CHICAGO PRODUCE MARKET.

CHICAGO, May S .- | Special Telegram to THE BEE.]-The wheat market moved within the rather parrow limit of about 1/c all morning, and its spells of strength and weakness within that range alternated quite regularly and were of about the same duration. As a result of the morning's trading, prices stand about 14.0014c lower than yesterday's close. Hutchison was again the heaviest seller, and although it is claimed by some that it is long wheat he is realizing on, yet it seemed this morning as if he was trying very hard to break the market, which he would scarcely be likely to do if trying to get the best price for his wheat. His offerings looked like an effort to hammer prices down and in the same line was the offer of a large wager that the market would "sell down a cent before it sells up a cent." The sales of more than a million bushels by this trader of course had a depressing effect temporarily and was the cause of the first decline. However, there was good buying by locat bulls for country account for the northwest and especially fo New York. A bid by a local bull of 84c for 100,000 bushels of July wheat seemed to be the turning point, and the market climbed up 3/c-the decline it had suffered-only to come most of the way down again on realizing by early buyers. July wheat opened at 84%c, sold up to 84%c, down to 84c, up to 843/@84%c, down to 84%c, up to 85% e and closed at 1 o'clock at 84% @84% c. June wheat opened at 831/4c, sold up to 831/4@ 83%c, down to 83c and closed at 1 o'clock at 83%c. Undoubtedly the most bullish influence of the day was found in the movement of wheat at Minneapolis. That city received 70,000 bushels of wheat and shipped 83,000 bushels. These receipts are just about 100,-000 bushels less than Minneapolis received a week ago, and the shipments are three times larger. It was said that the demand from country millers for wheat at Minneapolis, which had almost ceased with the advance in price, is now again urgent. If to-day is not an isolated instance, and receipts in the northwest grow stronger from this on, it will confirm the predictions of the wheat bulls of six months ago, who contended at that time that there was a shortage in the crop which would be felt before the year was out. The winter wheat markets were all particularly strong to-day. Foreign markets were quiet. New York wired that there were export orders for wheat there, but they were below the market, and hardening freight values made it still more difficult to work wheat for export. The near approach of the government crop report is a strengthening feature in the market. Every man with any bullish feeling in him seems to think he should have some wheat on hand when the report comes, and even the bears think it just as well not to put out any large lines of short wheat until they see what sort

There was a decline of 11%c in the price of May corn to-day as compared with yester-day's closing prices. The shorts seem to be pretty well covered, and some holders of long corn were realizing as best they could. There was also a decline, but less extensive in the more deferred futures, which was partly because of the weakness in May and partly because of very heavy short selling by several local bears. All this was in the face of comparatively light receipts, which failed to strengthen the market. This free selling and following so closely upon yesterday's announcement of a large increase in the visi-ble supply, there would seem to be some connection between the two. The favorite future with the bears was July. July corn opened at 55%c, sold down to 55%c, and closed at 55%c. June corn was the same price except that the first sales were made at

of a document that government report actu-

55%c, but that delivery also sold up to 55%c. All activity in the speculative outs market was concentrated in the early trading, when was concentrated in the early trading, when the feeling was strong, especially for May delivery, the shorts bidding that month up about \(\frac{1}{2}\)c. Later, when corn declined, there was an easier feeling in oats and the market became dull. May oats opened at 34\(\frac{1}{2}\)c bid, sold up to 34\(\frac{1}{2}\)c, down to and closing at 33\(\frac{1}{2}\)c. June oats opened at 33\(\frac{1}{2}\)c and at 32\(\frac{1}{2}\)c bid, sold up to 33\(\chi\), closing at 33\(\chi\)c and at 32\(\frac{1}{2}\)c bid, sold up to 33\(\chi\), down to and closing at 32\(\frac{1}{2}\)c. August oats opened at 28\(\frac{1}{2}\)c, sold at 28\(\frac{1}{2}\)c, down to and closing at 28\(\frac{1}{2}\)c, sold at 28\(\frac{1}{2}\)c, down to and closing at 28\(\frac{1}{2}\)c, opening and closing at the last named price.

