

NEBRASKANS IN WASHINGTON.

Position of Senators Manderson and Paddock on the Tariff.

FAVOR A REASONABLE REDUCTION

Inventor McLaughlin at the Capital General Hatch's Good Words For Colored Troops—The Wants of the Omahas.

Our Senators.

WASHINGTON, Bureau of the Omaha Bee, 515 FOURTEENTH STREET, WASHINGTON, D. C., Jan. 7.—Senator Manderson and wife arrived on Thursday evening after a hard trip from Omaha and have taken up their quarters in the Portland flats in the rooms immediately adjoining those occupied by Senator Paddock and his family.

NEBRASKA'S SENATORS ON THE TARIFF.

Both Senators Manderson and Paddock occupy a neutral ground upon the question of tariff reduction. While each are in favor of the position of the republican party on the question of the maintenance of the protection principle, both believe in a reduction of taxation through a reform of the tariff and of the internal revenue system. It can be safely stated of the entire Nebraska delegation, that at the present session they will be found favoring such a reduction in the existing taxes as in their opinion can be secured without endangering American industries and such a distribution of labor as will secure the greatest possible employment at fair wages, to the greatest number of American working-men and mechanics.

TO REMEMBRANCE THE STATES.

Senator Paddock has drafted, and will introduce at an early day, a bill to reimburse the states for the land located by military bounty warrants. This measure was offered by the senator when in congress some years since, and at that time he made a fight for it, which barely failed of success. Its passage would mean many thousand dollars in the treasury of the state of Nebraska.

THE SCIENTIFIC INVENTIONS.

Mr. McLaughlin, of Omaha, the inventor of the chemical process for heating cars, furnishing power for electric lights therein and power for motors on street railway cars, has been in the city for several days with a view to perfecting his invention and bringing it to the attention of prominent capitalists who are in the habit of investing in noteworthy and promising patents. Now that McLaughlin has been fully protected by patents, he talks freely of its construction and application. Since his trip east he has had offers from several wealthy capitalists to take up the invention and apply it to actual use, but has so far declined to part with the controlling interest in his stock. He leaves tomorrow for Pullman, Ill., where he has an appointment to meet the representatives of the Pullman company.

HATCH ON THE COLORED TROOPS.

General Edward Hatch, of the Ninth cavalry, commander of Fort Robinson, has been for several days past in the city visiting old acquaintances and endeavoring to secure additional appropriations from the quartermaster for conducting the improvements at his post. He has been accompanied by his daughter, Miss Jessie and Miss Annie Fitch, of Omaha. They leave on Sunday evening for the west. General Hatch is a strong and persistent defender of the colored troops in the regular army. He never allows an opportunity to pass without praising their value in action and their many admirable qualities

as garrisoned soldiers. In reference to the only colored officer in the army, Lieutenant Alexander, of the Ninth cavalry, now assigned to duty at his post, General Hatch spoke in high terms of him as an educated gentleman and an excellent soldier.

ARMY PEOPLE.

Lieutenant Charles W. Taylor, of the Ninth cavalry, and bride, arrived last night in the city and they are stopping at the Abbott.

Mrs. General Hawkins, late of Omaha, has been for the past week in the city and will leave in a few days for Boston. Her husband, in Boston, where his station will be for the next four years. General Hawkins is the most enthusiastic advocate of Omaha and its interests in the entire army. He says that he has had good reasons to be so from having, nearly twelve years ago, pinned his faith on Omaha real estate from which he has handsomely profited.

Captain Richard Barnett, assistant surgeon, is relieved from duty in the Division of the Atlantic to take effect at the expiration of his present sick leave of absence, and ordered then to report for duty at Fort Riley, Kan.

Major Frank M. Cox, paymaster, is relieved from duty in the Department of Artillery, and ordered to report for duty at San Francisco.

Major Daniel R. Larned is relieved from duty in the Department of California and ordered to duty in the paymaster general's office.

