WARNER'S SAFE PILLS.

TRADE S.S.S. FOR THE BLOOD MARK

No Mercury, No Potash,

Or any other Mineral Poison.

It is Nature's Remedy, made exclusively from Roots and Herbs.

It is perfectly Harmless.

It is the only remedy known to the world that has ever yet *Cured contagious Blood Poison in all its stages.*

It cures Mercurial Rheumatism, Cancer, Scrofula, and other blood diseases heretofore considered incurable. It cures any disease caused from impure blood. It is now prescribed by thousands of the best physicians in the United States, as a tonic. We append the statement of a few:

"I have used S. S. S. on patients convalescing from fever and from measles with the best results. J. S. CHENEY, M. D., Ellaville, Ga."

BREMEN, GA.—Willie White was afflicted with scrofula seven years. I prescribed S. S. S., and to day he is a fat and robust boy. G. W. PARKER, M. D.

RICHMOND, VA., Dec. 15, 1885.—I have taken three bottles of Swift's Specific for secondary blood poison. It acts much better than potash or any other remedy I have ever used. B. F. WINFIELD, M. D., Formerly of Sussex Co., Va.

DR. E. J. HALE, the well-known druggist and physician, of Nashville, Howard County, Ark., writes: "Having some knowledge as to what S. S. S. is composed of, I can safely recommend it as the remedy for all skin diseases, it matters not what the name may be."

We have a book giving a history of this wonderful remedy, and its cures, from all over the world, which will convince you that all we say is true, and which we will mail free on application. No family should be without it. We have another on Contagious Blood Poison, sent on same terms.

Write us a history of your case, and our physician will advise with you by letter, in strictest confidence. We will not deceive you knowingly.

For sale by all druggists.

Incomparably the Best.

A PROSPEROUS YOUNG CITY.

Some Facts of the Resources and Advantages of Fullerton, Neb.

ITS LOCATION AND CLIMATE.

Crop and Stock Reports of Nance County For the Year 1887—Manufacturing and Commercial Interests.

Fullerton, Nebraska.

There is no town within the borders of the great state of Nebraska of which there has been so little written or said (historically or otherwise), and of which so much can truthfully be said, as of Fullerton, the county seat of Nance county.

For beautiful natural location and richness in resources there is not her rival in the state. Fullerton is located on a plateau at the foot of the divide of the great Loup and Cedar River valleys, and from her slightly elevated position, has a splendid view of the intersection of these two rivers a few miles below in what now becomes the Main Loup valley, widely known for its fertility and richness of soil. From a point a half a mile northeast of the town upon one of a series of prominent bluffs is presented a magnificent view of the Cedar River valley, extending as far to the northeast as the naked eye can see. Wending its way down this valley toward Fullerton is the beautiful Cedar river, of remarkable uniform width and consisting of a succession of short bends, from several of which where it is less than a half mile across from one bend to another, it is fully four or five miles around by the main channel. The banks on each side being heavily clothed with foliage of cedars and poplar, presents one of the grandest pieces of scenery to be found anywhere east of the great gorges of the Rockies or the cascades of the Alleghenies or Sierra Nevadas. Here is certainly a field for the view artist. It is unquestionably too grand and picturesque for the descriptive pen to do adequate justice. It is from this stream that Fullerton obtains her great natural and unlimited water power, which is now being utilized by means of turbine wheels and can be transferred by means of electricity to manufactories in any part of the city.

The young and prosperous city of Fullerton was located in 1879, the following year in 1880, they had a population of fifty people. In 1885 the population had increased to 900. It is now fully 1,500 and at the rate of increase for the past few years 2,000 inhabitants can safely be predicted in the year 1890. This is certainly a most excellent showing but nothing startling when consideration is given the fact that Fullerton has some natural advantages possessed by very few of our western cities, besides having a live, energetic, intelligent, class of business men who are zealously guarding her future interests and taking the lead in public improvements. They now have in contemplation a magnificent system of city water works upon the reservoir plan. The high bluffs immediately back of the city and overlooking the Cedar river afford an admirable location for a system of inexhaustible supply of reservoirs, from which they would have a 100-foot fall to the city, and about twenty foot fall from the city to either the Loup or Cedar rivers, not over a half mile distance north or south. It is also intended to place at the dam across the Cedar, where the force pumps will be located, a set of Turbine wheels from which the electric light dynamos will obtain power, also from which power can be had for other manufactories now negotiating for location here. This is certainly the grandest opportunity for a canning factory, woolen factory, paper mills, and, in fact, any kind of manufacturing interests, to locate their plants where power can be had cheaply, and in the very midst of an agricultural country, producing raw material for the manufacture of any article required for consumption at home or abroad.

