VERY LITTLE INTEREST IN CORN.

The Usual Saturday Business Transacted in the Provision Pit-A Good Demand For Prime Cattle.

CHICAGO PRODUCE MARKET.

CHICAGO, Feb. 4 .- [Special Telegram to the BEE.]-Local traders in wheat had apparently come to the conclusion over night that there was nothing of consequence in yesterday's war scare and before the market opened there were indications of weakness. The first sales of May wheat were at S2c, but all the commission houses appeared to have buying orders and the price soon ran up to 823%c. It was evident that the "country" wanted some of the advantages to be gained by a foreign war and were buying a little wheat to start on. There was good buying for foreign account and for New York. Against all this buying stood "Old Hutch," who had almost unlimited quantities for sale. He not only stopped the advance, but turned the market again almost to the starting point. But the buying continued and the weakness was only tempor ary. The market was strong enough to take all the offerings and the advance with them. The highest point was 82%@82%c and this was followed by a drop to 82¼c, the closing price being 823c. March wheat opened at 76%c and closed nominally at 76%c. A further drop of 4 points in consols follow-ing that of yesterday, a decline of 42% cen-times in French rentes and private advices of weakness in Russian securities tended to confirm the warlike reports received yester day and to discourage short selling, although there were not wanting cables advising that There was nothing in the war scare. There was very little interest taken in the

speculative corn market and trade was light. Hutchinson was selling corn, as he was nearly everything clse on the floor, but what he offered was taken without affecting the market. The entire range of prices was

mater. The entry range of pices was solved at 523_4 or may corn opened at 523_4 or 523_4 or solved at 523_4 or material for an entry There was a fair speculative trade in oats, entirely in the May delivery, but there were only two prices—33c and 323_4 or material for first named price was bid at the close last night and was asked at the close to-day. Hutchinson was a seller of oats, but one commission

nouse bought quite as much as he soid. In provisions trading was largely of the Saturday order. Outside orders of all de-scriptions were limited and with floor traders scriptions were limited and with floor traders there was no particular disposition to do more than settle, cover or provide for some contract they were disinclined to have re-main open or unprotected. The new busi-ness transacted during the day was restricted and without special feature. In the general market, however, the feeling was quite strong, though under comparatively free offerings of lard and short ribs by late speculative buyers prices averaged a little speculative buyers prices averaged a little easier. Still at the adjournment of 'change pork was only 2% and lard and short ribs 2% (35c lower than last night's final quota-tions. May, as usual, was the pivotal de-livery in the business transacted. It sold for mark at \$11,121,021,55 for hard at \$75,700 pork at \$14.473(@14.55, for lard at \$7.873)(@7.35 and for short ribs at \$7.753)(@7.775, for May pork closed at \$14.523)(, lard at \$7.87 bid and short ribs at \$7.75.

CHICAGO LIVE STOCK.

CHICAGO, Feb. 4.- Special Telegram to the BEE.]-CATTLE-The few natives on sale-perhaps 1,000, the remainder being Texans-were sold out at an early hour. The general market closed steady. Many salesmen are of the opinion that fat, not half-fat, cattle will sell higher next week. "Look at the situation," said a level-headed salesman. "Out of an aggregate of about forty-five thousand cattle not over 2,000 have been really fat and of fine quality. Corn is scarce and high, while snow is plenty and cheap and a large majority of the cattle coming to market seem to have been fed on the latter. The demand for prime cattle is good, and the few who have the nerve to fatten their cattle well, even at the present high prices of corn, may prices for them that will pay well for all cost and labor. Last Saturday's market was lower than Friday's and Monday the general market declined sharply on very heavy re-ceipts. Since then then there has been a general recovery and the market closes to day at substantially the same quotations as a week ago on all grades below exporter Good export cattle have been strong all the week and are worth 25c per 100 more than a week and are worth 25c per 100 more than a week ago. Steers, 1350 to 1500 lbs, \$4.50@ 5.00; 1200 to 1350 lbs, \$4.00@4.40; 950 to 1200 lbs, \$3.00@3.75. Stockers and feeders, \$2.00@3.40; cows, bulls and mixed, \$1.95 @3.10; bulk, \$2.15@2.60. Texas cows, \$1.85@ 2.00; steers, \$2.50023.00. Hogs-Trade was dull, the general market closing weak with a decline of 5@10c all around, making a decline of 10@20c in fact. Prime heavy are 25c lower than a week ago ay. The receipts show a large increa last week and had it not been for the to-day sustaining influence of the provision market sustaining influence of the provision market, which had averaged strong, hogs would have had a heavy break in price. Paul and promptly met by the Burlington. There were also indications of reduced rates being made early next week on grain from the west, with such a good outlook for decreased earnings that traders do not feel disposed to buy stocks, and, as a broker put it, "Wall street has them and can keep them; western speculators don't want them." Northwestern broke %, but St. Paul only 14 per cent. The latter showed a wonderful stubbornness that operators are unable to satisfactorily explain. Missouri Pacific broke % per cent. Coalers exhibited decided weakness on the threatened trouble among the Wyoming miners, who want increased wages, which the companies are disposed to grant. Lackawanna broke %, Delaware & Hudson %, Reading % and Western Union 3% per cent. The rest of the list was slow, with unimportant changes. No change occurred dur ing the closing hour, the finish being tame at

atmost the inside figures of the day and week, the sales for the day being \$7,000 shares. GOVERNMENTS-Government bonds were dull but steady.

and prices are higher the close last night being 5c higher than the top of one week ago. Prices during the past few weeks having fluctuated some, owing to variations in the Chicago markets, but it is believed by many that the market will improve from now on.

