A permit for a \$1,500 residence was issued yesterday to E. J. Downie. The new build-ing will be erected in Beer's sub. The brick work on the addition to Neu-meyer's hotel is about completed, and when the cornice is finished the front will be one of the finest in that part of the city.

There will be a special meeting of the board of trade this, Friday, evening at 8 o'clock, sharp. Important business demands the at-tention of every member of the board.

tion of things will result, a short time, per-haps a few hours, will determine. The trouble is the result of a recent order that Kansas City engines and cars would run over the Union Pacific bridge, from Omaha to Council Biuffs. If this order is enforced the "powers that be" say nothing can avert a wholesale walkout. It is thought that the matter will be compromised in some way. Various rumors were affoat here yes-The "fats and leans" deny the statement that in their recent base ball contest they covered themselves with glory. They say it was grass stains that covered them, not The city papers will please make the correction.

Yesterday afternoon at 3 o'clock Miss Georgia Duncan, daughter of George Dun-can, was united in marriage to Barney Hur-ley. The ceremony was performed at the home of the bride's parents, on lower Brandway way. Various rumors were afloat here yes-terday, one to the effect that a strike had been ordered and would go into effect this morning; another that the Union Pacific had proposed to run the Kansas City cars over the bridge with their own engines, which Broadway.

William Mitchell, a "view" artist is "tak-ing" some of the many beautiful spots about had been accepted by the engineers. Both have been disputed by those whose positions the city. It is safe to say not one in a hundred of the occasional visitors to this nave been disputed by those whose positions entitle them to know whereof they speak. The recent small "walkout" is by no means settled. The matter is being investigated, which may prove an important factor in the case. It is declared to be a fact that the Union Pacific engineers will not run or be associated in any way with the 'O easily' on city has any adequate conception of what Council Bluffs is or what it possesses in natural beauty.

James Mapleton, the man who was found by the police with a deep gash across the calf of his leg, and too drunk to tell any-thing about how it happened, is getting along associated in any way with the "Q scab" en-gineers. Without doubt the Union Pacific officials will protect themselves by all fair means, and that, too, without doing any in-justice to those who serve them and the puball right at the hospital. He now states that a darky slashed him, but the police are un-able to lay hands on the colored carver.

The Congregational society has decided to engage Mrs. A. B. Howe as organist. The selection is a good one, as Mrs. Howe is one of the most accomplished organists in the city, and her services will add much to the effect of the fine vocal music rendered at this church. church.

The knitting factory is now in full blast and turns out about one hundred dozen pairs of mittens and socks per day. A new ribbing machine has been added and does the finishing work. The work has thus far been con-fined to small work, but shirts and jackets will be turned out in a short time.

The next ball game will be played on the Manawa grounds Sunday afternoon, when the home team will cross bats with the J. J. Hardins, of Omaha, for the first time. As the visiting team is one of the strongest in the Council Bluffs and Omaha mercantile league, a fine game may be expected.

The Broadway paving is torn up again at the corner of Bryant street for the purpose of making sewer connections with the mar-ket of George H. Meschendorf. This continual tearing up of the pavement and the subsequent settling that is sure to follow is a short time after it is replaced is one of the strongest arguments that can be advanced in favor of having all this work done before a street is paved.

One of the neatest and most unique things gotten up in the way of decoration on Wednesday, and which caused general remark, was that exhibited by ex-Alderman Wells. Upon the broad slope forming the base of the terrace at his residence, on Oakland avenue, was the name of Wells, wrought in large letters made of white and carnations. Upon the broad bank of green the effect was most pleasing.

It speaks volumes in favor of the establishment of an assembly at this point: B. Zevely, secretary, board of trade, Council Bluffs: OMARA, May 29.—Dear sir—I am in receipt

of your valued favor of the 28th, making cer-tain inquiries in regard to our Chautauqua assembly at Crete. I can only answer your questions by the general statement that up to date we have made nothing out of the Crete assembly in my opinion. Of course, it is dif-ficult to tell, but my judgment is likely to be correct. We are encouraging it because we believe that the time may come that it will pay us from a passenger standpoint, and as it is located right in the heart of our local ter-ritory we think it will not be a bad invest-ment if we should merely come out even on it, such things having a good influence upon the community generally. Yours truly, P. S. Eusris, General passenger and ticket agent.

## Personal Paragraphs.

The Burlington officials claim that they do not care whether their engines cross the river here or not, as the cars are all they are anxious about. They say they are perfectly willing for the Union Pachfic to furnish engines, if that company thinks it will be cheaper in the end. From present indica-tions the matter will be amicably settled without further transle T. H. McCarthy, of Dubuque, was in the city yesterday. W. S. So far as the Burlington and Rock Island roads are concerned, the Manawa crossing question is finally settled, as contracts have been signed by the officials of both these roads and Mr. Reed, of the motor company. The crossings will be put in just as soon as the necessary timbers arrive. The Milwaukee has not yet accepted any proposition, and it is reported that a man is kept at their crossing to see that no move is made to tear up their track. It is hoped that they will no longer hold back, but will agree to accept reasonable terms, as have the other two companies.

above each mantel, is set a handsome mirror that reflects the beauties of the elegantly furnished room. The marble work is all done by the Pickel Marble company, of St. Louis, and it is done in a manner highly creditable to that well known firm. The word on the entire building will be finished in about two weeks, but no changes will be made until about the 1st of July. An orallor removal of the posterflag earlier removal of the postofice from its present location could be made, but there are present location could be made, but there are certain formalities to be observed in con-nection with the occupancy of the building, and the acceptance of the furniture cannot be hurried. It is the intention of Postmaster Bowman and his associates to fittingly cele-brate the formal opening of the beautiful structure to the use of the public by an in-augural banquet, but the details are not fully arranged at present.

#### Entered Into Rest.

Yesterday morning at 4 o'clock Miss Emma Josslyn died at the home of her sister, Mrs. H. W. Felton, No. 527 Fifth avenue. The fatal ailment was tonsilitis and diphtheria. She had been a partial invalid for many months, and when this last and fatal complication developed, less than a week ago, the sufferer possessed but little constitutional vitality to withstand it. The faithful attendtailty to withstand it. The faithful attend-ance and ministrations of loving hearts and hands could not stay the destroyer, and when the doors of the east opened to let in the day the rejoicing and triumphant soul reluctantly left the tenement of clay and was borne, by unscen hands, through the portals into the presence of Him she loved and in whom the faith of a christian heart had hear porfected faith of a christian heart had been perfected.
