Yesterday's internal revenue collections amounted to \$12,629,34.

A meeting of the Seventh ward republican club will be held at Hanscom park this evening.

Yesterday Milton Ward and Miss Sophia Feas were united in matrimony by Judge Read. Both contracting par ties are residents of Council Bluffs. Permission has been granted by the

board of public works to the waterworks company to lay water mains on Leaven-worth from Thirty-second to Thirtyeighth streets and on Spencer from Fifteenth to Twenty-ninth streets. The streets in the paved section of

the city are very dirty, in some places being covered with half a dozen inches of mud. The street sweeping contractors, however, have not as yet been or-dered by the board of public works to clean them.

C. D. Woodworth was ordered by the board of public works to proceed at once to curb the following districts: Ninety-two, Vinton from Thirteenth to Sixteenth; 84, Grace from Sixteenth to Twenty-fourth; 94, Pacific from Sixth to Tenth; 103, Twenty-fourth from St. Mary's avenue to Farnam; 99, Jones from Ninth to Missouri river.

E. D. Callahan, the bulldozer who attempted to run the election at Florence on Tuesday was arraigned before Justice Anderson yesterday afternon to give reason for his high-handed proceeding. He plead guilty, saying he would not have acted as he did had he been sober. The judge decided to let him off with \$3 and costs. Henry Shomer, one of his champions, still lies in the county bastile awaiting his

For the first time since assuming office Judge Shields found it necessary yesterday to fall back on his familiar ity with the German language. A couple who came to him to be married were unable to speak or understand the English tongue, and as they seemed anxious to embark at once on the turbulant sea of matrimony the judge relied on his knowledge of the complicated sentences of fatherland and hitched up the pair as complete as if it was done by a regular deutcherman.

March at the County Jail.

During the month of March 187 prisoners were admitted to the county jail, the charges against them varying from disorderly con duct to that of murder. Among the present inmates two stand charged with murder and one awaits sentence upon conviction of mur-der in the second degree.

Nearly Bled to Death. A little girl of about five years of age, the

child of Auton Borak, a Bohemian who lives near Sheely's, while out at play yesterday slipped and fell on a broken bottle and cut her leg so badly that she nearly bled to death. A physician was summoned just in time to save the little one's life and she is now entirely out of danger. The Assessors.

The assessors of the county are now at work leaving lists with property owners for specific mention of property subject to taxaabout the first Monday in June, at which time their returns will be made. Each ward in the city and precinct in the county has one assessor, while in a some places this officer has a number of assistants.

He Will Recover.

J. W. Beckstrom, the young farmer from Oakland, accidentally shot by George C. Nissen, at Nissen & Alford's hardware store Tuesday, lies in much distress at St. Joseph's hospital. The physicians, however, pronounce the wound nowise dangerous, and say that Beckstrom's recovery is a question of but a week or so.

An Important Action.

Mrs. Henrietta Truman, formerly Henrictia A. Dickinson, of Shelby county, yes-terday filed with the register of deeds, a power of attorney in which she appoints W. S. Sloman, of this city, as her agent and attorney with full power to dispose and sell any portion of section 20 township 15 range 13, in which she, as the widow of the late N. M. Dickinson, may be entitled to as dowry.

The plat of deed mentioned is situated with in the city limits, and comprises Highland Place, Forest Lawn, Kilby Place, which are divisions of Smith's addition, which has been re-platted. The amount of capital represented comprises many thousand dollars.

Knocking Out the Governor. John Fliegen, an elderly man, took unto himself a wife some time since that did not meet with the approval of his son Fred. This has created a pitterness between father and son that culminated last evening in Fred brutally assaulting his father, knocking out a couple of his teeth and otherwise bruising He also threatened to take his father's life. A warrant was issued for his arrest.

Knights of Labor Ball.

The committee of the United assemblies have completed the arrangements for their annual ball to be held at Exposition hall Monday evening, April 9. They report a large sale of tickets, but not quite as large as last year owing, they say, to the scarcity of money amongst workingmen and the great number of balls that come off immediately after Lent. The committee hold a final meet ing Saturday evening, corner Fifteenth and

Gross Negligence.

The coroner held an inquest yesterday afternoon over the remains of the unfortunate German woman who was killed at the Seventeenth street crossing Monday, and the following verdict was rendered: "Katrina Ecke came to her death by reason of wounds received by being run over by an engine of the Union Pacific railroad company, and they find the said company guilty of the grossest negligence in the matter of safeguards for life and limb at the point where the said Katrina Ecke received the injuries which caused her death."

Burglars in a Church.

It has just leaked out that St. Philomena's cathedral was ransacked by burglars Sunday night. Every nook and corner in the sacristies, the shelves, drawers and desks, and even the sacred tabernacle of the altar were searched in vain for plunder. The robbers evidently expected that the Easter offering, a snug sum, was hidden in the church. They The robbers did not dare attack the parochial residence. where the money was, as the lights in the rooms plainly told that one or more of the occupants were keeping late hours on this par-ticular night, and for the sole purpose of be-ing able to welcome midnight prowlers. Will Probably Return to the Army. Henry Bell, one of the most redoubtable warriors of the Salvation army, was appointed a special policeman shortly after the Burlington & Quincy strike was inaugurated. Yesterday the bright tin star that designated his authority was rudely torn from h bosom, and he was given the grand fire. Henry, in assaulting the works of the devil, was a most valiant warrior, but as a railroad copper he was a colossal failure. In making his rounds he became involved in a controversy with a number of switchmen, and finally he fled for his life and took refuge in Bell's drug store on South Tenth. There one of the irate switchmen pursued him, and snatching a sponge from a basket full sitting on the floor near by, he threatened to beat the copper's brains out. He was shortly thereafter re-lieved of his star and discharged.

