OMAHA LIVE STOCK.

General.

Union Stock Yards, 6 p. m.)
Saturday, Feb. 25, 1883.
The receipts of cattle for the week ending
to-day have been 2,059 head, which, compared
with the same period last year, shows an decrease of 318.

rease of 318.

The receipts on Monday were 406 head, and

The receipts on Monday were 406 head, and among the offerings were some fair native steers. Prices were good, one bunch of 1,368-1b steers selling at \$4.45, with other grades ranging from \$3.60 to \$4.35. Common to choice cows and bulls sold at \$2.00a3.00.

On Tuesday the receipts were moderate and composed of a fair class of stock. Prices were about steady, the highest price paid being \$4.40 for a bunch of corn-feds not quite as good as those of the day previous. Component

good as those of the day previous. Common to good steers brought from \$3.10 to \$4.25.

Common to choice cows brought \$2.00@.3.25.

On Wednesday the receipts were 600 head, principally good stock. The market declined 15 cents, owing to a falling off in prices in Chicago, brought about possibly by heavy receipts. The top price paid was \$4.25. Common to choice corn-fed cows sold at \$2.00@

Thursday's receipts were light. The market was steady on good cattle and about 10 cents lower on common stock. There was no strictly first class stock offered, but second grade steers sold at \$3.75@4.25.; common \$1.2564.00.
On Friday an advance was noted, and although there was no prime stock offered, second grades sold at \$3.65@4.20, Common to choice cows brought \$1.50@3.25.

The receipts of hogs for the week were 17,442, and the market has until Friday been

comparatively steady, although some varia-tions were noted. Prices paid on this mar-ket of late have been very high, and in fact

quality of the offerings generally good. The demand, however, was not of the best character and comparatively few heads changed hands, shippers purchasing the bulk of receipts. Prices were steady on all grades except the best cattle, which were a shade stronger, one bunch of good stuff selling at \$4.45.

The market reporter on an afternoon paper yesterday in his introductory remarks on the situation of the hog market at South Omaha says: "All the best hogs on the mar-ket will be sold. The scrupby stuff will be driven out." Where the unfortunate scrubby stuff mentioned will be driven to deponent sayeth not.

OMAHA WHOLESALE MARKETS

Produce, Fruits, Nuts, Etc.

The following quotations are wholesale and not retail. Prices quoted on produce are the rates at which round lots are sold on this market. Fruits or other lines of goods

ket of late have been very high, and in fact higher according to situation than on any other in the country. It is this perhaps that has induced buyers to ease off somewhat.

There is nothing new on the sheep market. The demand for good fat sheep is only limited, and most of the receipts are sent to Chicago.

Cattle.

Receipts of cattle to-day were light and the quality of the offerings generally good. The demand, however, was not of the best character and comparatively few heads changed hands, shippers purchasing the bulk of receipts. Prices were steady on all grades except the best cattle, which were a shade stronger, one bunch of good stuff selling at \$4.45.

Hogs.

The receipts of hogs were light and the good, but prices went advance and like is supply of eggs is light and the demand good, but prices went advance and like is

given as the outside figure. Advices from Utah say that the price for potatoes has advanced from 15c to 20c, dut as yet no change has resulted here. In the fruit market the principal demand has been for bananas, but other stocks are moving off quietly. Shipments of oranges and bananas have been received during the week and another consignment of the latter is expected next week, but all go on the market at the present prices. A car of cocoannts came to hand and are selling at \$5 per 100.

Prominent in the Fifth district of Omaha, and hugging the banks of the great Missouri river, stand the vast and solid workshops of the Union Pacific Railroad Co. The several structures include the paint shops, the car shops, the boiler shops, the blacksmith shops, the machine shops, and boiler works. Inside these buildings fully 800 workmen, wearing the jean overalls which constitutes the uniform of labor a maniler garb than soldiers' trappings or couriers' laces; move among great machinery, or deafen the air with a continuous rata-tat-tat of their hammers.

In the machine shop huge machines bore, shear or punch thick steel as easily as a carjenter carves wood or a child with sciscors cuts out his playthings. In the blacksmith shop forty odd forges

CERTAIN EVIDENCE.

Discovered Which May Be Beneficial to the Reader.

In the practice of a skillful physician there occurs many cases like the case of catarrh mentioned. In many cases the patients have pains about the chest and sides and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach, sometimes a famt, all gone sensation at the pit of the stomach, which food does not satisfy.

The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish-colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes netwous, irritable and gloomy and has evil forebodings. There is a giddiness, a a sort of whirling sensation in the head when rising un suddenly. The bowels become costive, the skin is dry and hot at times, the blood becomes thick and stagnant, the whites of theeyes become tinged with yellow, the kidneys secretions become scanty and high colored, depositing a sellment after standing. There is frequently a spitting up of food, somtimes with a sour taste and sometimes with a sweetish taster this is frequently attended with palpitation of the heart and asthmatic symptoms; the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness.
