The war is on now, as Dr. Miller used to say when he was at the helm of the Herald. The irrepressible conflict between the ambitious ex-mayor of Omaha and Congressman McShane has begun in dead earnest, and will continue until the day of November.

President Grant and other leading republicans declared it to be, it is infinitely more so now. The republicans of the present house will make a grievous mistake if they shall do nothing more than obstruct tariff reduction by defeating the bill now under discussion.

delegates to the Douglas county convention. Every republican in the city is expected to do his duty. But why was this call withheld until the eleventh hour—up to within two days of the primaries? Mr. Boyd's convention ignored Congressman McShane and snubbed Charley Brown. The whirligig of time brings its revenges.

The Cutting affair comes up again. Secretary Bayard has made a formal demand on Mexico for indemnity, on the ground that Mexican authorities had no right to imprison Cutting for an offense committed on American soil.

On the authority of a gentleman who is posted, the prediction is made that the H. & M. road will be running trains into Norfolk before September 1.

Senator Sherman, Fremont—the question of McShane has been determined by your delegates, and they have been decided they'll run here from Dodge, and there are thirteen in our delegation who are with me for delegate, but I don't expect to get it, because we don't expect to get it.