THE CLIMATE.

Fullerton is peculiarly fortunate in her location. At an altitude of 1,710 feet, she has secured a most exhilerating and healthful climate in the hottest days of summer her nights are delightfully cool and the days are not at all oppressive because of the pure, dry atmosphere. The winters are exceedingly short and pleasant, compared with the long, cold, stormy and disagreeable winters of the north and northwest. Sickness is something almost unknown among her citizens, while lung and bronchial troubles were never heard of in this climate.

WATERWAYS AND SOIL.

Nance county is situated in the central part of Nebraska. It is commonly known as the Pawnee reservation. Its length, from east to west, is thirty miles, its breadth fifteen miles, and it contains about 280,000 acres. The soil is more fertile and the country better watered than any county, perhaps, in Nebraska. The Loup flows through the county its entire length; the Beaver and Cedar cross it from northwest to southeast. Besides, there are other streams: Skeedee, Cottonwood, Horse, Plum, Council, Timber and Ash creeks. It can be seen by a glance at the map that the county is plentifully supplied with water from these numerous water courses running in all parts of the county. Drouths do not, therefore, affect the crops in this section in any degree mentionable. The soil of the valley is, generally speaking, of a black alluvial, while on the Mesa land a rich, black, sandy loam prevails which for crop raising is not surpassed anywhere in the state, and for grass and grazing purposes there is no finer land on the continent. There is no portion of the states or territories offering better inducements to those wishing new homes or business locations than in Nance county. Unimproved lands can be had at from $3 to $10 per acre, and some as fine improved farms as can be found in any state in the union can be had for $10 to $25 per acre. Nance county has a slight advantage over her sister counties in another respect. Some ten years ago the entire county of Nance comprised the "Pawnee Indian reservation," selected originally by the Indians as such because of their knowledge of its being the finest land in the state. In 1878 the secretary of the interior ordered the reservation opened up for settlement and the lands sold by the general land department, which was accordingly done. Consequently the purchasers all have perfect title and are of a good class of people, who are able to put up substantial homes, and there is, as a result, not a homesteader, a pre-emption claim, or a sod house in the county. The county is free from debt, has a fine court house at Fullerton and money in the treasury. The population of Nance county is between 10,000 and 12,000. There are now forty district and two graded schools with sixty teachers and an enumeration or enrollment of 3,000 children between the ages of five and twenty-one years in the county.

CROP AND STOCK REPORT OF NANCE COUNTY, 1887.

The following statistics, showing the crops raised in the county during the year 1887, and live stock shipped and on hand during the year, have been carefully compiled by a committe appointed by the Fullerton board of trade. The figures here below given are totals of reports handed in by the farmers and stockmen of the county. They are reliable, and entitled to credit.

	Bushels and Tons.	Market Value.
Corn	639,512	$255,804 00
Wheat	64,101	32,050 00
Oats	215,349	43,043 00
Rye	8,351	3,340 00
Barley	9,534	3,813 00
Flax	18,724	20,000 00
Potatoes	12,625	6,000 00
Hay	16,846	67,384 00
Total	985,042	$431,440 00
	Number.	Value.
Hogs on hand Jan. 1, 1888	14,384	$143,840
Fat hogs sold during 1887	12,000	144,000
Total	26,384	$287,840
Cattle on hand Jan. 1, 1888	15,902	$300,050
Fat cattle sold in 1887	5,040	252,000
Total	21,002	$651,050
Work horses and mules on farms only	2,566	$320,750
Imported horses—Clyde, Shire, Percheron, 10; Standard tribes, 4	14	32,500
Total	2,580	$353,250
Market value of grain and stock in Nance county, including stock shipped out during the year 1887, and stock and grain on hand Jan. 1, 1888		$1,723,580 00
		No. of Cars.
All kinds of grain shipped during the year 1887		3,744
Fat hogs shipped		204
Fat cattle shipped		247
Total cars		4,195

Making in all a train of cars twenty-five miles long. All of this grain and stock raised and shipped in the year 1887, and from a county less than ten years old.

