Seventh Year For the Great Gasoline Quick Meal Stove.

Over 950 were in use in Omaha January 1, 1888. Nearly 150 have been sold this spring. Not $5.00 worth of repairs have been needed for the whole lot. Never an accident has been reported from one, when all other gasoline stoves have caused accidents. The reason the Quick Meal has never caused an accident, is because it is so arranged that it strictly guards against accidents.

It will take only two-thirds the fuel of any other gasoline stove, and will do all your cooking, washing, baking and ironing with two-thirds the expense of a coal stove.

You feel better in the fall after using a Quick Meal through the summer, because you have not perspired your health away during the summer over a hot cook stove in the extreme hot weather.

Below I give the names of 100 who have bought the Quick Meal this spring. Look over the list—may be some of your acquaintances are among them, to whom you can refer for information.

F. P. Stone, 3423 Burt; C. W. Van Dorn, Walnut Hill; George P. Hengen, real estate, Paxton block; C. A. Abercrombie, 1713 Chicago; T. W. Go to Pries lake for family, club and school picnics.

SOUTH OMAHA.

Death and Burial of Unfortunate Walter Parker.

Walter Parker, the young man who was so severely scalded at Armour's packing house, was buried in Laurel Hill cemetery yesterday. Funeral services were read by the Rev. Mr. Eddleblute of the M. E. church, and the funeral itself was in charge of Messrs. Heafy & Heafy. Quite a number of his fellow-employes were in attendance, and they, with his friends, wish to pay a public tribute to the generosity of the firm for which the deceased only worked a day and a half. No expense was spared to save his life, and when medical skill was of no avail, the firm charged themselves with the entire cost, and then gave orders that the remains should be buried in a manner befitting a man who lost his life in an honest attempt to earn a living. Parker was all the more deserving of it, because it has come to light that he was one of the striking engineers on the Burlington, and that he chose rather to earn his living by working at a business with which he was unfamiliar than to be a burden to the brotherhood to which he belonged.

Wanted—A Health Inspector.

"If no one else will tell the city council THE BEE might as well have the credit for doing it, and say that the Stock Yards company have no intention of letting the city use their sewer," said one in position to know. "But I don't blame them," he added, "for if the city once got in there is no knowing when they would be willing to quit, and the company has now in contemplation the building of two other mammoth packing houses, which would tax the capacity of the present sewer to the utmost. There is no doubt, however, that the company would, on payment of a fair rental, allow the city to use the tunnel at Albright, and that is all they should ask.

Protracted By the Heat.

Several cases of heat prostration were reported yesterday. Two of the victims are Berry and Christ Frick, laborers at work on the sewer from Eleventh to Twelfth streets, between Howard and Jackson. Their cases are not serious. The water boy for the payers at work on the county court house grounds was taken with a fit, probably brought on by the heat. His name is Lawrence McKennen.

The Bee Extends Thanks.

THE BEE acknowledges the receipt of a handsome photograph from J. A. Bidwell, New York City, with compliments of George Francis Train. The picture is a scene in Central Park, New York, with the hoary-headed sage and Omaha boomer in the background. On all sides of him are his favorite friends—children, each holding in his or her hand a New Year's number of THE OMAHA BEE, showing plainly the magnificent structures lately erected in the Nebraska metropolis. The photograph is an unusually handsome and striking one.

Fewer "Guilty."

County Attorney Simeral says the severe sentences of Judge Groff has had the effect largely increasing the number of cases in which the accused plead not guilty. This increases the attorney's work, but he thinks it will ultimately have the effect of reducing the amount of crime.

Stonehill's Monday.

The dress goods slaughter still continues. 200 pieces more of those $1 all-wool dress goods at 39c; can't be duplicated in the United States.

There are more performing ponies with Howe's London 10c circus than all other popular price shows combined. At Omaha one week, 18th and Charles sts., July 6 to 12.

COUNTY COMMISSIONERS.

Proposition to the City for Offices in the Court House.

