chickahominy and Gettysburg, was distinguished by the same vehemence and tenacity that he had previously displayed in volution and that were supported. played in politics, and that were subsequently displayed in another field, about which less is known by his countrymen. It was of this latter—and especially of his successful efforts at Madrid when he was American minister to the short-lived Spanish republic (1869-74) to bring about the abolition of negro slavery in the Spanish West Indies,—that he took occasion to speak. I know that there are documents upon this subject in the state department at Washington, from which one of the most striking chapters in our diplomatte annals could be written; and it is to be hoped that the chapter, which would bring to light a remarkable but obscure episode in the stormy career of General Sickles, will not remain unwritten till his life has ended. It is not too much to say that it was by General Sickles' pressure upon the voluble but wavering Presi-dent Castelar that the abolition of slavery in Porto Rico was brought about, and it is too much to say that it was under the same pressure that the law providing for gradual emancipation in Cuba, which is now being carried out, was promulgated. Furthermore, if General Sickles had been able to secure the desired co-operation at Washington, the "Gem of the Antilles" woeld long ago have been under the American flag General Sickles is a man of fortune by inheritance, and knows how to enjoy life in the fashionable circles of New York. Like General Sherman, he is a favorite on festive occasions and ranks among the best after dinner speakers in the city. As politician, soldier, diplo-matist, and emancipaton, he has played

his part these many long years among the important actors of our changeful Neuralgia, rheumatism, erysipelas, sore throat, toothache, and all other pains and aches are promptly cured by Salva-

Coughing Clara-Comely, charming Clarissa Clendenning, carelessly catching cold; creeping chills came; Clara coughed continually; cruel, croupy cough, that would have killed her, had she not used Dr. Bull's Cough Syrup, costing 25c.
