# A REVOLTING CAREER ENDED.

A Female Murderer Suicides in the State Penitentiory.

SHE WAS A VICIOUS PRISONER.

Successful Meeting of the Irish League Proposed New Towns on the B. & M .- State House Occurrences-City Briefs.

# Lincoln Burrau of the Omaha Bee, 1029 P Street, Lincoln, June 4.

A suicide of an unusual and sentimental character occurred at the state penitentiary yesterday morning whereby the occupant of cell No, 243, gallery No. 5, ended a life full of tragic and revolting incidents. The occupant of cell No. 5 was a woman. Perhaps it were best now to say that she is a woman, as it could hardly have been said before this last desperate act as it can now be said in the language of the Bridge of Sighs, "All that is left of her now is pure womanly." Mrs. Sarah J. Overton was sent to the pen-Stentiary last September for a peculiarly horrible crime which is fresh in the minds of the readers of THE BEE. She was living in Butler county with her husband and several children. One morning the news was taken to the neighbors that the husband had been found with his head nearly blown off by a load of buck shot from a shot gun. There were no witnesses against the woman but her own little children, who testified clearly and consistantly, in spite of the most rigid cross examination, that their mother, while her husband was not watching and was perhaps asleep, had taken the gun and deliberately murdered him. She was convicted on this testimony and was sentenced to the penitentiary for a term of twenty-five years. The woman proved a vicious and unruly

prisoner from the first. She was continually quarreling with the other female convicts and the authorities have not been able to compel her to do a day's work since she entered the prison. She got into a rage on Saturday morning and was tearing her bedding to shreds when she was taken from the room where she was with other female convicts and placed in a cell. In this cell yesterday morning about half past 6 o'clock she was found with her throat cut from ear to car. An examination showed that the fatal work had been done with a case knife which she had managed to secure and conceal, and which she had sharpened for the purpose. Coroner Shoemaker was called and summoned a jury and an inquest was held. Beside the facts which are given above it was brought out that the woman had frequently said that she would never serve out her sentence and that when a con vict was buried last Friday she remarked that there had never been a woman buried in the grounds and that she would probably be the first one. These facts, it seems, were not known to the prison officials.

The coroner's jury rendered the following verdict: "That the said Sarah J. Overton came to her death on the third day of June, 1888, at 6:30 a. m., by cutting her own throat with a sharp table knife, sharpened by her in her cell for that purpose, with her own hand with intent to commit suicide." THE IRISH NATIONAL LEAGUE.

The meeting of the league yesterday af-ternoon was opened by J. J. Butler with a few remarks of an encouraging and inspiring character. After a piano solo by Miss Sut-ton, Secretary Sutton gave an interesting account of his travels in the southern states and Mexico in company with Sir Thomas Grattan Esmonde, Prof. Menzendorf, accompanied by Miss Okeson, charmed the au-dience with a violin solo, after which Miss Okeson sang "Dreams" delightfully, and Mr. David Fitzgerald sang "The Meeting of the Waters" with much taste and feeling. The following resolutions were passed:
Whereas, It has pleased Almighty God to
take to himself one of Ireland's most gifted and most illustrious sons in the person of the

Dr. O'Gorman, who has recently become a citizen of Lincoln, made a few remarks upon request, and Mr. P. O. Cassidy made a stirring and pathetic speech. By request the speech of John F. Finerty at the Battery D meeting was read by Mr. Sutton, and a motion was carried ordering it printed for the information of the people. A motion was carried fixing the people. A motion was carried fixing the meetings until after September on the first Sunday of each month, and Mr. J. A. Kilroy was nominated for speaker at the first meeting in July.

The Lincoln Land company is catching up as fast as possible with the railroad extensions which left them behind last summer, and is preparing to lay out a large number of new towns at an early date. On the proposed line from Holyoke to Akron, which has been surveyed and the right of way for which has surveyed and the right of way for which has been received, but on which no work has been done, the towns of Dolhi and Bryant will be platted. On the line from Sterling to Cheyenne the following points will be laid out: Willard, fifteen miles beyond Sterling; Raymer, twenty miles west of Willard; Ke-ota, fifteen miles farther; Grover, fifteen miles still farther, and Hereford and Orcala between Grover and Cheyenne. This section of country is developing with wonderful rapidity, and as there is a stretch of 100 miles between Sterling and Cheyenne there will be several excellent towns, and at least one

The scheme of securing the works for a new patent steel car, which was talked of last fall, has not been aliscussed for several months and people in general have believed that it was dead. It was not dead, however, but sloeping, and it can hardly be said to have been sleeping. The sample was being constructed in Boston and is now about complete. Mr. John C. Bennell, to whom the syndicate entrusted the work of securing the amount of land which they believed would remunerate them for establishing the works here has been working quietly but steadily, and states to-day that only a few more acres remain to be secured. He has no doubt that he will be able to secure these and expects to telegraph THE STEEL CAR WORKS.

Sunday's Ball Game.