At their meeting yesterday the county commissioners adopted the report of their committee on court house and jails, which embodies a proposition to the city for the continuance of its offices in the court house. It is as follows:

"Your committee to whom was referred the communication of the county clerk regarding the expiration of contract with the city of Omaha for basement offices in court house respectfully report that said city be allowed the use of the offices already occupied by them and also a portion of the office of the county surveyor for the use of the city auditor for a term of three years from this date, provided said city of Omaha shall pay for all the water used in said court house and grounds or for all the gas used in said court house building or to pay to said county as rental the sum of $75 per month."

The commissioners approved the contract made with Canfield & Fleming for grading Thirty-sixth street at 13 8-10c per cubic yard, no over hand. Also approved the bond of the contractors, which was for $5,000 with J. A. Creighton and Henry A. Koesters as endersers.

An application from Owir C. Ludlow to be reappointed justice of the peace for the sixth ward was referred to a committee with power to act.

A petition was received from persons using Military avenue, that it be cut, filled and widened at certain points.

County Attorney Simeral submitted his report, and it was accepted. He reported criminals tried at the February term of the district court and twenty-three at the May term, exclusive of cases dismissed or "nolled." The grand jury called at the February term indicted for gambling. These were arrested and fined $350. The attorney recommended the commissioners to take advantage of sections 531 and 532 of the compiled statutes and work prisoners upon the roads of the city and county. Following is a summary of the convictions at the February and May terms of court:

Burglary	9
Robbery	2
Grand larceny	10
Forgery	1
False pretenses	1
Murder, second degree	1
Embezzlement	1
Assault to kill	2
Illegal voting	1
Rape	1
Crime against nature	1
Total	30
Sentenced to county jail	6
Paid fines	3
Total	39
Acquittal	15
Total	54

The $500 bond of Simon McCarty, road supervisor, was approved. His sureties are Charles J. Bauman and Bruno Wagoner.

After July 1 the ice for the court house and jail will be furnished by Kimball & Bungate instead of the Arctic Ice company. The commissioners declined to give the reasons for the change.

The new boilers and machinery at the jail have been placed in the charge of Mike Lahey, the engineer of the court house.

Rabbi Benson asked the commissioners to pay the fare of Ad. Schloss to Chicago. He stated that Schloss is an invalid on his way from Missouri to Denver, but is in dangerous condition and should be sent to his home in New York. He is without means, and the rabbi offers to furnish transportation cast of Chicago. The request was referred to the committee on charity with power to act.

FORT OMAHA NOTES.

Lieutenant Thomas Wilson, Second infantry, who has been attending the United States military school at Fort Leavenworth, Kansas, is now at the garrison and will spend a week with his old regiment and then return to Leavenworth and resume his studies for another year, after which he will again join his regiment.

Second Lieutenant J. M. Arrasmith, Second infantry, who was granted a leave of absence, has taken a trip east to visit his relatives.

Edmund Butler, esq., eldest son of Major Edmund Butler, is now at the garrison visiting his home. Mr. Butler is a promising young lawyer, and at present officiates as judge of the police court at Miles City, M. T.

The monthly "muster" of the Second infantry took place Saturday morning at 9 o'clock, which was preceded by a review and inspection.

Acting Assistant Surgeon F. L. Henderson will proceed to Bellevue rifle range and report to Lieutenant Colonel Joshuah Fletcher, the commanding officer, for duty with the battallion of the Second infantry now at the rifle range, in time to relieve Acting Assistant Surgeon H. S. Haskin on July 1. Doctor Haskin, on being relieved, will return to Fort Omaha and resume his former duties as garrison physician.

A good many shoes are made in Lynn, Mass., (that's the place where they put the brass nail into the shoe sole that is always sticking into your foot instead of tending to the business of keeping the shoe bottom together) and the workmen have been raising a racket about wages. The state committee has finally settled the matter by allowing them enough to keep sole (spell it s-o-u-l if you want to) and body together, and they are pegging away again.

HEYMAN & DEICHES
