EXAMINING BUILDING STONE.

Lancaster County's Commissioners Return From Their Trip.

THE CITY LIQUOR ORDINANCE.

It Will Not Be Tested in Bud Lindsay's Case-Trouble in Ethiopia-State House Items-City Briefs.

LINCOLN BURRAU OF THE OMAHA BER, 1029 P STREET, LINCOLN, May 24.

The county commissioners and County Clerk Bell, who went west several days ago to make an investigation of building stone before deciding what material to use in the new court house, reached home by the delayed flyer last night. They were accompanied on their trip by the architect, Mr. F. M. Ellis, who went to Omaha instead of returning here with the board, but came down here this afternoon to give the board the benefit of his juagment when they make their final decision. The bid of W. H. B. Stout, which the board decided to accept, was a double-barrelled one. He made a bid in which he proposed to use Colorado red sandstone and another in which he contemplated using Ohio blue stone-the latter bid being \$3,000 higher than the other. The board visited Cheyenne, Wyo., where the new Union Pacific depot building is built of red sandstone. They then went down to Fort Collins, Colo., and visited the quarries which are about seven miles from that place. They found that the whole earth is underlaid with stone in that vicinity and that there is no danger of the supply running short. From Fort Collins they went to Denver and inspected several large buildings in that city in the construction of which the red sand-

WILL NOT TEST THE ORDINANCE.

The attorneys for Bud Lindsay, who had given out that they would test the city liquor ordinance by allowing Lindsay to go to jall and then applying for a writ of habeas corpus from the supreme court, decided not to do so, chiefly because the supreme court is not in chiefly because the supreme court is not in session and they could not get a writ, howpyer good a case they might have. Lindsay was put on trial yesterday afternoon. Policeman Tubman testified that he had got beer
in bottles at Lindsay's Sunday night. Two
other witnesses stated that they had bought
bottled beer in the afternoon of the same
day. None of them bought it of Lindsay,
and they could not tell whether the person of
whom they bought it was in Lindsay's employ or not. Lindsay testified that he had
closed up at the proper time and given his closed up at the proper time and given his help strict orders not to sell any liquor until Monday. The court discharged the defend-Monday. The court discharged the defend-ant, holding that the witnesses had failed to convict Lindsny with the sales and that the testimony of men who decoyed another into the committing of a crime for the purpose of informing upon him was not worth enough to

the committing of a crime for the purpose of informing upon him was not worth enough to warrant a conviction on it alone.

The talk of the colored citizens of Lincoln at present is the series of difficulties which have grown out of the easy familiarity with which the ex.Rey. Payton Buckner has deported himself toward the dusky daughter of a dusky sire named Tom Rogers. Mrs. Buckner did not approve of the state of affairs as existing, and the discussion of the matter between Annie Rogers and herself lieveloped a row at which Tom assisted with a few well directed blows, which placed Mrs. Buckner hors du combat. Mrs. Buckner revenged herself by making complaint in the police court, and Tom and Annie Rogers paid their fines. As Annie and a companion were going home from court, however, they were set upon by five determined and pugilistic bolored women, headed by Mrs. Buckner, who would have compassed a dire revenge upon Annie but for the timely arrival of Policeman Bates, who lugged the five off to the cooler. Mrs. Buckner was fined \$3 as the head and front of the riot and the others were discharged.

STATE ROUSE TOPICS.

THEE OF DESERTION.

A heavy set, sandy complexioned man, who gave his name as William Robinson, delivgave his name as William Robinson, delivered himself up at police headquarters to-day and explained that he had been a soldier at Fort Abe Lincoln in Dakota for several years. In May, 1856, he tired of army life and deserted. He wandered around a short time until he felt safe to apply for work, when he came to Lincoln and has been here ever since. The police were inclined to look upon the story as a "fake," but have put Robinson in guard until they can get word from the army authorities.

Dr. Wesiey Queen had H. C. Palmer arrested this morning and taken before Justice Snelling on a charge of stealing a \$100 note.

It was found that the charge grew out of a squabble over a land deal and Justice Snelling discharged Palmer.

Excursion trains were run out to Cushman park all this afternoon and the excursionists were tolked to the depot by the strains of a band employed for the occasion.

There was a very large attendance at the opening of the park, which promises to become one of the most popular resorts about Lincoln.

The Latest Fashion

A Block Watchman's Escapade. A block watchman who does duty on the apper end of Farnam street is minus \$12 in cash, and is fully cognizant of the sting the club of the marshal of Plattamouth leaves on a man's head after the two come in contact. It is alleged by the Plattsmouth newspapers that this watchman represented himself to be a regular on the force of Omana self to be a regular on the force of Omana, and during a recent visit to the above point behaved himself in a very unbecoming and demonstrative manner. He refused to take good advice when it was volunteered, and was run in and fined. The name of the "disturbing factor" has been printed in the Plattsmouth papers as a member of the regular force, which is not so, and the boys are anxious that the proper correction be made.

An Assurance of Health.

Among the assurances of health afporded us by the regular discharge of the bodily functions, none is more im-portant and reliable than that which regularity of the bowels gives us. If there is any-even a temporary inter-ruption of this-the liver and the stomach suffer conjointly with mactive organs, and still greater mischief ensues if relief is not speedtly obtained. A laxative above all cavil on the score of mineral composition or violent effect, is Hostetter's Stomach Bitters, approved by the medical profession and a most important item of the family materia medica of American households. It is botanic, painless in action, and if persisted in effectual. The stomach and liver, in no less degree and no less promptly and thoroughly than the bow-els, are regulated and toned by it, and it is an admirable defense against malarial and rheumatic ailments, and a benign remedy for kidney complaints, nervousness and debility.

Held for Rape. Before Judge Berka yesterday Joe Roberts was arranged on the charge of committing rape upon the person of Anna Bellman, the eight-year old daughter of Max Bellman, who resides on Twenty-eighth avenue. Dr. Grossman testified that he examined the little girl, found her clothes torn and bloody, her person bruised very badly, and that in his opinion she had been fouly treated. The little girl testified and corroborated the report published concerning the

At the conclusion of the testimony Roberts was sent up in default of \$2,500 bonds.

Caught With His Booty.

Two suspicious-looking individuals, each with a large bundle of clothes, were discovered by the police about 11 o'clock last night near Krug's brewery. At sight of the police one of them dropped his bundle and escaped but the other was gathered in. The clothes, which consisted of several coats and bairs of pants, were carried to the central station, and evidently had been taken from some boarding house while their owners were asleep. The fellow captured gives the name of Fd Weier.

SOUTH OMAHA NEWS.

The New Viaducts. Assistant City Engineer Lawrence has now prepared the plans for the proposed Q street viaduet. It will be 1,104 feet in length and the estimated cost is \$31,500. Commencing at the east line of Twenty sixth street, it will reach the west line of Twenty-seventh streets, and span both line of Twenty-seventh streets, and span both the Union Pacific and stock yards tracks. The approaches will take up about 300 feet, and the remaining 800 will be divided into four spans, ranging from 52 feet to 195 feet in length. It will be built on stone piers resting on oak piles, and the superstructure will be of wood and iron. It will be thirty-two feet in width, which will leave a twenty-feet roadway, with a five-foot pathway on each side for the passengers. The flooring will be of oak, resting on pine plank, and the structure is intended to be both ornamental and useful. Messrs Rust and Way are busy on the plans for the L street viaduct and will report in about a week. It is to be about fourteen hundred feet in length.