There was a large crowd at the ball park Sunday, and they had the privilege of witnessing the best game of the season. The visitors were the Metz Bros., and they sucseeded in carrying off the honors and the game with a score of 5 to 2. The home team played well but were in hard luck, and the fielding of both clubs was excellent. There was a little too much kicking in the fourth inning, but it seemed to have had a good effect, as after it was over both teams played bail. In the seventh inning Pitcher Hughes of the Jetter and Youngs collided with Hart of the Metz Bros., and was severely cut near the eye. The following are the scores:

Sixty Cents For a Life.

Gillen, c...... 3 Croft, m...... 3 Birmingham, 2b... 3

At the fatal Q street crossing yesterday morning, the dead body of Johnnie Mack offered a mute protest to the present overbearing policy of the Union Pacific. Had the management granted the prayer of the city council, and made that a stopping place, the dummy would not have killed one of their employes, but it would cost sixty cents to stop the train, and only the life of a man not to stop it. The train did not stop. No blame could be attached to the crew of the dummy who were themselves risking their lives in who were themselves risking their lives in obeying orders and passing a dangerous curve at a rate of speed that would not be tolerated in any other city in Nebraska. John Mack foreman of switch engine 1159 was the victim. He jumped from his engine to turn a switch, but lost his footing in the loose gravel that is used for ballasting and had been allowed for week's to lie between the tracks. Before he weeks to lie between the tracks. Before he could recover he staggered in front of the 9 o'clock dummy going north and in a moment was only the semblance of a man. Portions of his body were strewn along the track, and when medical aid was summoned it was found that he was beyond help. He was thirty-two years of age, resided on South Tenth street and leaves a wife and three children. He was a trusted employe of the company that cost him his life and stood high in the esteem of the men with whom he worked. The remains were removed to the undertaking establishment of Heafey & Heafey, Omaha.

The coroner's jury found "that death was

accidental, and no blame attaches to the said Union Pacific railway company."

The funeral will take place Wednesday morning at 9 o'clock.

Police Troubles for May. The police court record is an interesting document for the month of May, and shows that the police force has been doing its duty. So has Judge Reuther. There were 128 arrests made and of these forty-six paid fines, thirty-nine were dismissed, thirty went to jail, two appealed, four were ordered from the city, and two were pardoned. One was arrested for horse stealing, two for draying without a license, eleven for assault and bat tery, three for petty larceny, four for resisting officers, four for fighting, thirteen for disturbing the peace, two for defrauding landlords, one for obtaining money under false pretenses, fifty-seven for being drunk, seventeen for vagrancy, five for peddling without a license, two for plumbing without a license, and one for house breaking. The total amounts of fines collected amounted to \$171, of which \$156 goes to the school fund

and \$15 to the county.

The Best Month Yet. Once more the Stock Yards Co. reports progress, and it is progress of the 18-karat kind. Each succeeding month shows that the advantages offered to the live stock men by South Omaha, are becoming appreciated and that is only a question of time until it is what it was intended to be—the leading live stock market of the country. Much of the success is due to the staff of employes, who so efficiently and so courteously do their duty. The returns for the month of May show it to be the banner month, the receipts being greater than ever. There were 245 cars, and 157.834 head of hogs, 1759 cars and 35.734 cattle, 66 cars and 9412 head of sheep, and 20 cars and 482 head of herses. South Omaha packers using 13,208 head of cattle, 104,330 hogs and 2,687 sheep, and the halance being hogs and 2,037 sheep, and the balance being bought by eastern buyers.

His spine was injured badly and in such a manuer that his attending physician has been of the opinion all along that he could not live. He leaves a wife but

An inquest will be held over the remains of Barrate to-day, they naving been conveyed to Drexel & Maul's for that purpose. In this connection it may not be out of place to remark that no very diligent search appears to have been made for the dead man's assailant. At the time the crime occurred a crowd of men were near by, among them was a little German express-man, who claimed to be able to recognize the men at a glance, but it appears he has not as yet had an opportunity. Whether or not anything will be done remains to be seen, but as the case stands at present it appears as though the murderer would escape.

On last Saturday the now famous firm of Armour & Cudahy awarded the contract for the erection of a number of buildings in addition to their present house at South Omaha which will require the laying of 3,000,000 bricks. The contract was awarded to Chicago parties who are now on the grounds and have commenced the manufacture of brick for the purpose already. The buildings will comprise a smoke house, a lard refinery, a dressed beef house, a canning factory together with a building for offices which shall be 100x150 feet in size. This will be large enough to accommodate a force of 100 clerks. The work will be proceeded with immediately and be an important addi-tion to the enterprise of this firm as well as add considerably to the commercial import ance of our suburb on the south.

GRATEFUL .-- COMFORTING Epps's Cocoa

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operation of digestion and nutction, and by careful application of the fine properties of well-selected Cocoa. Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many beavy dector's bills. Its by the judicious use of such articles of filet that a constitution may be gradually built up until strong enough to resist every tendency to discuse. Hundred of subtle maidles are floating around a ready to attack wherever there is a weak point. We may eacage many a fatal shaft by keeping oursolves well fortiled with pure blood and a properly nourished frame."—Until Service Gazette.

Or the Liquor Habit, Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist.
