Omaha 2, Kansas City 0. Kansas City, Mo., May 24.—[Special Tele-gram to THE BEE.]—The Kansas City Blues received their initial shut out of the season to-day at the hands of the Omaha nine. It was perhaps the banner game this year in a good many respects. First, the visitors played without an error, and second, the united hits by both teams were five in number. As in the other games Annis' work in center was such as to produce and deserve general applause. His running one-hand catch of Campau's fly to deep right in the last mning was a feat that has been seldom equalled. Both pitchers did well, as did the teams, the only error of consequence being Bradley's fumble of Clarke's three-bagger in the eighth inning. Not a run was made by either nine until the seventh inning. Annis was first to face Conway, but hit a grounder to Manning, who threw him out at first. Then O'Connell, who has not hit the ball- at all before while here, stepped up and hit the first ball pitched to right for three bases. Miller followed him and hit the ball to Manning, who threw it to Gunson, the sphere reaching Gunson's hands a second before O'Connell, who had started home, reached there. A collision occurred and both men fell, the ball dropping out of Gunson's hands in the struggle and the umpire decided O'Connell safe. This decision converting the grand stand for a few moments into a howling pandemonium, while the entire Kansas City team left the dia-mond and expostulated with Brennan. It was of no avail, however, and the game pro-ceeded. In the eighth inning, after Wilson was retired at first, Clarke hit to deep right center for three bases. Bradley went after the ball, but fumbled it after he got it and Clarke crossed the plate on the error. In the th inning two of the Kansas City team had been retired when Campau came to bat and hit the ball to aimost the same place that Clarke did. Annis ran for it and pulled it down with one hand, making the best play of the game and retiring the side. The following is the score:

A Fifteen-Inning Draw. Sr. Paul, Minn., May 24 .- [Special Telegram to THE BEE. |-St. Paul and Minne apolis to-day played one of the longest and most intensely interesting games ever seen on the home grounds. The grounds were muddy and in poor condition for good play. but, nevertheless, both clubs put up a pretty game, and there were a large number of brilliant plays during the fifteenth inning At the close of the fifteenth inning Umpire Hagan called the game on account of dark ness. St. Paul had the game well in hand. and would have undoubtedly won, but in the seventh inning, after two hands were out, Ringo muffed a fly from Patton's bat, allowing to men to cross the plate and tying th score. From this time until the end of the game neither side could score, although both had men on third several times, but sharp fielding prevented run-getting. In the fifteenth inning Carroll, of St. Paul, got first on an error by Gallagher, stole second and went to third on Kroig's wild throw, but was caught at the plate and doubled up with Reilly at first on the latter's hit to Gallagher. The next batsman went out on a fly. In the twelfth inning Minneapolls came near getting a man across the plate. Hawes got first on Reilly's low throw and first on Reilly's low throw and stole second on Pickett's muff of Earl's throw. After the next batsman had struck out Nicholson his safely, but the ball was returned quickly holding Hawes at third where he was left the next two batsmen going out. United States Court. A decision was given in the Adcock-Cheney

iand case yesterday. This case was

brought here from Johnson county, and is

one of a number of land cases of a similar character that were tried once in that county and appealed to this court. The defendant, entis D. Cheney, sold lands a third party who transferred his contract to Mrs. Adcock. By the terms of the contract the purchaser was to meet all back payments on the land with the interest on the same when they became due and pay the taxes and any delin-quency in the payment of these obligations, was to render the contract null and void. On one or two occasions Cheney allowed the payments to be made sometime after they ere due and also consented to the transfe of the deeds to the property and contract under which it was sold to be transfered to the plaintiff, in the present suit. While the plaintiff claimed the ownership to the property she allowed the taxes to remain unpaid and on this pretence Chency endoavored to have the contract forfeited, but failed to return certain notes that had been given in payment for the land and refused to ac-cept any farther payments on the same. The suit was brought against Chency for the specific performance of the contract, the plaintiff agreeing to make the remaining payments as the court might order. The court held that the defendant must stand by the contract and give the plaintiff a deed for the land as soon as the remaining payments are made. The farm in question is a hair section and is valued at about \$0,000. After rendering the decision the court began the call of the decket to find what cases are yet for trial at this term of court.