Captain Lewis S. Jesson, assistant surgeon, is relieved from duty in the Department of the Missouri and as examiner of recruits at Chicago to go to duty as post surgeon at Watervliet arsenal, New York, relieving Captain Henry G. Burton, assistant surgeon.

GUTHRIE'S WOLFE-BE ASSASSIN.

"Bill" Jones, the reckless fellow who fell over the eastern part of the District of Columbia, and who gained fame by attempting to assassinate Guthrie, the slayer of Garfield while the former was being taken to jail on day in the "Black Maria," has been a figure in the police court of Washington ever since. He was placed on trial, charged with assaulting some men in a suburban village, where he was a special policeman. The testimony developed the fact that "Bill" is a regular terror, shooting, slugging and threatening people all about.

THE OMAHA IN WASHINGTON.

A delegation of the Omaha Indians are here to see if they can secure the consent of the Indian office to the payment of the \$70,000 due them in two installments, instead of seven. They would that if the money comes in a lump it would be of some value to them. Senator Anderson will go with them on Monday to see Commissioner Atkins.

THE THEOBALD-CARLISLE CASE.

WASHINGTON, Jan. 7.—The committee on elections, after a brief positive manner, postponed the Theobald-Carlisle contested election case until next Saturday in order to give Carlisle an opportunity to make a formal reply, if he chose, to the affidavits submitted by the contestant. The following letter was laid before the house committee on elections to-day:

Hon. F. C. Crisp, Chairman of the Committee on Elections: I learn from the proceedings of your committee that an application has been made by counsel for the contestant to reopen the case and allow additional testimony to be taken, and as I have had time only to glance hastily at the affidavits filed in support of this request, I beg to advise you that it would be proper not to decide the matter finally until I can have a reasonable opportunity to examine the papers, and, if necessary, file affidavits. So far as the affidavits charge or intimate any improper conduct upon my part in reference to the election, either before or after it was held, I am ready now to contradict in the most positive manner by my own affidavit. But there are other things in the papers of which I cannot avowedly speak, and which, if left unexamined, might produce an erroneous impression upon the minds of the committee. Please present this note to the committee. I will of course be entirely satisfied with any course the committee may choose to take, but it seems to me under the circumstances that I ought to have an opportunity to carefully examine the papers and take such steps as may be thought proper before the application now pending is disposed of.

(Signed) J. G. CARLISLE.

WILL GO TO THE SENATE MONDAY.

WASHINGTON, Jan. 7.—The nomination of General E. S. Bragg as minister to Mexico will go to the senate Monday, and also that of L. M. Stockstill as commissioner of the general land office, vice Sparks.

DIED IN A DIVE.

A Married Man Ends His Life With Landmin in St. Joseph.

St. Joseph, Mo., Jan. 7.—[Special Telegram to the Bee.]—Daniel M. Yale, a resident of Peoria, took landmin and died in a colored house of prostitution at the corner of Second and Jule streets this morning at 8 o'clock. The evidence before the coroner's jury showed that Yale came to St. Joseph from Kansas City about a week ago, where he had been visiting his brother-in-law, N. M. Cockrell, of No. 2300 Jefferson street, with \$100 in his pockets and that he had been on a protracted spree ever since Wednesday.

He died with a barkeeper and deposited his money with a girl while in an intoxicated condition and visited this house of prostitution followed by Frank Jackson, a colored man, who confessed to buying the landmin for him. The dose was taken about 3 o'clock yesterday afternoon and a physician was summoned until 5 o'clock, when it was too late. Gates rapidly grew weaker until this morning when he died.

Frank Jackson, the colored man whom it was proved purchased the landmin, and Kitty Johnson, the girl who roomed with him, were arrested to await the action of the grand jury. Gates is a man of considerable wealth and his sister and brother-in-law, who had been telegraphed for from Kansas City, testified that he was not addicted to drink. He has a wife and child living near Peoria, who have been informed by telegraph of his death.

THREE MINS. KILLED.