Something of a Mistake.

A passenger on the grip car of the Harney street cable line in payment for his fare Tuesday night tendered a \$20 gold piece which the conductor in the darkness mistook for a silver dollar and not having any change except in nickels, remarked that he would get some change of a gentleman in the rear car, at the same time dropping the coin in his pocket with the rest of the company's cash. He returned and tendered the man 95 cents, who at once protested, saying that the coin was a \$20 gold piece, which the conductor denied, at the same time producing the passenger who had changed the coin for the conductor, who at once produced a dollar which he said the conductor had given him. By this time the first passenger had become very torrid and demanded his change, which of course the conductor refused, other than the 95 cents previously mentioned, whereupon the man left the car threatening to sue the company. On the next block the conductor dis-covered his mistake and found the missing shiner in his pocket. The office was notified and ere this the error has been rectified.

A Glucose Manufactory.

Mr. J. Firmenish, the most extensive manu facturer of glucose in the world, is in the city with a view of moving his manufactories at Peoria, Ill., and Marshalltown, Ia., to Omaha. He has with his glucose factories extensive starch works, the manufacture of both articles being almost identical. Mr. Firmenish was found last evening by a Bee reporter busily engaged in conversation with Joseph D. Her, with whom he had been passing the evening. He is one of the most approachable of men, and upon being asked as to the probability of his locating here he said that as he had been in the city only a few hours he could not yet definitely say anything. He wished to concentrate his two works above mentioned and if he could carry on his manufactures cheaner here than on his manufactures cheaper here than at Peoria and Marshalltown, he would come here. He thought it very strange that Mr. Her, a resident of Omaha, was build-

ing a brewery in Kansas City. If Mr. Firmenish does not find matters to suit here, he will probably leave for Kansas City this evening in company with with Mr. Her to look over the ground there. Mr. Firmenica established the first glucose factory in the United States and is to-day worth \$10,000,000. It will cost him about \$400,000 to remove the Peoria and Marshalltown factories here, and when located he will employ about 400 men.

In addition to beat-ing, on divers occasions he spent all her money—even pawned her wedding ring Tuesday morning after a particularly tur bulent scene, he took her best dress, tore it into slits and rubbed it in coal oil. The court made quick work of Robert. He got \$50 and costs, in default of which he went over the

The Correct Time.

There very few men who do not pride themselves on always having the correct time; and wonderful and delicate mechan-isms are devised to enable them to do so. But the more delicate a chronometer is made, the more subject it becomes to derangement, and unless it be kept always perfectly clean, it soon loses its usefulness. What wonder, then, that the human machine-so much more delicate and intricate than any work of Man-should require to be kept thoroughly cleansed. The liver is the main-spring of this complex structure, and on the impurities left in the blood by a disordered liver, depend most of the ills that flesh is heir to. Even consumption (which is lung-scrofula), is traceable to the imperfect action of this organ. Kidney diseases, skin diesases, sick headache, heart disease, dropsy, and a long catalogue of grave maladies have their origin in a torpid, or sluggish liver. Dr. Pierce's Golden Medical Discovery, by establishing a healthy, normal action of the liver, acts as a cure and preventive of these diseases.

A CLOSE CALL. A Lady's Narrow Escape at the Tenth

Street Crossing: That the practice of making flying switches on the Tenth street crossing of the Union Pacific yards is dangerous one was demonstrated at 2:30 yesterday. A freight train which was standing across the roadway backed down a side track in order to afford the many pedestrians and vehicles in waiting an opportunity of crossing. Just as the crossing was cleared of the cars, and while the track was covered with wagons and foot passengers a caboose and two box cars foot passengers a caboose and two box cars were sent down the yards at a very fast rate of speed. One team narrowly missed being hit, clearing the track within less than four inches of the cars, while but for the timely action of the flagman, a lady whose name could not be learned would have been run over and killed. The woman, bewildered by the shouts of the people who saw her danger, was standing directly in the track not knowwas standing directly in the track, not know-ing which way to turn, when the flagman mentioned ran and carried her off before the

Brief Railroad Items.

J. F. Coykendall, formerly private secre-tary to the late Thomas J. Potter, announced vesterday afternoon that he would sever his connection with the Union Pacific, having ac-cepted a similar position with Superintendent Mohler, of the Manitoba at St. Paul. The general passenger office at Union Pa cific headquarters received a handsome life size photograph of the late first vice president yesterday. [

It is probable that the number of track hands on the various roads in this section will have to be temporarily increased as the frost going out of the ground has had a tendency to put some portions of the road in a very bad condition. Superintendent Blickensderfer's order re

garding one train passing another while pas-sengers were getting on and off is being strictly obeyed, particularly at the Seventeenth street crossing, the scene of the re cent accident. The new suburban trains which will run between South Omaha and Council Bluffs

will not be put on for some days yet, it have ing been found necessary to make a few changes in the coaches. Twenty new engines for the Union Pacific are expected to arrive during next week. Mr. R.