The prisoner was therefore released. The wretch who perpetrated the deed is described as a coarse featured man with freekled face and red hair. He has suddenly disappeared and thus far cludes all efforts to capture him.

BETTER RAILROAD FACILITIES The Union Club Inaugurates a Move-

ment and Hopes For Success. There was not a very large attendance of the members of the Union club at the meeting last night, when the subject of securing better railroad facilities for Omaha was thoroughly and intelligently discussed. The plan of organizing a trust of Omaha citizens to build a line through the northwest received considerable attention from the gentlemen, who seemed divided as to whether it was best to enlist already established roads in the enterprise or invite the county to vote a subsidy for the building and maintenance of the road. Mr. Barker thought the trust plan the best

as he and the rest of the citizens of Omaha had grown tired waiting for the railroads to carry out their promises.

Mr. Shelton changed the subject by asking the gentlemen present if they didn't think it a good idea to ask the people of the county to vote a subsidy to the Chicago, Rock Island & Pacific railway to build a line into the city from the south. Expressions pro and con were indulged in but nothing definite was arrived at. Mr. Colpetzer thought the idea of asking the county to vote bonuses for the required facilities a good one, and that it would carry. First, however, they must be satisfied that there are no schemers in the proposed improvements, but that everything is to be

one above board. Mr. Murphy expressed confidence that if the county voted \$1,000,000 in bonds for the encouragement of railroads to come into Omaha and Nebraska, it would not be lone before the railroads would be after the

money, and would give these parts the facili-ties they are so sadly in need of.

Mr. Barker spoke in a like strain, and in-sisted that Onaha's inferior railroad facili-ities argued against her with eastern capitalists and money lenders. Debate recurring on the plan of a home company to build a road to the northwest, it was stated that Messrs. John Harbaugh, Herman Kountze, Frank Murphy, and others, were ready to put their thousands into the enter prise. They did not propose to go in, how

ever on a paper road, and will not put up

their money until other citizens show a ten-dency to put in theirs. Mr. Colpetzer referred to the railroad dis-crimination and spoke principally of the lumber interests. Owing to the discrimination in this commodity, Omaha, which at one time stood third in the list of lumber consuming cities, is now away down and is being throttied daily by the railroads. Mr. Shel ton added that if it were not for these rail road discriminations Omaha's commercial business would be ten times as large as at present, and asked how the club proposed to do away with this discrimination Answering this question Mr. Colpetzer hought it could be done by the aid of a local

railroad company.

Owing to the slim attendance but the interest which had been inspired it was decided to adjourn until next Monday night when a formal organization will be perfected.

Fort Omaha Notes. Wednesday afternoon the four young soldiers, who were ordered before an examining board in response to their applications for commissions in the army, appeared before the board for the last time. The condition of these four men at present is truly to be pitied. Suspense, dread and anxiety bears them down. Oh, if we only passed! The one single hope that all might be well is in reality an idol for them and alone keeps them up. The examination was an 'ordeal to be dreaded; there were a hundred questions on each subject; 75 per cent in every subject is required for pass-The board met yesterday, made out the standing of the young soldiers, and ad-journed. The result of the examination will journed. not be known until the proceedings of the board have been approved by General Brooke, the department commander.

Phii Kearney Post No. 2, G. A. R., held a meeting at their hall, at Fort Omaha, Wednesday, and four members were adnitted to the ranks of the Grand Army of the Republic. There will be another neeting of this post Sunday afternoon at 2:30. All the comrades should attend as much work must be done in regard to the exercises on Memorial Day.

Only Two Candidates.

There was a visible falling off yesterday in the matrimonial boom of the last few days, only two candidates putting in appearance pefore Judge Shields to receive clearance papers. James O'Connell, thirty-one years old, was one of the happy men, Miss Maggie Keyzer, aged twenty-one years, one of the fortunate ladies. They both reside in Omaha. James H. Carsten and Minnie M. Lutjie are the other contracting parties.