From present indications of crops this year there is no question but what the above showing will be increased at least 25 per cent in 1888.

RAILROADS.

Fullerton is located on the main line of the Omaha, Niobrara & Black Hills railway, 123 miles west of Omaha by rail. This road is practically a branch of the Union Pacific railway system running from Columbus to the Black Hills, and will probably be pushed forward from Cedar Rapids, its present terminus, before the shades of another autumn appear. The main line of the Union Pacific overland route is no doubt in time, to run via Fullerton and St. Paul to North Platte. This is almost a bee line from Columbus to North Platte and would shorten the present route very materially. The surveys and a portion of the grading for this cut-off, is is understood, have been completed.

The Northwestern railway, also the Chicago, Rock Island & Pacific and the Burlington & Missouri River road are all reaching out into the northwestern territory and heading for the rich Middle Loup and Cedar Valley country. It is highly probable that the latter company may build from Central City, in Merrick county, to Fullerton yet this season. This will give Fullerton most excellent railway and shipping facilities.

FULLERTON'S MANUFACTORY'S—ROLLER MILLS.

The Fullerton Roller Mills owned by G. Wheeler & Co. are the largest and most capacious of any in the Northwest. They were established in 1883, run by water power and have a capacity of about 150 barrels per day. The bulk of the flour from this mill is shipped to Iowa, Colorado and the Central part of Nebraska. The mill runs night and day, and the proprietors are contemplating the enlargement of the building and putting in more rollers. The following shows the amount of grain purchased at these mills in the year of 1887:

	Bushels	Value
Oats at 22c	15,000	$3,300
Corn at 30c	27,000	7,100
Wheat at 55c	60,000	33,000
Toll		4,000
Total	103,000	$47,400

BRICK.

Messrs. Hurley & Watts established a brick factory in Fullerton in 1882 and since that time have been supplying Fullerton and the adjoining towns with a superior building brick. They have an inexhaustible supply of fine brick clay in the bluffs on Cedar river. When running full force they have a capacity of 20,000 per day.

CIGAR FACTORY.

The cigar factory recently established in Fullerton by Mr. William Baxter is among the leading enterprises of that place. The present capacity is about 1,000 per day, but with increased facilities it will soon be able to supply the demand from the northwest territory with the best brands of cigars and tobaccos.

GROUND FEED FACTORY.

This factory is largely patronized by the surrounding country but the bulk of its product is shipped to Omaha and Denver. The capacity of this mill is about fifteen tons per day. It also turns out meal, flax seed, etc. Messrs. Wheeler & Co., of the roller mills, are also proprietors of this factory.

The following statement will interest the reader. It shows the amount of business done in Fullerton and the amount of capital invested for the year 1887:

	Capital.	Business.
General Merchandise	$45,000	$117,000
Blacksmithing	1,200	3,900
Hardware	11,000	39,000
Furniture	2,500	6,000
Livery	12,500	7,700
Groceries	6,200	31,500
Drugs	12,000	26,000
Lumber	30,000	100,000
Pumps and Windmills	1,500	5,000
Wagon Works	600	3,000
Millinery	1,800	4,400
Agricultural Implem'ts	10,000	35,205
Harness	2,000	5,000
Confectionery	850	2,700
Jewelry and Musical Instruments	6,300	12,600
Meat Market	4,000	7,000
Well Boring	—	1,000
Newspapers	—	6,825
Real Estate	—	321,412
Loans	—	96,500
Insurance	—	15,000
Amount paid for freight	—	24,316
Express	—	5,100
Total	$147,450	$876,448

Banking busines of Nance county, 1887:

Capital Invisted	$202,500
Loans and Discounts	311,632
Average Deposits	86,215
Exchanges Bought	954,051
Exchanges Sold	924,292
Total	$2,498,730

From such data as can readily be obtained it is safe to predict that the business of Fullerton in 1888 will show an increase of at least 25 or 30 per cent over that of 1887, as shown above.

ELEVATORS.

