The school election Monday next is more important than most of the citizens teem to realize. The board of education has the handling of more cash, and controls more patronage, and has more property under its control than the city council, and yet many seem to think that anybody will do for a school director. CROSSINGS.

The Motor Line Kept From Going Over the Railway Tracks.

SOME CHATS ON THE STRIKE.

The Bar Docket to Be Cut Down-The Work of the Police-Crooks Started For the Pen-Minor Mention.

Brakes on the Motor Line. The tangle of the Manawa motor line does not seem to be clearing up very rapidly. Last season the difficulty was in securing permission for the motor line to cross the railway tracks. The railway commissioners had a hearing, and it was thought that the recommendation resulting would settle the whole matter. The commissioners decided that it would be a fair thing if the motor line would go on either Seventh or Eighth streets, instead of Ninth street, and thus avoid crossing at the throat of the Rock Island yards; that the motor line should put regular crossings at its own expense. The courts had issued injunctions restraining the motor line from crossing these railway tracks, but it was understood that when the proper crossings were put in these injunctions would be done

The public has been greatly concerned in the successful operation of the motor line. The delays last year were very aggravating, and citizens scolded throughout the heated season. The only comforting assurance was that with the opening of this season, all difficulties would be removed, and the road put in active operation.

The springtime has come, but no gentle Annie. It seems there are about as many obstacles thrown in the way of the motor line as before. Mr. Reed, a gentleman of wealth and energy, has purchased Mr. Graves' interest in the road, and is disposed to push it to an early completion, and operate it actively. He finds no easy way to reach this end, and satisfy the public demand.

The Wabash officials have agreed to

allow the motor line to cross its tracks, and have even gone so far as to agree to change some of its side-tracks, shortening them so that the motor line will only have to put in one crossing where otherwise three would be required. The citizens will appreciate this act on the part of the Wabash in thus trying to help along rather than hinder the motor line. The Union Pacific has put tracks down since the motor line rails were laid, and has agreed to put in crossings when the time comes, so that company promises to do fairly. The Rock Island, Milwaukee & St. Paul and the Chicago, Burlington & Quincy have two tracks each which must be crossed. An attempt is being made to get some amicable arrangement with these companies, but there seems little prospect of an immediate settlement. It is understood that some, if not all of these companies want not only to have the motor line put in satisfactory crossings, but they want the motor folks to enter into a contract by which they will agree to furnish flagmen, as well as crossings, and also to agree that in case the railways put in more side-tracks the motor line will put in crossings without expense to the railway companies, and keep flagmen there. It is estimated that to comply with the requirements of one of these contracts would necessitate the expenditure of \$25,000 during the term of the franchise. With three

looms up. It seems that for some purpose unknown, almost every possible obstacle is being thrown in the way of the motor The enterprise is one which interests all the people, and there is a growing feeling of indignation about

the delays caused.

Lake Manawa has drawn big crowds for two seasons, and many more would gladly enjoy themselves there were it not for the difficulties of reaching it. With the motor line well equipped and running frequent trains the public would be afforded the needed accommo-dations. To be thwarted in their wishes does not cause the most amicable of feelings, and it is to be hoped for all concerned that the railways will not delay in coming to some fair agreement by which the motor line can start up at an

early date. There have also been some differences between Mr. Reed, who bought out Mr. Graves interest, and the company who hold the franchises. It is understood that these have been satisfactorily adjusted. There seems therefore nothing now to hinder the early completion and successful operation of the motor line, but the railway companies whose tracks are to be crossed. It seems that they can hardly afford to stand between the citizens and the enterprise which is so

generally wished for.

Striking Remarks.

The railroad officials in the various offices in this city express the belief that the strike will not become general. but that it will spread farther than it is at present. The Rock Island officials say that they will remain neutral and thus keep out of the row, and do not anticipate any strike on their lines.

A prominent Milwaukee official was asked by a BEE reporter if that road was still carrying passengers on coupon tickets issued over the "Q." He replied, 'Our orders were to honor such tickets issued before February, and we are doing so. This does not include passes or mileage tickets. As a general thing, the 'Q.' is now carrying its own passen-

gers."
"What do you think about the strike on your line?"
"I don't anticipate anything of the kind. You saw Mr. St. John's letter, didn't you? Well, we take the same We wont receive any freight, and as long as we are neutral there will be no strike on our line, and

it is so with the others. "Well, but how about this notifica-tion that the 'Q.' sends out, to the ef-fect that other roads will be held for all

losses resulting from a refusal to receive freight?"

"Let them notify. What does it amount to? I don't receive any 'Q.' freight, notification or no notification. Even if we should have to pay damages, it would be cheaper to do so than to let the engineers go out. I tell you the best way is to keep the wheels rolling. As long as the other roads remain neutral it will be all right for them. Now, the Union Pacific for them. Now, the Union Pacific think they must receive the 'Q' cars, but just as sure as they do, out will go their engineers, for they won't go back on their 'Q' brothers. I am not a brotherhood man, but I am satisfied of that. Suppose there should be a general strike—the 'Q' has filled up with non-brotherhood men, and they would show in run all right, but where would we be? of him.