IOWA NEWS. Railroad Rates Ruining the Sious City Jobbing Trade.

Stoux City, Ia., May 24 .- [Special Tele gram to THE BEE. ]-The situation here under the freight tariff now in force is becoming critical. The St. Paul rate is such that Sioux City jobbers will soon be driven to the wall unless relief is found. St. Paul jobbers under the cut rate awarded to them, can lay down goods within ten miles of Sioux City cheaper than Sloux City jobbers. The latter have exhausted every effort and appeal is vain. President Jandt, of the Jobbers and Manufacturers association, at its meeting to night, declared that he was in favor of an extra session of the legislature and of fight-ing the railroads to the bitter end, and his declaration fairly expresses the sentiment here. It is the more significant because last winter President Jandt went before the leg islature to defeat radical legislation agains the railroad corporations. An indignation meeting will be called to make expressions of local sentiment.

He Was Joking.

Iowa Cirv, Ia., May 24.-The university investigating committee to-may heard more testimony as to the existence of saloons in Iowa City, the witnesses being students who are members of the University Temperance alliance. 'The evidence was so complete that few drinking places did exist up to the 1st of May that the committee expressed itself satisfied on this point and stopped further testimony. Witnesses said saloons were few in number and low dives into which very few students were ever seen to go and that such places were very secret in the back parts of grocery and other stores, that only the initiated could get drinks. John Sprin-ger, editor of the Iowa City Press, was examined as to his alleged charge that ther has been a bargain to oust the prohibition professor and said he was only joking when e made the remark.

The Homeopathists. Iowa City, Ia., May 24.-The State Hom copathic society closed its annual meeting to day. The following officers were chosen for next year: President, Dr. S. Ganter, Water-loo; vice president, Dr. J. G. Gilenrist, Iowa city; secretary, Dr. George Royal Moines; treasurer, Dr. H. G. Griffith, ington. Next year's meeting will be held in

Burlington.
Among the most important transactions of the state homeopathic society was the adop-tion of a memorial to the board of regents o the state university asking the requirement of a three years' course of six months each for graduates of the homeopathic department of the state university.

## THE SPECULATIVE MARKETS

Active Revival of Trade in the Wheat Pit.

CORN TAKES ANOTHER SPURT.

May Shorts in Oats Still Seeking Shelter-Provisions Slow But Steady -Cattle and Hogs Fairly Active-Quotations.

CHICAGO PRODUCE MARKET. CHICAGO, May 24 .- [Special Telegram to

THE BEE. |- The wheat bulls felt very

ertain during the day that there had been

such liquidation of poorly protected and high priced grain that the future looked promising not only for a stopping of the decline, but for a new advance movement. The day realized, in a moderate way, their expectations. At 1 o'clock July wheat showed a 114c advance over the opening, and 2¢ over the bottom figures for the day. The trend of all operations in the pit was as on Wednesday to get out of July and into more distant options. The Cudahy party continued this sort of changing without any concealment, changing 300,000 bushels from July to August with a single concern. The crowd tailed after him. Hutchinson continued a seller, but the situation seemed to have been such that his sales no longer affected prices. The advance continued and his offerings were easily absorbed. Poole, who has just returned from a trip through the west, declared that in his opinion crops had amazingly improved. His house, on quite a large scale, sold distant options-August and December-and bought July. It was said that he was closing the "stradule" made before he went away. St. Louis was relatively strong, advancing a little faster than Chicago. It was apparent that her traders were large buyers of December. New York was, in a general way, on the same side. The movement of the deferred options back to their natural relative places continued. August, which opened at the same price as July, at 1 o'clock was 1/c premium; and December, which at the opening showed Bycopremium, was almost 2c at the lo'clock close.

Corn took another of its spurts almost immediately after the opening. The receipts— 584 cars-were 217 under expectations. There was buying at once by Foss, Strong & Co., and Jones, Kennett & Hopkins ran

to cover. There was a tempor-ary setback when Friday's estimates— 754 cars—came in for they were considered large. But the bulls had the better of it all the session. May opened at 5756c, touched 59c, and at 1 o'clock was selling at touched 59c, and at 1 o'clock was selling at 58%c. July opened at 53%c, touched 56%c, and at 1 o'clock was 56%c.

