Western Association Standing.

Des Moines holds tenacicusly to first place notwithstanding the fact that she has drop ped three games this week. Omaha still holds second, with Kansas City third. St. Louis has fallen from grace after her brilliant work of the week before when she repeatedly walloped two leaders; Kansas City took three straight from them, and Des Moines two out of three. The most important matters of the week of local interest were the fine work of the Omnhas in the series with Des Moines and the unmerciful drubbing they received yesterday from Kansas City. But every team has its off day and Omaha must have hers. All the southern teams now go north and try conclusions with the representatives of the marine towns. Memorial Day.

San Francisco, Cal., May 30 .- [Correspondence of THE BEE. |-It was one of those sun-kissed days of famed California-not rare beyond the range-but radiant and replendent. Ingots of golden sunshine played upon the bare, board floor of the humblest home, no less beautiful than upon the elegance and grandeur of the palace on Nob hill. It was Memorial day and nature seemed to be in happy harmony with those who gathered to do duty to the honored dead.

For years past trouble has been brewing between the two organizations known as the Woman's Relief Corps and the of the Grand Army Ladies the Repulic. Comrade Murphy, chairman of the Decoration committee, declined a request of Mrs. Ella Smedley, state president of the Lagies of the Grand Army of the Republic, to allow that organization to decorate the soldiers' graves at the cemetery with white satin flags, on the ground that that duty properly belonged to the grand army alone. Mrs. Smedley wrote a letter in which she regretted that their order had been denied the right to place a white satin flag, bearing the simple inscription,
"The mute echo of thousands of aching hearts," upon the graves of husbands, fathers, sons and brothers. She further "The garlands that we twine for these memorial days are stirred with the tears of woman's devotion, and we lay our offerings over our dead with a prayer to the Great Commander that this sacrifice we give our country shall be the saving of its liberty forever. Our order will abide by the decision of your committee, and in silence each heart will repeat the sentiment we would fain have give this mute expression, knowing that in other places through our state the simple bit of white is waving above the sleeping loved

This called forth great discussion. The chairman asked a member to take the chair, and said: "I am heartily sick and tired," he said, "of this woman's war being carried on in the Grand Army of the Republic. I heartily wish there were no such things as either the Woman's Relief Corps or the Ladies of the Grand Army of the Republic. Any loyal woman, whether or not she be a member of an organization, is heartly invited to make floral offerings and I'll see to it that they are appreciated and put in the proper place. This is the first time that I have ever given my opinion publicly on this time-worn sub-ject. The Woman's Relief Corps is the only organization recognized as an auxililary by the Grand Army of the Republic, although

the national encampment refused to allow them to use the letters "G. A. R." The Ladies of the Grand Army of the Republic were organized to fight the Woman's Relief Corps. When they make Memorial Day a cause for their bickerings I'll put my foot on . It is utterly wrong. It is outrageous.'
The remarks were received with applau and a motion was unautmously carried that no badges or flower-pieces representing the badges of either organization, should be al-

lowed in the procession, at the cometary or on the stage of the opera house. But to day all the blokering seems to have been forgotten. The flags on the city halls and at the parks are displayed at half-mast. and the day has been properly observed. The procession—long and burdened with the wonderful flowers of our state—started from the Palace hotel out Market street to Garden Gate avenue, thence to Masonic avenue, theace to Point Lobos avenue, thence to the

THE HEATHEN. The Chinese are coming in larger numbers than ever. From present appearances every steamer arriving from China will be weighed down with all the heathens that can safely be carried. The immigration of Mongols during the next four months is expected to reach over four thousand five hundred for four thousand five hundred mouth. Should the treaty every mouth. Should the treaty be ratified it will prevent an exceedingly large number of coolies from returning. Out of 12,600 "prior residents" the courts have acted upon about 7,000, leaving 5,600 heathens who will be shut out of the treaty. The customs authorities have thus far issued 6,500 return certificates. This number includes all who have gone away since 1882. According ing to an account prepared about a month since 32,500 of these certificates have been canceled. Some 1,200 or 1,500 certificates have been canceled since that time, making the number of Chinese who have returned with certificates about 34,000. About 31,000 certificates are now in China, and if these are voided by the Chinese government 36,000

will be barred out.