It would cause untold suffering for the people along our lines. A little while ago when the managers were all trying to agree on these cut rates, the Q stood off, and was against us all, and now it isn't to be wondered at that we are not disposed to put ourselves out much to accommodate them. About two days ago the 'Q' folks were feeling pretty good, for they thought the other roads were all coming to their assistance, but now the other roads have jumped the other way, and they feel rather 'down in the mouth,' As I look at it, this is the bluest day the 'Q' has had yet.''

"Do you think the strikers will win?" "Well, I won't say that, but I think that a good start has been made for a long, hard fight."

City Council Proceedings. A special session of the city council was held last evening. Present: Mayor Rohrer, Aldermen Wells, Danforth,

Lacy, Metcalf, Keller and Hammer. On motion of Alderman Lacy, the city attorney was instructed to draw up notices, and the marshal to serve them, upon the railroads crossing Indian creek to keep that waterway under their bridges clear of all obstructions.

The report of the canvassing board in the late election was read, received and concurred in, and a resolution declaring the persons receiving majorities to be elected to the various offices was adopted.

The bill of the waterworks company for semi-annual water tax, \$10,000, was allowed on call of ayes and mays.

The bills of various persons for occupation of buildings for election pur-

poses were referred. B Bills of judges and clerks of election were presented. First ward, \$8 each; Second, \$6; Third, etc. On motion of Alderman Wells the pay was fixed at \$6 each, and such bills were ordered paid. Also bills of special police, \$3 each, followed the same course.

The bill of the mayor for expenses incidental to his trip to Des Moines in the nterest of city legislation, was allowed. The bill of the electric light company for February lighting was referred.

The bills of registration clerks were allowed, also bills of the telephone company and M. A. Moore, and the Globe Printing company for \$709, were allowed

on recommendation of the committee. Bonds of railroad police were read and approved.

On the Broadway ordinance the twentieth rule was suspended and the ordinance was passed to its second and third reading and passed. This fixes the permanent grade as the street now is. As to the other streets, the resolutions were read

the second time and referred to the committee on internal improvements and the city engineer. Resolutions granting to the Omaha and Council Bluffs Bridge company the right to construct its line of street railway upon Avenue A and Fifth avenue instead of Broadway below Sixteenth street, and prohibiting the granting of Broadway to any other company for this ourpose, were read, passed to their third

reading and laid over.

The "Union Spy," which has aroused so much enthusiasm, will be presented for the last time at the opera house this evening. It is the best local entertainment given this season, and those who attend not only have the satisfaction of being well repaid, but also help along a worthy organization, the Dodge light guards, for whose benefit the entertainment is given. This being the last opportunity to see this wonderful pic-turing of war times, the opera house should be packed.

This afternoon there will be a matinee performance, commencing at 2 o'clock. This gives the pupils of the public schools an excellent opportunity of seeing the realities of war, and getting accurate ideas as to what the recent conflict was. The admission for the after-noon will be 50 cents, and for children under sixteen 25 cents.

The bar docket of the district court has been for a long time lumbered up with an accumulation of old cases in which there is little prospect of anything ever being done. About the only purpose that many of these cases serve is to afford the attorneys credited with being interested in them an ingenious advertisement. for, in the printed dockets they belp to swell the appearance of business. The judges have decided to have a clearing up. Judge Loofbourow yesterday announced that one week from to-day, it being the day of the week for motions, there would be a call of all those cases which have been on the docket for a year or more, and such of them as have been inactive for two terms past would be stricken from the calendar and the costs taxed up to the plaintiffs, unless some showing was made convincing the court that the cases should be allowed to stand a little longer. There were two or three attorneys present when the announce-ment was mode, but others will not probably be surprised, as, this action has been expected for some time. With these cases cleared out it will lessen the size of the printed docket consider-S. B. Wadsworth & Co. loan money.

Frank Kennedy, John Kelley, Frank Jones and D. W. Davis were charged with the larceny of a watch from the Northwestern roundhouse, and also with drunkenness. They had been out of the station but a few hours when brought in again on these charges. They were very abusive to the officers when arrested, and after being locked up, got into a row with another prisoner and were beating him unmercifully when Marshal Guanella interfered and placed them in separate cells. Pete Johnson had also landed in the

cooler after a prolonged struggle with Mike Hanley was charged with misappropriating a coat, and his case was continued until this morning.

Colonel Daily was to follow on the part of the defense yesterday afternoon and of the defense yesterday afternoon and Mr. Mynster was to give the closing for the state. Colonel Daily surprised them, however, by waiving any argument, which consequently cut out Mr. Mynster's speech. The judge had not his charge fully prepared, expecting to finish it while the attorneys were talking, but as the talk so suddenly stopped the jury had to wait while he completed the document.