Cattle. Cattle. The receipts of cattle were light but there was some very fine stock among the offerings, there being six loads of prime corn-fed native steers for which \$4.65 was bid and refused, and they were shipped to Chicago. Buyers on this market have for some time com-plained of the inferior grades of cattle offered and when first-class stock is offered they de-cline to pay decent prices. If good fat cattle are desired this policy will have to be changed. Prices on the other grades were steady, but owing to the limited demand but few head were sold.

Hogs. The receipts were light and the quality about the same as for some days past. The market opened steady at yesterday's figures and closed firm with everything taken. The mand was purely a local one and the offer-ings were all taken early.

Recently of grain and live stock have been increased somewhat, as the rail-roads in some sections of the west have been reopened and the snow blockade removed, but are still moderate for the season of the year. Shipments to castern markets have been only fair, as buyers of grain have been

watching the unsettled feeling in freights and anxiously looking for a reduction. Con-

cessions in export rates have encouraged an

increase in the movement of flour, grain and provisions to foreign marts, but the aggre-

gate is still light. Advices from foreign

markets have been unfavorable to holders of grain, as supplies are liberal and buyers

backward about purchasing at present prices. The same is true of hog products with the exception of lard.

considerable nervousness and changes in prices were made on slight influences. Grain

exhibits a little strength early in the week but outside prices were not supported. Pro-

visions were easy early, owing to the large receipts of hogs, but rallied later on the re-port of stocks on hand. Speculative trading centers dealt almost exclusively in May de-

livery, trading in the near futures boing re-stricted to parties desiring to even up their trades or to transfer them ahead. Trading beyond May is gradually extending. Dome-stic markets have not given holders much

encouragement, and trade in all the leading cities is reported dull. Merchants confid-ently look for improved business after the

FINANCIAL.

NEW YORK, Feb. 4.-[Special Telegram to the BEE.1-STOCKS-The bank statement was a surprise to the street. Instead of showing an increase of \$2,000,000 or \$3,000,000, as expected, the reserve decreased \$064,000. The shrinkage was more apparent than real, as the increase in deposits of \$6,815,800 offset the increase of \$6,612,000 in loans and simply shows that a larger amount of money is held subject to check than a week ago. Operators who glance hastily at figures and rush off and buy or sell stocks when the reserve increases or decreases, are liable to be badly fooled on a statement like to-day's, which on its face appears bad, but an analysis proved differently. The bears, however, regarded the statement as an unfavorable one and it aided them in depressing values. The market opened steady, but seen became weak. Lon don was a seller of long stock, but aside from operations by foreigners there was no outside usiness. The savage rate war being urged by the Grunger roads between Chicago and the Missouri river showed increased fury, a reduction of 214 cents being made by the St. [

Saturday, Feb. 4. 1888.

Saturday, Feb. 4, 1888. The receipts of cattle and hogs during the past week have been moderate and slightly in excess of the corresponding period in 1887. The quality of cattle offered during the period indicated has been only fair until to-day when, notwithstanding very light re-ceipts, there were some first class cattle offered. The bignest price paid for native steers during the week just closed was \$4.15. Prime steers are now worth on this market Prime siteers are now worth on this market \$4.15@4.50, but they must be of first-class quality to command those figures. Other grades of cattle are slightly better and good stock will bring higher prices than a weck

As will be observed in the providing price column prime steers weighing from 1,300 to to 1,500 pounds are quoted at \$4.00/0.4.50. Cir-cumstances justify this quotation. When six loads of good natives are bid \$4.65 and refused it is high time to advance the quotations. Shippers must remember, however, that half nd inferior grades will not comma those figures.

ing completed the preliminary arrangements, are now ready to begin work in good earnest and require plows, harrows, etc., in order to enable them to do so. Boot and shoe men report a good business, especially in the line of rubber goods, one firm stating that the sales in this line during the winter have ex-ceeded those of last by at least 15 per cent. Orders for spring business seems to be on the increase and prices on a few lines are becoming slightly firmer. General merchandise is practically in the same condition as it was at the close of the preceding week. Lumber, which has been quiet for some time, is, however, begin-ning to move a little more freely and country orders are beginning to be received. Dealers

are replenishing their stocks in anticipation of an immense trade season, it being gen erally understood that the building record of 1888 will be equal if not greater than that of 1887. Coal continues steady at former prices, although some slight changes may be antici vance noted last week, but another change is looked for soon. Leather, nides and furs are much the same as before as regards rates, but

passed. Celebrating the First Anniversary of The city attorney was directed to draw up the annual levy ordinance to be passed by the council on Tuesday night next. He was in-structed to leave blank the amount to bo-levied for the benefit of the school fund, several of the councilmen believing that the school board would not be satisfied with a 1 mill levy. The levy, as proposed, is: General fund, 14 mills; sinking, 8; water, 3; judgment, 2; school, 1; library, 1; police, 5; fice, 45; sewer, 14; pav-ing, curbing and guttering, 3. The council, after adjournment, informally considered the paving ordinance for the year 1888, preparatory to the final passage on The city attorney was directed to draw up Invading Omaha. The Salvation army people, full of their usual demonstrative spirit, are celebrating with due ceremony the first anniversary of

their organization in Omaha. The exercises are extended over three days, commencing last evening, and terminate to-morrow night At the depot last evening they met Mrs. Captain Wilkins, the original recruiting officer here, and Mrs. Major Dale, ploneer officer of America, and escorted them to their barracks with blare of cornet and streaming banner. At the barracks the usual love ting of experience and exhorting
