Fined For Cruelty to Animals.

Herman Moss, the horse trainer, was tried in the police court yesterday charged with cruelty to a broncho he was breaking. Moss tried to convince the court that the methods used by him in breaking the colt were neces-sary for a refractory animal. The witnesses against Moss all agreed in pronouncing his treatment of the brute as cruel, particularly hitching a chain around the colt's neck and dragging it over the rough ground. His honor, believing that Moss meant no cruelty, let him off with the light fine of \$6 and costs.

INVESTIGATING TRUSTS. Rockafeller, of the Standard Oil Company, Before the Committee.

NEW YORK, Feb. 27.-J. D. Rockafeller, of the Standard Oil company, was examined this morning by the senate trust investigation committee. He said the company of which he is president has a capital of \$3,500,000. He is a member of the Standard Oil trust, which is not incorporated, but based on a written agreement. Ho produced the agreement, asking that its contents be kept from the

press, as it contained private matter. From five to fifty companies had entered the trust, but he would not say definitely how many. The capital is \$90,000,000. The oil product of the company is about twenty-seven million barrels annually, and three-fourths of this is controlled by the trust. The certificates are worth \$165, par value \$100. In 1887, the shareholders received 20 per cent more stock and in addition a divided of 10

WASHINGTON, Feb. 27 .- Mr. Matson of Indiana, from the committee on invalid pensions, reported adversely the resolution reciting the "one hundred day circular" issued by General Black, commissioner of pensions, and directing the committee to inquire whether such circular was issued, and if so, whether any pension claims had been requests contained therein. Mr. Matson stated that such a circular had been issued and its effect had been salutary. Many claims had een vigorously prosecuted and allowed, which otherwise would have remained unfited upon on account of want of evidence. Mr. Mason of Illinois regarded the issuing of circular as a usurpation on the part of the commissioner of pensions. The circular so many words said to claimants that unless their claims were perfected within one hundred days they perfected within one hundred days they would be dismissed. The commissioner had actually taken the place of congress and had practical a statute of limitations, and if one department of his office between seven hun-dred and eight hundred cases had been dis-missed because the claimants had failed to perfect their evidence within 100 days. It was true a case could be ro-opened at any time on the filing of additional proof, but that fact should have been stated by the commissioner in his circular letter. TOU, SIR! NEXT!

Isn't there something very suggestive in this salutation of the barber? There stands Old Father Time, for instance, with his scythe. What of his harvest? Having been myself greatly relieved by the great remedy for pain. I advised him to try it. He was rubbed three or four times be-fore dinner. When he left his shop he was as spry as ever in his life.