Fullerton is well supplied with elevators. The principal one is that of Fuller & Paton, established in 1883, with a capacity of 40,000 bushels of grain, and a capital investment, including their lumber and coal interests, of $35,000. This firm is among the heaviest buyers and shippers of grain, lumber, coal and live stock in the state. They are also large land owners and real estate dealers.

The elevator of G. Wheeler & Co., which is run in connection with the roller mills, was erected in 1884. It has a storage capacity of 20,000 bushels of grain, and represents, together with roller mills and ground feed factory, a capitalization of $33,000.

Lumry Bros' elevator, established in 1887, has a storage capacity of 10,000 bushels of grain. They are heavy buyers and shippers of all kinds of small grains, also deal largely in agricultural implements, wagons, carriages, buggies, phaetons, etc. There is no firm in the county carrying as large a supply of these articles as Lumry Bros. do. Their investment is about $25,000.

LUMBER YARDS.

There are three or four lumber yards in Fullerton, all carrying a good assortment of different grades and kinds of lumber, window frames, sashes, blinds, screens, doors, and everything in their line. Among the leading firms may be mentioned Fuller & Paton, E. M. Lagrange and H. Stevenson & Co.

BANKS.

The "First National Bank"—Chauncey Wiltse, president; Theodore C. Koch, cashier; capital stock, $50,000; surplus, $30,000. This is the oldest bank (by succession) in Nance county. Established in 1881, it is conducted upon a conservative policy and does strictly banking business. The president of the First National is one of the heaviest land owners in the county and the stockholders represent a half million dollars. It is considered one of the leading banks of the state.

THE "CITIZENS' BANK."

E. D. Gould, president; F. M. Lagrange, cashier; capital, $50,000; undivided profits, $15,000. This is a private bank, organized in 1883. It has a responsibility of $100,000 and is considered one of the strongest institutions in the state. It does a general banking business, negotiates farm loans and has for its correspondents the leading banks of Omaha, New York City and Chicago.

Hotels.

THE GAY HOUSE.

Fullerton can boast of her fine hotels. The new "Gay House" erected in 1887 of brick, upon the latest modern architectural designs at a cost of $15,000, has thirty-five large airy rooms; all modern conveniences; fine sample rooms for traveling men; house heated by steam, etc. This hotel takes rank with the Pacific at Norfolk, Eno at Fremont, Grand Pacific at Columbus, and Frank Gay, the proprietor, knows how to run it to suit the boys.

THE JUDKINS HOUSE.

The Judkins Bros., formerly of Red Oak, Ia., are now in Fullerton running this house. It was erected in 1880 and is the oldest regular hotel in the county. It has a good livery in connection with the house. The Judkins are widely known as hotel men and keep a first-class house with all modern conveniences.

The Fullerton hotel, kept by J. A. Knight, also the Commercial hotel by Z. E. Jackson, are both good houses and get a considerable share of the trade.

CHURCHES.

There are two churches in Fullerton, the Methodist Episcopal—Rev. J. W. Robinson pastor, and the Presbyterian—Rev. J. C. Irwin pastor. The Catholics have an occassional service in the hall, and are contemplating the erection of a fine church this season.

NEWSPAPERS.

The Nance County Journal is the official and the oldest paper of the county. It was established in 1879, has always been straight republican in politics, has the largest circulation of any paper in the county (about one thousand weekly), and is therefore the best advertising medium of the northwest. Mr. M. H. Barber, the editor and proprietor of the Journal, is one of the best informed men in the state, and one of Fullerton's leading citizens.

The Nance County Signal reorganized from the Fullerton Telescope in the spring of 1888. The Signal is republican in politics and has a circulation of about seven hundred weekly.

The Fullerton Post, democratic, was established in Fullerton in 1888, and for a new paper has quite a neat circulation of between three hundred and five hundred weekly.

Real Estate.

WILL G. JONES.

Since the townsite of Fullerton was laid out in 1879 there has been a steady demand for town lots and an immense business has been transacted by the real estate dealers. Mr. Will G. Jones, who established here in 1882, has been one of the most energetic and successful. Out of the $321,412 worth of transactions in 1887, Will Jones handled $179,912. As will be seen, considerable over half of the total transactions passed through his hands. He is a large owner and dealer in lands, negotiates farm loans, etc.