The excitement among May shorts in oats continues. That option opened at 35%c and touched 36%c. June opened at 33%c and sold at 34%c. Norton and Worthington led in the transactions, selling May and buying other options. They took one lot of 250,000 bushels from Loos Konnett & Honkins for stone.

from Jones, Kennett & Hopkins for June. In provisions another slow and featureless day was passed. Cash buyers made tolerably fair purchases of meats, but in the way of speculation the dullness witnessed was even more marked than on any of the former days of the week. Still the feeling developed was strong and products of all descriptions were held steadily on limited changes in prices. One o'clock closings, in fact, showed an actual advance of 2% in short ribs and 5c in pork. Lard closed just the turn—2% — ensier. Future trading was confined almost

wholly to the coming four months, with July the center of interest.

## Short ribs were quiet and unchanged. CHICAGO LIVE STOCK.

CHICAGO, May 24 .- [Special Telegram to THE BEE !- CATTLE-Trade was active considering the big run of to-day and yesterday and the large increase over last week. The run of Texans was heavy-about 4,000 yesterday and 2,500 to 3,000 to-day. Texans were again quoted lower, making a decline of 25c for the week so far. Native cattle ruled substantially lower, even the light and fancy class that has been the favorite and sold so readily during the past month or so, had to stand its share of the decline, while big coarse classes and others that had to compete with Texans are 15@20c lower than at the opening of the week, yet about all were sold, as Chicago had nearly all the cattle in sight at western points. In old times when values fell 50@75c, the drop to-day would not be noticed. Native butchers and canning slow; few very fine cattle. Native cows may be sold at fair prices, but the demand is uncertain and limited at best. Old canning stock is not wanted; grass Texans that are so plentiful are preferred by buyers. There was some life in the stocker and feeder trade, yet business is slow and unsatis-factory. Voal calves are 50@60c lower than at the opening of the week. Becves, choice to fancy, \$4.90(65.20; good, \$1.50@4.60, medium, \$4.20(24.30; inferior, \$3.80(24.10; cows, \$1.85(a)3.50; stockers and feeders, \$3.00@4.20; Texas steers, \$2.00@4.20; cows, \$2.10@2.50.

mixed at \$5.65@5.70, with common mixed at \$5.60@5.62%. Light sorts sold largely at \$5.55@5.60, and occasionally a double deck of closely assorted, averaging 180, made \$5.65@ 5.70; light-light, \$5.40@5.50. FINANCIAL

NEW YORK, May 24 .- [Special Telegram

to THE BEE. |- STOCKS-The stock market,

Hogs-The market was active and prices

steady as compared with yesterday's. Best heavy ranged between \$5.75@5.85, and best

although apparently a trifle more active, was irregular and decidedly feverish. Up to noon the sales were \$4,940 shares, \$5,500 shares being St. Paul and 12,100 Reading. The bears still control the market, but are resorting to many underhanded and questionable practices to favor their side, A sensational rumor was started reflecting on the standing of a prominent room trader and for a tine it created considerable excitement. The rumor, however, proved to be groundless, as the trader in question has \$300,000 in government bonds, and has been one of the most successful in the market for a month past. Since May 1 there has been a decline of 8 points on St. Paul and Missouri Pacific, 314 on Lake Shore, 314 on Northwestern, 314 on Reading and 2 on Western Union. The rest of the list has also suffered more or less, but the stocks named have been the most active and show the most important losses. Parties who borrowed St. Paul a few days ago for delivery returned it to-day, showing that the stock sold was unquestionably long stock. Attempts have been made to support this property, but without effect, as the price dropped 1% points this morning, the decline being hastened by the decrease of \$39,000 in the earnings for the third week in April. This decline, however was not entirely due to the loss of business, but to the interruption of truffic and losses by washouts and floods. It is said that Reading earnings for April will make a better show ing than expected, but prices dropped I point. Buying points on Union Pacific were thick and it advanced 1/4 per cent, but later re-
