The democratic evening paper is shouting a good deal now about its being the only paper in the city which declines to give any Omaha news. It prides itself on being the only paper "that is not in doubt as to whether it is a Council Bluffs or an Omaha paper." There is a good deal of doubt as to whether it is a paper at all or not. It claims with pride to be "the only paper which is all printed and published in Council Bluffs." and asks advertisers to make a note of this. Advertisers are making a note of it, and hence it is that they find it pays better to advertise in papers which cover a little inger territory than the city itself. There is quite a stretch of adjacent country whose trade naturally beiongs to Council Bluffs, and merchants desiring to reach this have little use for a paper which staggers out to the city limits and then drops down for a sleep.

It is now definitely settled that the long talked of and much hoped for Merriam block will be built upon the site of the old Catholic church. The block will have a frontage of 200 feet each upon Main and Pearl streets. The depth will be 100 feet. It is not yet announced whether two or three stories will be builded. This is but the beginning of the expected activity in building in the business portion of the city.

#### Concerning The Court.

Judge Decmer yesterday finished some routine business in the district court, and then adjourned until Friday. He now goes to Atlantic to exchange with Judge Loofbourow, who will hold court here until Judge Deemer's return.

The case of Churchill vs. Groneweg & Schoentgen was yesterday decided in favor of the plaintiff, the judgment being for \$1,000. This was a suit growing out of the removal of that firm from the old building on Main street, which was owned by Mrs. McMahon. The well known firm claimed that the building was untenantable, and that Mrs. Mc-Mahon agreed to their terminating the lease, waiving her rights under it. On the other hand it was claimed that the lease was binding, and the defendants were liable for the amount of the rent for the unexpired term. The Citizens State bank won a \$600 verdict in the case against the Billingsby & Anson commission company, of St. Louis. This was a suit to enforce the payment of drafts drawn by McGregor Bros., who had elevators and were at one time doing a large grain business at points in this vicinity.