The provision trade again exhibited unmistakable strength. No unusual change occurred

takable strength. No unusual change occurred in values, but the market was well supported. and the feeling rather favored holders. As compared with last night's final figures, I o'clock closings were unchanged to a shade easier for pork, unchanged for lard and 2)40 higher for short ribs. AFTERNOON SESSION .- Wheat higher, May

Short ribs were unchanged to a shade stronger and moderately active, closing at \$7.75½ for May, \$7.75@7.77½ for August.

CHICAGO LIVE STOCK.

CHICAGO, May 8 .- [Special Telegram to THE BEE. |- CATTLE-The estimated receipts were 5,000; last Tuesday, 5,537. Business was again brisk with a strong and solid upturn of 10c on the ordinary run of fat cattle. Butchers' stock shared in the advance, and canning stock sold quicker, if not higher. There was a train or two of Texans due and on sale; also a train of distillers; that made strong prices. Everything was sold out at an early hour, the general market closing steady at an advance. The stocker and feeder trade remains quiet, yet specu-lators hope for a revival, now that pasturage is assured in the grazing area. Steers, 1,350 to 1,500 pounds, \$4.30@ 5.00; 1,200 to 1,350 pounds, \$4.15@4.75; 950 to 1.250 pounds, \$3,90@4.40; stockers and feeders, \$2.65@3.85; cows, bulls and mixed, \$175 (@3.75; bulk, \$2.60@3.15; slop fed steers, \$4.25@4.70; slop fed bulls, \$3.25@3.40. Texas cattle: Grassers, \$3.33; corn fed steers, \$3.75

Hogs-Trade brisk, with an upturn of a strong 5c, in some cases 10c, with about all sold at an early hour, closing steady at an advance. Best heavy made \$1.80@5.85, one lot made \$5.87½ and one lot at \$5.90. Most of mixed made \$4.05@5.75 and light \$5.65@5.70.

FINANCIAL.

NEW YORK, May 8 .- | Special Telegram to THE BEE. |- The stock market was again disappointing to the bulls, and many are inclined to turn and take the bear side. The bear argument was that the wheat crop will be short, and that reads which depend upon large movement of winter wheat during July and succeeding months, will find rather slim picking. Another point they make is that money is growing higher in London, the rate on short bills being 2@21/c in open market. Foreign exchange bills are scarce and rate firm within a fraction of the shipping point and \$250,000 in gold was ordered shipped from New York to-day. The latter,

however, was evidently shipped for effect, as there is no profit in shipping. The bulls are beginning to lose courage as Gould stocks act weak and help pull the rest of the list down. There are a few left, however, who maintain that the market is oversold, also that good stocks will soon cut loose from the Gould weaklings and advance where others decline. Cammack has been a seller on the market for several days, and the impression prevails that he and Gould are acting to gether. London was weaker and lower, and the decline was reflected in Wall street, the market being weak and declining from the start. Conflicting stories were affoat regard ing the new Reading bonds. Friends of the Corbin and Drexel-Morgan party claimed that they would be successfully placed in London, while its enemies claimed that Drexel and Corbin's efforts in London had been futile. The stock dropped 134c, but rallied Me. Oregon Transcontinental was heavy and broke 1%c, Missouri Pacific dropped 1%c, but rallied %c. Richmond Terminal broke 1%c. Grangers declined fractionally, with fair trading. New England was erratic and broke 36c, but railled 36c or the belief that it will succeed in leasing the New Haven road. A slight rally about noon was short-lived, as long stock came out freely. It was rumored that the Burlington had lost \$12,000,000 by the strike and that it would pass its dividend. Long stock has been taken from the strong boxes and sold with such freedom as to precipitate a drop of 314 points in a short time. The drop in the Burlington weakened the rest of the list, and the last sales were at inside figures showing a decline of 3/4c to 23/4c outside of the Burlington. The total sales were 284,283