N. B. S. ODELL.

Mr. Odell, who does a general real estate and exchange business, is one of the earliest settlers in Nance county. He made over $100,000 worth of transfers and negotiated over $70,000 worth of loans in 1887. He is one of Fullerton's most enterprising citizens and has large landed interests in the town and country.

GEORGE S. M'CHESNEY.

The pioneer of Nance county, George McChesney, came to Nance county some two years before it was organized or sold by the Pawnees for settlement, and consequently knows every foot of ground in the county. He is doing a general real estate and loan business, and is considered one of Fullerton's leading citizens.

M. H. BARBER.

Mr. Barber, who is proprietor of the Nance County Journal, is one of Nance county's pioneers. He is largely interested in lands in this section, and does a general real estate, loan and commission business in Fullerton.

HARRIS BROS.

This is considered one of the heaviest real estate firms in Nance county. Messrs. S. and L. Harris are widely known in Nance county. They do a general real estate, loan and insurance business, buy, sell or exchange farm or city property.

ATTORNEYS AT LAW.

Meiklejohn & Thompson are the leading attorneys in Fullerton and Nance county. They also practice largely in the state and United States courts. Mr. George D. Meiklejohn, of this firm, is a graduate of Ann Arbor (Mich.) law school. He is now chairman of the republican state central committee and state senator from his county. Mr. Albert Thompson is a native of Illinois. He graduated in the St. Louis law school, came to Nebraska in 1886, and is considered one of the leading attorneys in the state. This firm also deals largely in real estate and farms in Fullerton and Nance county.

LIVERY STABLES.

Fullerton has three or four good livery and feed stables, the leading one of which is that of J. W. Zibbell, nearly opposite the Gay house. This is a stable of about fifty stock, among which are some fine matched carriage teams, roadsters and gaited saddle horses, as fine as will be found in any eastern city stables. Special attention is given to traveling men at these stables. Mr. Zibbell is an old settler, having established here in 1879, and now has a capital investment of about $20,000. He owns and controls the omnibus line and was at the last election made sheriff of Nance county by one of the largest majorities on the ticket.

J. E. KREIDLER & CO.

This firm is among Fullerton's largest mercantile houses. It was established in 1886, with a capital of $10,000. They carry a full line of hardware, stoves, ranges, barb wire, etc. Mr. Kriedler is a member of the board of trade of Fullerton and is regarded as one of her leading citizens.

Fullerton has many other mercantile houses not mentioned in detail. She has fixe general merchandise stores, three grocery stores, two drug stores, two hardware stores, three agricultural implement stores, two wagon and repair shops, two restaurants, two millinery stores, two meat markets, two jewelry stores, two harness stores, one dentist, one photographer, six carpenter, three fancy stock breeders, four painters, one billiard hall, three blacksmith, one confectioner, two barber shops, one furniture dealer, eleven attorneys at law, five doctors, six masons and plasterers and one nursery. Fullerton has one of the finest schools in the county. The high school with an enrollment of about one thousand two hundred pupils is conducted by the following able corps of teachers: G. W. Crozier, principal; R. M. Henderson, grammar school; Miss Mamie Smith, first assistant; Miss Lena Brady, second assistant; Miss Hester Spackman, primary.

Secret orders are well represented in Fullerton: A. F. & A. M. No. 89, I. O. O. F. No. 99, A. O. U. W. No. 63, G. A. R. No. 147, are located there besides a number of others in the county.

Any one interested in manufacturing would do well to look to Fullerton for a location. The country is new and far removed from large cities, and an immense home trade would result to the manufacturer. There is an excellent opportunity for manufacturers here. The water power is doubly valuable in a western country, where coal is high priced, and sometimes hard to get. Minneapolis and other towns of Minnesota owe their prosperity largely to the development of their water powers. For natural advantages the Cedar and Loup are not to be excelled. To the manufacturer, merchant, mechanic, farmer, or laborer, of the east, who are discontented and seeking a new location, we would say, a most excellent location can be had in Nance county; it is a new country, wants settlers and land can be had there on easy terms. Any person wishing further information in regard to Fullerton's great water power, real estate, or Nance county lands, can obtain the same by writing to Will G. Jones, N. B. S. Odell, M. H. Barber, George T. McChesney or Harris Bros., at Fullerton; they are all largely interested in town and county property and would be pleased to give any information desired.
