

THE DAILY BEE.

Published every morning. Terms of subscription. Daily Morning Edition including Sunday...

The Bee Publishing Company, Proprietors. E. ROSEWATER, Editor.

Sworn Statement of Circulation. State of Nebraska, County of Douglas...

Table showing circulation statistics for the Bee Publishing Company from 1887 to 1888.

Sworn to and subscribed to in my presence this 24th day of January, A. D. 1888. N. P. FEIL, Notary Public.

State of Nebraska, County of Douglas, s. s. Geo. H. Tschuck, secretary of The Bee Publishing Company...

The Bee wants no more "poetical" contributions on the blizzard. What we do want is financial contributions to the fund for the benefit of Nebraska's heroic school teachers...

MAYOR BROATCH is to be commended for the prompt and energetic effort he is making to get the municipal household at rights.

AND now the news comes from Philadelphia that prominent republicans here Mr. George W. Childs, of the Public Ledger, in view for a possible candidate for president...

THE citizens of Cincinnati are to be congratulated. The council passed an ordinance reducing the price of gas to one dollar. The company refused to make the reduction...

THE business men of St. Louis have begun a crusade against the Bell telephone monopoly. A petition signed by several hundred prominent business men asks the municipal assembly...

THE Iowa people will stand no more fooling on the part of the railroads discriminating against them. Three hundred manufacturers, farmers and business men, irrespective of politics...

THE formation of a "railroad clearing-house" by the principal railway corporations of the country is now under discussion. This means a gigantic railroad "trust" virtually consolidating all the lines in the United States...

GERMAN telegraph officials, it is claimed, have been instructed to receive no cable messages marked "via Commercial cable." The Commercial cable is an American enterprise...

THE sugar refiners of the Pacific coast and the American planters of the Sandwich Islands are much disturbed over the action of the eastern sugar trust. It was decided by the latter...

THE defeat of Jay Hubbell as a candidate for the nomination to succeed the late Congressman Moffatt in the Eleventh Michigan district, is a result which required more than a hundred ballots to knock him out...

An Appeal in Behalf of Miss Shattuck.

The case of Miss Etta Shattuck, a young Nebraska school teacher, appeals more strongly for sympathy and aid than that of any person who has suffered from the recent blizzard. She was teaching school in Holt county...

The heroism of Miss Freeman and Miss Royce is being acknowledged, but neither one of these young ladies is in the terrible condition of Miss Shattuck. Miss Freeman, who is a very sensible and modest young lady...

THE Blizzards with all his fury struck the eastern states, sending the mercury 20 below. The sympathy that was extended to the wild and windy west will now be shipped back in refrigerators with interest.

THE complete failure of the Panama canal project is now only a matter of months. The refusal of the French government to sanction the issue of lottery bonds in aid of that enterprise...

THE proposed convention with Russia, according to the published text, was even more vigorously objected to by reason of its political provisions than that with Great Britain. Meetings were held in New York and elsewhere to denounce it...

THE failure of the plan for a tidal water level canal across the Isthmus of Panama was predicted from the outset by the leading engineers of our country. For thirty years past the United States has taken a deep interest in suggested projects for opening water communication between the Gulf of Mexico and the Pacific ocean...

THE projected Panama canal will stand in history as one of the most monumental examples of blundering in engineering of modern times. If the results of the unfortunate enterprise were not more far reaching than their effects upon the reputation of the engineer who projected it...

THE necessity of the department to keep up with the rapid growth of the city was urgent. The outlying districts had to be provided with new complements of engines and men. The erection of so many high buildings called for new hook and ladder trucks and improved machinery...

THE other lands than ours. The political activity that naturally precedes the assembling of parliament is manifesting itself in England. The circulars of the party chiefs requesting the early presence of members have been issued...

THE purpose of King John of Abyssinia to move forward in force against the Italians betokens a great degree either of confidence or impatience. He is said to be concentrating his army at Asmara for this purpose. Hitherto the king has been satisfied to mass his troops on the high lands of Abyssinia...

There will be no danger to the ministry from questions of home policy. Sir Michael Hicks-Beach, in a speech at Bristol, favored local government in Ireland and denounced the appointment of political officials for Ireland who are directly responsible to one man. Lord Salisbury has been forced to make concessions to the liberal-unionists on the local government bill...

THE British government did not think favorably of the proposition of Australia to join her in the plan of contributing \$25,000 each for an antarctic expedition, and has refused to engage in the enterprise. But the objection made by the British government, namely, that the amount proposed is too small to be of service, is a very easy one to cure, if Australia wishes. Still, it is not improbable that any increase in the sum devoted to such an expedition would be so much additional money thrown away...

There has been a less warlike tone to European dispatches for the last few days, but military preparations are continued in various quarters. These supply the material upon which those who believe a conflict to be inevitable predicate their faith...

THE military measures proposed in Germany will, if adopted, give the army in time of war an additional force of nearly 700,000 trained men. The cost is estimated at from \$0,000,000 to 100,000,000 marks per year, or an increase in the cost of the army of from \$20,000,000 to \$30,000,000. The present cost of the German army is about \$85,000,000 a year, and to this the new bill will add some \$35,000,000 more, making the entire cost of the army about \$120,000,000 a year...

The present cost of the German army is about \$85,000,000 a year, and to this the new bill will add some \$35,000,000 more, making the entire cost of the army about \$120,000,000 a year...

THE military measures proposed in Germany will, if adopted, give the army in time of war an additional force of nearly 700,000 trained men. The cost is estimated at from \$0,000,000 to 100,000,000 marks per year, or an increase in the cost of the army of from \$20,000,000 to \$30,000,000. The present cost of the German army is about \$85,000,000 a year, and to this the new bill will add some \$35,000,000 more, making the entire cost of the army about \$120,000,000 a year...

There will be no danger to the ministry from questions of home policy. Sir Michael Hicks-Beach, in a speech at Bristol, favored local government in Ireland and denounced the appointment of political officials for Ireland who are directly responsible to one man. Lord Salisbury has been forced to make concessions to the liberal-unionists on the local government bill...

THE British government did not think favorably of the proposition of Australia to join her in the plan of contributing \$25,000 each for an antarctic expedition, and has refused to engage in the enterprise. But the objection made by the British government, namely, that the amount proposed is too small to be of service, is a very easy one to cure, if Australia wishes. Still, it is not improbable that any increase in the sum devoted to such an expedition would be so much additional money thrown away...

There has been a less warlike tone to European dispatches for the last few days, but military preparations are continued in various quarters. These supply the material upon which those who believe a conflict to be inevitable predicate their faith...