MARQUETTE, Mich., Jan. 7.—Three men were killed in the Champion mine in this county by the accidental dumping of the skip in which they were riding to the surface. Their names were: John Casey, Carl Johnson and W. H. Craddock. Two men escaped by jumping.

Curious Freaks of an Insane Man.

HARVARD, Neb., Jan. 7.—[Special to the Bee.]—Robert Ayers, a farmer of Lewis precinct, is detained here awaiting trial by the commission of insanity. For some time past Ayers has been developing queer propensities, among them the habit of slipping from the house after dark and going through the manual of arms bare-footed in the snow. On Wednesday last Mrs. Ayers, becoming alarmed at his actions, appealed to Byron Dunn, their nearest neighbor. Dunn persuaded Ayers to accompany him to town Wednesday forenoon, and while he was in consultation with Dr. Howard concerning the case, his charge managed to slip out of sight. Mr. Dunn at once notified the marshal and a search was instituted. Meanwhile Ayers in wandering about town happened into the opera house, in which the members of a traveling theatrical company were rehearsing, and making his way to the stage he seized a property sword lying at hand and began a series of most extraordinary evolutions, making the doors open to the actors. Finishing his drill he announced a rope walking exhibition, and began clambering up the light flies at the side of the stage. Ayers, a large, heavy man, but in some unaccountable manner he managed to climb up the frail frame of light boards, and in a few moments he was perched upon the top of the fly, however, than it gave way beneath his bulk and he was precipitated with considerable violence through independent convolutions, when a political party has nominated men acceptable to them.

The officers elected for the year 1888 are as follows:

President—W. M. Gray, Valley county; vice president, Allen Root, Douglas county; secretary and treasurer, Burrows, Gage county; executive committee, John H. Powers, Hall county; Allen Root, Douglas county; B. F. Allen, Cass county; E. J. Sherman, Wayne county; C. W. Potter, Brown county; state lecturer, J. Burrows, Gage county.

A Nebraskaan Overcome By Gas.

NEW YORK, Jan. 7.—John Ross, twenty-five years old, a guest at the Stevens house, No. 23 Broadway, was overcome by gas this morning in his room and was removed to the Chambers street hospital. Ross hails from Nebraska.

A Crooked Attorney Captured.

ST. LOUIS, Mo., Jan. 7.—[Special Telegram to the Bee.]—About a year ago H. R. Porter, who claimed to be an attorney and real estate agent, suddenly left the city. The reason of his sudden departure is now known. He was the agent here of one J. E. D. Porter, an eastern man who owns considerable land in this county. He sent Porter \$200 with which to pay a mortgage on a tract of land in this county. Porter pocketed the money and left the city. He went to a neighborhood where he remained until a few weeks ago, when he went down into southern Iowa. Sheriff Magee learned of his whereabouts and yesterday arrested him. The Sheriff and Porter will arrive in the city to-night or to-morrow.

Four Permits Granted.

ST. LOUIS, Mo., Jan. 7.—[Special Telegram to the Bee.]—The question of granting permits to sell liquor for medical and

saving anything but their night clothes. The loss on the building amounts to \$7,000. The insurance is held by the Farmers on the floor and feed store is \$1,500 no insurance. The fire is supposed to be the work of an incendiary, as the old Commercial has caught fire but a dozen times within as many months.

State Farmers' Alliance.

COLUMBUS, Neb., Jan. 7.—[Special to the Bee.]—The annual meeting of the state Farmers' alliance was held here, beginning Wednesday, January 4, and lasting two days. Delegates were present from twenty-one counties, and they were an exceptionally able and intelligent body of men, representing the very best class of Nebraska farmers. A large amount of routine work was accomplished, as well as some important new measures adopted for the welfare of the alliance. Among these was the appointment of an able committee to investigate the whole subject of farmers' mutual insurance companies, including their relations to the state laws, and report a feasible plan for the formation of such associations in counties which may be unable to organize in them.

The subject of co-operation, buying and selling was thoroughly discussed, and the executive committee was instructed to appoint a committee to draft a despatch pointing out the Alliance does not already have them.

Several county Alliances having turned their organizations into quasi political bodies during the last campaign, the relations of the Alliance to politics were fully considered and the following resolution, authoritatively declaring what those relations are, was adopted, with only one dissenting vote:

Resolved, That the remedy for the evils now in our financial system and our ineffectual industrial organizations, and who are known to be honest and reliable men. But the Alliance is a non-partisan society, educational in its character, and its doors are open to members of all parties, without any political test whatever, as provided in the constitution, and its political influence must be exercised through other organizations.

Provided, That this resolution is not to be construed to prohibit members of the Alliance from placing candidates in nomination through independent convolutions, when a political party has nominated men acceptable to them.

WON AND LOST ON THE TURF.

New York World: It is surprising to note the amount of money won and lost on the turf in purses and in the pool-box in a single season. A gentleman in this city who is struck on running races, and who keeps track of the winnings of all the leading horses, furnishes the following: Imported Glenlogie, of the Elmendorf stud, heads the list of winning stakes for the present racing season, \$110,000 to his credit, and Hindoo, of the Runymede stud, comes next with \$100,000, and Longfellow third with \$82,000. Glenlogie's largest winners are Firenze, \$24,000; Los Angeles, \$22,000, and Dry Monopoly, \$17,000. Hindoo's are: Hovey, \$88,000, and Jim Gore, \$5,000. The heaviest winners to the credit of Longfellow are Linden, \$17,000; The Bard, \$16,000, and Kaloohai, \$11,000. The largest winning two-year-old of the season is Emperor of Norfolk, he having won \$33,000. Dwyer Bros' stable is first and Lucky Baldwin's second in the list of winning stables. More money changes hands through the medium of the pool-box during the season than is won in purses. Pittsburg Phil, who created such a sensation on the race course the past year, is one of the heaviest players the American turf has ever known. The writer saw a letter from Phil last week, and among other things he said: "I've been pretty lucky in Washington, and have won very close to \$20,000. My biggest winnings were \$3,000 on Barnum, \$5,000 on Patriotic, and \$5,500 on Valiant. They broke very bad for me at Baltimore and during the meeting I dropped \$7,000. A great many people wonder how I beat the news. Well, I play the horses on their form. You see a horse at even money to-day. He loses, and the next day there is five to one against him. It may be that he only lost because of a jockey, or some other little incident. I've only played one race a day and watched the rest. I've put a bet down when the horse broke away two or three times, and put as high as \$5,000 on that. Another point is that I play on the idea that a horse is always going to turn. If I lost \$5,000 I usually get \$2,000 to get even, and if I lost that I would double up to get even. I'm going to Florida after I leave Washington and then I'll go to California. I'm going to see a good deal of the country before another season opens."

THE MERCHANTS AND THE STRIKERS.

READING, Pa., Jan. 7.—[Special Telegram to the Bee.]—"Can we afford to carry the miners on our backs?" is the question being seriously considered by every merchant, shoe dealer, grocer and tradesman in Schuylkill county to-day. "During the strike in 1879," said a prominent merchant of Pottersville, "over two hundred firms were either sold out by the sheriff or granted extensions. Out of this number not more than thirty fully recovered from their loss. It is estimated that the losses sustained by merchants exceeded \$800,000. Some lost everything. One man is said to have lost \$50,000 alone. In view of this fact it is believed many merchants will either refuse to lay in a new stock or go out of business. They cannot stand a prolonged strike and do credit business. Should the firms decide to take a stand, and such action is not improbable, many persons are of the opinion that the strike will be short-lived."

ELIUS STEVENS, OF SMITHFIELD, MO., IS AT THE HEAD OF A FAMILY WHICH IS PROBABLY THE LARGEST IN THE COUNTRY. IN THIS FAMILY THERE ARE FIVE GENERATIONS WHICH COMPRISE 319 PERSONS.

A horse at Lynn, Mass., is alleged to have got out of the box stall in which he had been put and to have gone to the blacksmith shop, where his owner found him waiting his turn for a new shoe.
